FOREWORD

We welcome you to our twelfth mail bid sale of numismatic literature. This is by far our largest sale so far. Consequently, we truly are confident that there really is something for everyone here.

We have begun the sale with a group of classic pieces of American numismatic literature. Our first lot is an original 1875 edition of Sylvester Crosby's EARLY AMERICAN COINS. Also included in this section is a rarely offered 1845 original edition of J.L. Riddell's A MONOGRAPH OF THE SILVER DOLLAR GOOD AND BAD. The copper enthusiast will find a copy of Edward Cogan's 1858 PRICED CATALOGUE OF THE PRIVATE COLLECTION OF UNITED STATES CENTS. A rare set of three original photographic plates from Henry Chapman's 1911 sale of the SIEDLECKI collection is also being offered here.

To accompany the recently released edition of John W. Adams' UNITED STATES NUMISMATIC LITERATURE, VOLUME II: TWENTIETH CENTURY AUCTION CATALOGS, Mr. Adams has consigned to us a nearly complete set of the auction catalogues of B. Max Mehl, including a nearly pristine deluxe presentation copy of the DUNHAM sale, and also a nearly complete set of Stack's auction catalogues.

The PROMINENT EASTERN NUMISMATIST has again consigned an extensive number of auction catalogues. Those in this sale are also from the dealers included in Adams book on twentieth century auction catalogues. Many of the sales are quite scarce

HANK SPANGENBERGER has consigned another grouping of fascinating and varied material including a rare plated copy of the United States Coin Company's 1913 MALCOLM JACKSON collection.

HARRINGTON MANVILLE has consigned an excellent grouping of English auction catalogues featuring a lengthy run of Spink sales.

We did not ignore those who are looking for reference books. Included are original and the good reprint copies of the important works by Sheldon and Newcomb. Another selection from DR. KARL LUTOMSKI features some important Canadian numismatic literature. CHARLES KIRTLEY has consigned additional material emphasizing tokens. JEFF ROCK has consigned some important references on early American coins. DAN HYLAN's consignment features many important references about both U.S. and world numismatics. RICK PONTERIO'S consignment is highlighted by a series of references about world coins, emphasizing Mexican and Latin-American coinage. Unfortunately time and space forbid our listing each of our important consignors and their marvelous offerings. However, the infinite variety of numismatic literature is indeed included in this sale.

To add to the usefulness of this catalogue, we have made our annotations even more expansive than previously as many of the items offered here appear so rarely. We hope you enjoy what we believe to the best catalogue we have produced so far. We thank each of you who have consigned to this sale, and we thank each of you who have bid in our sales and who will be bidding in this sale. We could not do this without you. So, enjoy. Good hunting.

MAIL BID SALE TWELVE

This sale begins with a selection of early, classic works of American numismatics consigned by a variety of collectors. With modern American numismatics having grown so large both in size and scope, these examples from the early days of our hobby offer us the opportunity to consider the beginnings of American numismatics. It also affords us the opportunity to reconsider the future of our hobby. Although our first lot is not listed in the proper alphabetical order, we feel that due to its importance to American numismatics, it is most appropriate for it to be our first lot.

Crosby's EARLY COINS OF AMERICA

1. Crosby, Sylvester. EARLY COINS OF AMERICA; and the Laws Governing their Issue. Comprising also Description of the Washington Pieces, the Anglo-American Tokens, Many Pieces of Unknown Origin, of the Seventeenth and Eighteenth Centuries, and the First Patterns of the United States. 1875. 4to, full leather, black corner panel and corners, maroon center, gilt stamped Constellatio Nova Mark on the front cover, spine with 5 raised bands, lettered in gilt. Marbelled endpapers. The corners and the ends of the spine are heavily worn with some wear along the edges. Pages (i-iii), iv-v, (vi-x, 11) 12-381. 110 wood engravings. 2 manuscript plates. 10 tissue interleaved plates. The covers are VG. The binding is sound and tight. The contents are nearly VF. (600.00) PLATE

"This recent publication is a valuable reference to numismatic science in this country whether as a work of reference or for the study of the subject matter, it will be found to be the fullest and most reliable work on "Colonials" yet published." (Attinelli, p. 104)

In the late 1860's, the American Numismatic Society directed its Publication Committee of six, chaired by Crosby, to create the most complete and thorough work on early American coinage that had yet been published. In fact, Crosby soon became a committee of one. Yet, by himself he created what may very well have been the work which has most affected the direction of the science of American numismatics. It must be noted that over a century after its release, the "Crosby" still remains the standard one volume reference for colonials.

Between 300 and 350 copies were originally produced. Lyman Low once mentioned a number of 500. However, many original copies are in public and institutional libraries. Although various reprints were produced in 1945 by Ruth Green, in 1965 by TAMS, in 1970 by Burt Franklin, in 1974 and 1981 by Quarterman, the demand for original copies far exceeds the supply

While this copy is not perfect, its use gives it a certain charm and appeal that takes one back to the nascent days of American numismatics. It is also worthwhile to note that the plates are completely free from the waterstaining which many copies have.

Ordway's 1869 THE AMERICAN BOND DETECTOR

2. American Bond and Currency Detector Company (Nehemiah George Ordway). THE AMERICAN BOND DETECTOR; and Complete History of the United States Government Securities; Issued under the Sanction of the United States Treasury Department, and Containing Superb Illustrations, in Genuine Tints, Printed at the Treasury Department. From the Original dies in the Possession of the Government, of All the Bonds issued under the Acts of Congress from July 17, 1861 to March 3, 1868, Together with a Full Description of All Genuine Plates, and Complete Rules for the Detection of Counterfeits; Also, Valuable Plates of Existing Coins, and Important Statistical Tables.. 1869. Oblong folio, original green pebbled cloth, gilt. (6) 100 pages of which 17 are tables. 6 (of the 22 originally called for) plates of bond designs, some in color. 1 (of the 9 originally called for) defective plate printed in metallic colors and in relief. The covers are heavily worn at the edges. The spine is missing. Completely disbound, the text is complete. Some of the pages are chipped at the edges. The 6 present plates are clean and Fine or better. A research copy. (200.00)

The plates present are numbers 4, 8, 12, 14, 17, 20. With judicious repair by a good binder, one would have a VG or better copy of the text with 6 plates. In addition to the well-known information about the bonds, pages 37 to 66 deal with coinage of the world, 15 of the pages devoted to U.S. coinage apparently written by Snowden. Good historical information is given for each of the U.S. coins or series which were depicted (unfortunately, none are present) including colonials; copper, silver and gold coinage, and patterns.

In the Spring 1982 issue (Volume II, Number 1) of THE ASYLUM. The Quarterly Publication of the Numismatic Bibliomania Society, Kirby Brown (who consigned this particular copy) wrote a fascinating article "The Origin of the Coin Plates in the American Bond Detector". In addition to providing some important background information, Kirby observed that the 9 coin plates in this 1869 work were actually identical to the plates in Snowden's 1860 A DESCRIPTION OF ANCIENT AND MODERN COINS IN THE CABINET OF THE UNITED STATES. The Snowden had 27 embossed, metallically tinted plates. Kirby observed that each of the BOND DETECTOR coin plates contained 3 of the Snowden plates. Kirby also noted that the text accompanying the coin plates "is virtually identical to the Snowden book." (Brown, p. 10) (See what you are missing by not being a member of the Numismatic Bibliomania Society.)

Despite the quality (or lack thereof) of this copy, because the text is complete, it is still quite useful and most affordable as complete copies of the rare work sell for thousands of dollars.

The Rare Photographic Plates from the Henry Chapman Sale of the REVEREND STANISLAUS SIEDLECKI Collection

3. Chapman, Henry. The Set of 3 Fine Photographic Plates from the REVEREND STANISLAUS SIEDLECKI Collection. The sale held April 22, 1911. It was a large format catalogue having 61 pages and 819 lots with 3 plates. The plates have the slightest chipping on the edges of the large margins. The third plate has 2 horizontal folds at the bottom; the uppermost has intruded 1 centimeter into the photograph. There is a 3

centimeter separation along the lower fold in the margin. Thus, the first two plates are each nearly VF. Plate three is VG. (450.00) PLATE

Adams rated the sale "B+" with an "A" for Europe. While most of the large format sales had 100 sets of plates produced for each sale, the Jenks sale only had 60 sets produced, and the Siedlecki had only 50 sets produced, the fewest prepared for any individual Chapman or Chapmans brothers sale. PLATE I shows ancient Greek gold and silver, British gold 4 U.S. coins are illustrated: the reverse of a Mormon $5.00 gold, an 1879 stella, a 1783 Washington cent, and the reverse of a 1907 (apparently) $10.00. PLATE II shows European, mostly Germanic gold and silver coins. Only 1 U.S. coin is illustrated, and 1851 U.S. Assay Office $50.00 octagonal slug. PLATE III shows European coins and medals. 7 U.S. silver dollars are shown, both obverse and reverse: 1794, both major types of the 1795, 1797, 1802, and 1838 & 1839 Gobrecht dollars. The last 4 dollars each have the aforementioned fold intruding upon the date area on the obverse of each dollar.

According to George Kolbe in his sale of the Lester Merkin library, June 15, 1984, in lot 235, "According to the catalogue, fifty copies were to be issued, but it is likely that far fewer copies were actually distributed". Specifically 50 large format plated catalogues were to be issued The unplated catalogues were issued in small format. As these plates were only with the catalogue, (none were sold separately) the opportunity to obtain a complete set of original plates from this sale is quite special.

4. Cogan, Edward. PRICED CATALOGUE OF THE PRIVATE COLLECTION OF UNITED STATES CENTS, THE PROPERTY OF EDWARD COGAN, SOLD AT THIS STORE BY PRIVATE BIDDINGS, THE FIRST NOVEMBER 1858 1858. 9.5 inches by 5.75 inches. Tan paper covers. 3 pp. The covers are chipped at the edges and at the backstrip. The front cover shows some soiling. The contents are clean and Fine. (100.00)

This sale is generally credited with starting the widespread collecting of United States large cents. The best, early account of this particular sale and catalogue was written by E.J. Attinelli in his 1876 classic NUMISGRAPHICS. The cents from Cogan's private collection were exhibited in Cogan s Philadelphia store. Bids for the coins were to be made in sealed envelopes with the envelopes to be opened in his store on November 1, 1858. Essentially this was an "unmail" bid sale. Nineteen bidders participated. Because of the interest generated by this sale, Cogan printed this catalogue with a 2 page horizontal chart having each of the cents listed down the left hand side of the page. Across the top of the page are listed the bidders, each numbered from 1 to 19 (none are named.) Subsequently each of the 19 bidders' bids are entered for each cent he bid upon. Then the right hand side of the chart lists the successful bid for each cent.

Although this is not precisely an auction catalogue, it is Cogan's first catalogue and is also the first work in American numismatics to be devoted exclusively to large cents.

5. Dickeson, Montroville Wilson. THE AMERICAN NUMISMATICAL MANUAL OF THE CURRENCY OR MONEY OF THE ABORIGINES, AND COLONIAL, STATE, AND UNITED STATES COINS. With Historical and Descriptive Notices of Each Coin or Series. Illustrated by Nineteen Plates of Facsimiles. 1859, 1st ed. 4to, later blue library buckram. 256 pp. Frontis of author. Libertas Americana plate. 19 numbered plates printed in color and metallic tints. One plate has a small corner of the margin torn away. The covers and the contents are VG. (150.00) PLATE

C-S 12280. Ex-libris Indianapolis Public Library with a neat bookplate on the inside cover, and a neat cancellation inkstamp on the rear endpaper. The few interior library markings are non-obtrusive and minor.

Quoting from the estimable George Kolbe in his Seventh Joint Auction with Spink of Important Numismatic Books, December 9, 1988, lot 7, "Medical doctor, American archaeologist and numismatist, Dickeson in this popular work endeavored for the first time to cover the entire range of American numismatics. Like most pioneering efforts it is not without error. Nonetheless, it found immediate and widespread acceptance going through three editions in six years. It was an attractive, well-produced and extensive work filled with information still of interest today."

It is quite unusual to find this work in excellent condition as these were extensively used. Three editions were produced in 1859, 1860, and 1865 because of the lack of other substantial references about American numismatics. Although this library buckram binding is quite sound, we would recommend a more suitable binding.

6. Eckfeldt, Jacob R. & William E. Du Bois. NEW VARIETIES OF GOLD AND SILVER COINS, COUNTERFEIT COINS, AND BULLION; WITH MINT VALUES. 1852 3rd ed. 8vo, decorated black cloth, gilt. 101 pp. 5 engraved plate. The covers are heavily rubbed and worn at the extremities, with the bottom quarter of the spine partially torn loose. The contents are VG or better. (75.00)

This is especially important for the section on gold from California, and a list emissions with engravings of private gold. The title listed above refers to the first section of the book. The section, by DuBois is "A Brief Account of the Collection of Coins Belonging to the Mint of the United States, more particularly of the Antique Specimens". It is an annotated listing of the mint s holdings of ancient Roman coins Scarce.

7. Loubat, J[oseph] F[lorimond, Duke of]. THE MEDALLIC HISTORY OF THE UNITED STATES OF AMERICA, 1776-1876. With 170 etchings by Jules Jacquemart. Volume I, THE TEXT VOLUME ONLY. 1878. New York. Folio, orange cloth, gilt. lxix, 478 pages in text volume. The covers are soiled, badly worn, and heavily discolored. The covers are nearly disbound from the contents. The contents are clean, defect-free, and essentially VF. (75.00)

C-S 15073* One of the handsomest works ever produced pertaining to American numismatics Jacquemart's plates, not present, were printed on India paper and then mounted on thick hand - made paper especially produced for this work.

Loubat was the first author to systematically investigate medals of the United States. He indicated that by the time he undertook the production of this work that most other countries already had "costly publications [about their national medallic history], illustrated by elaborate engravings, with carefully prepared letter - press description and notes". Records indicate that this project cost Loubat a great deal of money, much more than he recovered from the sales of the book. Thus he appears to have established a precedent for the vast majority of numismatic authors and publishers in this country

The "Introduction" is a riveting narrative about the challenges Loubat underwent in acquiring the necessary information to write this work. His account reveals a great deal about mint practices, engravers, and the early days of numismatics in this country. The contents of the text volume contain biographical information and all pertinent documents about each medal

For the plate volume which is not present, there is an engraving of extraordinary quality for both the obverse and the reverse of each of the 86 medals. The engravings have such aesthetic medal that plate volumes are disbound, having the engravings mounted, framed, and sold to collectors of engravings and fine art which may well have happened in this case. This explains why often only the text volume appears. This majestic work is truly a centerpiece for a fine library of American numismatics.

Because of the extraordinarily wide margins and the superior quality of the paper, and because of the pedestrian nature of the binding and covers, it was obvious that as was typical of many important books in the nineteenth century, the purchaser of this work would be expected to have this immediately rebound in a fine binding. Consequently, with the quality rebinding that this volume deserves, one would have a Very Fine copy of the text volume.

A Rare Original Copy of J.L. Riddell's 1845 A MONOGRAPH OF THE SILVER DOLLAR,

8. Riddell, J.L. A MONOGRAPH OF THE SILVER DOLLAR, GOOD AND BAD. Illustrated with Fac-Simile Figures of Four Hundred and Twenty-Five Varieties of Dollars and Eighty-Seven Varieties of Half Dollars, Including the Genuine, the Low Standard, and the Counterfeit; Giving Their Weight, Quality and Exact Value, and Enabling the Inexperienced to Detect Those which Are Spurious. 1845. 8vo, quarter leather and cloth, the spine with 4 raised bands. Marbelled endpapers. (366) pp. Illustrations of the obverse and reverse of 512 coins with accompanying text. The corners, especially the top corner of the front cover, and the ends of the spine are heavily worn with some wear along the edges. A 50mm circular stain on the front cover. A previous owner's name written heavily in ink on the front endpapers. Otherwise, the binding is sound and tight. Slight foxing in the contents, otherwise the contents are clean and Fine. (800.00) PLATE

C-S 12335. Riddell, a chemistry professor, was also the Melter and Refiner at the New Orleans Mint. Riddell wrote that when he assumed his position with the New Orleans mint in 1839 that "well-executed counterfeit Mexican dollars abounded in the general circulation to a disturbing extent. In trying to devise a remedy for the evil, by rendering their detection easy, I soon conceived an idea of producing something like the foregoing work"

The illustrations which appear to be rubbings rather than engravings were made from "metal types adapted for printing, indirectly from the coins themselves, which, if they did not always make a handsome print, give a perfectly correct, and I think satisfactory representation."

Nearly 450 of the illustrations are of Mexican and Latin American dollars and counterfeits. Also included are a 14 illustrations of "good" U.S. half dollar "types or varieties" from 1795 to 1843; and 36 illustrations of counterfeit half dollars.

This early work relevant to American numismatics and counterfeit detecting is rare. Auction appearances of this work are few. When this was offered in the nineteenth century auction catalogues that we have catalogued, it was called "rare" even then in its few appearances. Among this title's few auction appearances in the last decade were the George Kolbe's 1981 Champa/Lee sale, and Kolbe's 40th sale in June of 1989.

9. Snowden, James Ross (Director of the Mint). A DESCRIPTION OF ANCIENT AND MODERN COINS IN THE CABINET COLLECTION AT THE MINT OF THE UNITED STATES. 1860. 8vo, tan (or faded green) decorated cloth. 412 pp. 27 plates of coins printed in relief and in metallic tints. The covers are faded and discolored. The ends of the spine are chipped. The covers are rubbed at the extremities. The plates are slightly toned. But for some slight foxing, the contents are Fine. (125.00) PLATE

The front flyleaf contains the following pencilled inscription, "Presented to Mrs. Mary Snowden. with the affectionate regards of her uncle. The Author. October 1. 1867." [We cannot vouch for its authenticity.]

Despite this work being known eponymously as a "Snowden", Snowden readily acknowledged that George Bull, who had recently been put in charge of the mint cabinet, assisted by William E. Du Bois, prepared and arranged this book. Also of note, this was the first occasion that the chromolithographic process for coloring embossed plates was used in American printing. The "Snowden" has long been regarded as one of core early books in an American numismatic library. The description of the condition notwithstanding, this is not a bad copy.

Selected Duplicates from the Holdings of JOHN W. ADAMS

The Auction Catalogues of B. MAX MEHL. A Nearly Complete Offering

We are quite pleased that Mr. Adams consigned this large, nearly complete, grouping of the auction catalogues produced by B. MAX MEHL. Of the 116 Mehl sales, 113 are offered here. The 3 missing sales are numbers 10, 66, and 68. The most recent offering of a complete set of Mehl sales was in Cal Wilson's Fifth sale, August 14, 1983, which he estimated at $6000. The other two recent substantial offerings of Mehl sales were both in George Kolbe sales: the Ted Craige sale, August 13, 1983; and his Public Sale XXI (June 4-5, 1985). Each of those contained fewer sales than are offered here.

The earliest sales are each small format, generally 23.5 by 17.5 centimeters. Assume that the sales are small format as relatively few Mehl sales were large format until the 1940s. The large format sales will be specifically indicated. While many of the later sales are relatively common, the earliest sales are rare in any condition. With the Mehl sales being included in John W. Adams' recently released second volume, we have already seen renewed interest in them. Cataloguing this virtually complete set was a great joy.

10. Mehl, B. Max. [Sale 1] Auction Sale. Collection of United States Coins in Gold, Silver and Copper.... May 12, 1906. 20 pp. 635 lots. The covers are disbound and chipped. The contents are clean and Fine. (50.00)

103. Mehl, B. Max. [Sale 97] Catalog of the Celebrated Numismatic Collection Formed by WILLIAM FORRESTER DUNHAM, Complete Series of the United States Coinage, From Half Cents to Twenty-Dollar Gold, From the First Coinage to 1936, Including the Most Famous of All Rarities, The "King of American Coins", The 1804 Dollar! And the "King of All Rarities", the 1822 Half Eagle!.... June 3, 1941. Quarto, full maroon grained leather, gilt. 287 pp. 4169 lots. Frontis portrait. Text illustrations, silver tinted full page plate of the 1804 dollar; gilt tinted full page plate of the 1822 half eagle. 6 full page photographic plates depicting both sides of the 1804 dollar, the 1822 half eagle, and the 1855 Kellogg & Co. fifty dollar gold piece. Inserted in the black leather slipcase, gilt. Nearly Mint. (750.00). PLATE

Adams, A+ with 6 "A" ratings for half cents, early silver, U.S. gold, fractional currency, Confederate, and Canada; 2 "A-" ratings for tokens and literature; ratings in 23 of 25 possible categories, 19 of them "B" rated or higher "A Murl Kimmel" stamped in gilt on the lower right front cover. Signed in ink by Mehl on the title page

Mehl justifiably regarded this as his "magnum opus". A few of the highlights are the Dexter 1804 dollar, the 1822 half eagle, proof Kellogg $50 00, 1884 trade dollar, 18 proof half cents, incredible patterns, superior gold, "definitive" encased postage, outstanding Hard Times tokens, ad infinitum. Dunham s collection lacked only the 1815 half eagle, which he deliberately avoided obtaining as he feared that he would lose interest in numismatics if he completed his collection.

Deluxe copies of the Dunham sale are decidedly rare; it is estimated that fewer than 25 deluxe copies were originally prepared. Choice copies are especially elusive: the Ted Craige sale copy was described as Fine; The Kolbe Champa/Lee copy was described as Fine; the 1988 Kolbe/Spink copy was described as Fine. The 1990 Kolbe/John Adams copy (yes, Mr Adams had another one) was clearly illustrated and described as Fine. This copy is pristine.

122A. Mehl, B. Max. EACH OF THE PRECEDING LOTS OF B. MAX MEHL CATALOGUES.

TO BE SUCCESSFUL, THE BIDS FOR THIS LOT MUST EXCEED THE TOTAL AMOUNT OF THE BIDS FOR EACH OF THE PRECEDING LOTS OF B. MAX MEHL CATALOGUES.

STACK'S has conducted over 400 sales in over 50 years. During that time they have handled distinguished collections and virtually all of the great rarities [What other company can say that they offered a 1933 $20.00?]. Many of their auction catalogues have become basic references. Many are quite scarce. Unfortunately, many of their catalogues, which are among the top rank of all numismatic auction catalogues ever produced, have been taken for granted regardless of the superior quality of their offerings, research, and production values.

The sales before the end of World War II are quite scarce. Because of their scarcity, we will offer those sales individually so we may annotate them for the collectors. At the end of this offering of Stack's sales, we will offer the opportunity to obtain the entire grouping as one lot. We are pleased that this consignment offers a virtually complete set of Stack's sales through 1976.

The catalogues, with few exceptions which will be noted, were small format, with pictorial heavy card covers of various colors through 1940. Through 1945, the small format sales had matte white card covers. From 1947 through 1955, the small format sales had glossy white (mostly) card covers. Generally through the 1940's, Stack's conducted only one large format sale per year. Generally after 1958, the small format was abandoned.

123. Stack's. [Sale 1] Catalogue of Rare Coins and Medals. October 18-19, 1935. 53 pp. 1403 lots. The covers are slightly soiled, cornered and with some roughness at the backstrip. A very few marginal checkmarks inside, otherwise the contents are clean. Generally VG. (75.00)

Some good early U.S. gold with an 1804 $5.00. European shooting medals. 150 lots of ancient Greek and Roman. Papal medals. Foreign crowns. As a footnote, this was the only Stack's sale produced with the staples through the gutter margin of the covers and the contents. This really is not a bad looking copy. Although Stack's issued a complimentary reprint of this catalogue in 1985 for its 50th anniversary, originals are quite scarce.

124. Stack's. [Sale 2]. Catalogue of Interesting Consignments of Well Known Collectors. January 18, 1936. 42 pp. 927 lots. Dampstained, thus the aquamarine covers are discolored. 242. Stack's. [Sale 136] The ANDERSON DUPONT Catalogue, Part I: U.S. Large Cents. September 24-25, 1954. 8vo, copper CaC. 92 pp. 1028 lots. Photocopied Prl. 11 page plate supplement. The covers are typically rubbed and worn. The contents are clean and Fine. (30.00)

Adams, A with an "A" for large cents. The sale is noteworthy for a variety of reasons. Dr. Sheldon catalogued this legendary sale apparently with research assistance by Walter Breen. Obviously the extensive text is of the highest importance The offerings include 524 "Sheldon" dates: 24 1793s, 75 1794s, 70 1803s, and a 1795 "Jefferson head".

For a seminar in large cents, just sit down with a copy of Sheldon's Early American Cents (which was the standard reference at the time), this catalogue, and you will be enthralled. The contents of this particular catalogue are in unusually good condition. Anderson Dupont is the name of a New England antique firm, not the name of the original collector, whose name has yet to have been disclosed. The full story of this remarkable collection has yet to be told, nearly 37 years afterward.

243. Stacks. [Sale 137] Tenth Annual New England Numismatic Association. October 9-10, 1954. 34 pp. 961 lots. VF. (15.00)

Adams, C+. Good half dollars from Bust to Barber, including a proof 1854-O half. 80 lots of attributed Hard Times Tokens. Rather scarce.

244. Stack's. [Sale 138] The ANDERSON DUPONT Catalogue of United States Silver and Copper Coins, Part II. November 11-13, 1954. 8vo, silver CaC. 118 pp. 1694 lots (lots 1029 to 2722). PRL. Ills. VF. (25.00)

Adams, A with 4 "A" ratings for half cents, patterns, early silver and late silver. C-S 12364. Although part one of this sale devoted to the magnificent large cents which were catalogued by Dr. Sheldon has long been considered a classic, this second part with superb half cents has seen a significant increase in interest since the enthusiasm generated by Bowers and Merena's Norweb half cent offering. Included are 14 superior half cents with the "finest 1796 with pole ever offered." The half cents are profusely described, thoroughly attributed, and well-provenanced. Also offered: extensive bust coinage in all series, 6 1877 pattern halves, the "finest known" 1870-S silver dollar, and an 1884 trade dollar. Scarce and important, especially in nice condition.

245. Stack's. [Sale 140] United States, Foreign Gold, Silver and Copper Coins. [Douglas, Mass. Consignment of Large Cents]. April 2, 1955. 977 lots. Priced in the margin. The covers are soiled and split at the ends of the backstrip. The contents are Fine. (10.00)

Adams, C+. 118 attributed large cents, with good text by a most knowledgeable, but anonymous, cataloguer.

246. Stack's. [Sale 142] The DR. CLIFFORD E. SMITH and Son Collection of United States, Foreign, Ancient, Gold, Silver, Copper Coins. May 6-8, 1955. 86 pp. 2073 lots. 17 pls. The covers are better than Fine. The contents are VF. (25.00)

Adams, B+ with an "A-" for U.S. gold. The first third of the sale is excellent world coinage, mostly gold. 1796 with pole half cent, 1796 & 1797 half dollars, unc 1873-CC & 1874 CC half dollars, 1794 dollar with "GW" counterstamp. Also 1851, 1852, and 1858 proof dollars. Excellent early gold $2.50s. 1873, 1876, 1877 proof $3.00s. Rare $5.00s: 1815, 1819, gem unc 1827, 1829 large date.

This may be the most difficult Stack's sale to find in nice condition. Because of the stiff gold card covers, and with the contents being glued at the backstrip, it seems that once this catalogue is opened, it becomes VG. Other than obtaining a mint copy, this is about the nicest copy one could encounter. Because this catalogue is normally seen in such terrible condition, its significance unfortunately tends to be ignored.

247. Stack's. [Sale 143] The Celebrated DR. FRANK A. LIMPERT Collection of U.S. Paper Money [and] Fractional Currency. September 24, 1955. 40 pp. 676 lots. Clean and better than Fine. (15.00)

Adams, A with 2 "A" ratings for early silver and later silver, and 2 "A-" ratings for large cents and proofs. The two Miles collection sales (the first one offered in the above lot contained Miles' superb gold coins) are the most infrequently offered Stack's sales of the 1960's. Perhaps its scarcity accounts for its being so underappreciated. Highlights include 76 super half cents: Unc (!) 1796 with pole, 1796 half cent w/o pole, "possibly finest known 1797 lettered edge", "finest known" 1811 G-1, 1811 restrike, 36 (yes 36) proofs. 150 superior large cents: 1793 "Ameri" census, "finest known" 1796 S-99, census 1799, etc.

Super half dimes with an 1802 half dime, superior bust dimes, 1876-CC 20 cent piece. Outstanding bust quarters with 1823/22 and both an 1827 original and restrike. Generally all the great seated silver rarities: 1855 with arrows proof half. Excellent bust dollars. "The most complete Collection of Gobrecht Dollars ever sold at public auction. 8 different varieties." Except for there not being an 1804 dollar or an 1881-S Morgan in MS-69, there is no reason for this catalogue not being considered one of the truly classic American sales.

267. Stack's. [Sales 229-230, 232-236] The Remaining 7 Sales from 1969. All have Prls. (25.00)

273. Stack's. [Sale 282] The Numismatic Properties of the ESSEX INSTITUTE, Salem, Massachusetts. United States Coins. Foreign Coins. February 6, 1975. 107 pp. 1282 lots. Prl. Ills. 9 monochrome photographs of the obverse and reverse of 9 important large cents, each obverse/reverse pair affixed to a 3x5 file card. VF. (25.00)

Adams, B+ with an "A-" for large cents. Highlights include excellent colonials, bust dimes, half cents, and especially 103 lots of important large cents. In addition some inked descriptions and buyers are noted for several of the large cents. Photographs of nine important large cents, both obverse and reverse are included with each obverse/reverse pair of photos neatly glued to an individual file card. Each of the photographed large cents is also illustrated in the catalogue in halftones.

The photos are of lot 136, a 1796 S.94 unc (noted in the text by Adams as AU-55); lot 137, a mint red 1796 S.93 (Adams noted MS-65); lot 138 Nichols find 1796 S.119, p/l unc; lot 139, Nichols find 1797 S.123 mint red p/l unc; lot 141; 1797 S.135 p/l unc; lot 147, 1800 S.203 "finest known" (MS-70-/60+); lot 148, "unique [mint state]" 1801 NC-1, red p/l unc; lot 149, "finest known" 1801 S.216 gem red, ["MS-65+, awesome, Adams"]; lot 156, "finest known" 1803 S.254 "mint red gem" (MS-70/65, p/l); lot 157, 1803 "unc, mint red" (MS-65-/60+).

The ROBERT J KISSNER Sale with Photographs of the Obverse and Reverse of 18 1794 Cents.

274. Stack's.[Sale 288] The ROBERT J. KISSNER Collection. June 27-28, 1975. 91 pp. 1041 lots. 10 halftone plates in the text. 12 photographs, each with with 6 obverse or 6 reverses of 1794 cents. Inked annotations in the section on 1794 large cents. Essentially VF. (50.00)

Adams, B. Called "the 1794 man" by W.S. Sheldon, Kissner assembled a super collection. 213 well-attributed and provenanced, early dates are illustrated on 7 halftoneplates. Also included are 59 1794s with a "starred reverse" and many "finest known" and census coins. Additionally included are 130 attributed New Jersey coppers, the most since the Spiro sale, which is now a expensive catalogue. This is a super collection that is vastly underrated.

Each of 6 monochrome photographs was printed on a 5x8 inch sheet of paper with six obverses on the top half, and the six corresponding reverses on the bottom half. Subsequently, each photograph was cut in two; thus, there are now 12 4x5 inch photographs. The quality of the photographs vary in quality. Consequently, the photos of perhaps 4 coins are inferior. The photographs are of lots 212, 213, 216, 220, 223 (S-21, the Frossard plate coin), 224, 225, 226, 228 (S-25, the Hays-Frossard plate coin), 230 (S-26, "Original Hays coin"), 232, 233 (S-29, The Pearl plate coin), 234, 235 (S-31, The Pearl plate coin), 238, 239, 240 (S-41, The Pearl plate coin), 242 (S-43, the Hays-Frossard plate coin), 243 (S-44, The Pearl plate coin), 247, 248, 250, 251, 252, 254, 257, 262, 263 (S-64, The Pearl plate coin), 264, 265, 266, 267 (S-68, The Pearl plate coin), and 271.

Also of note is that many of the 1794 cents have most useful annotated text added in Mr. Adams' handwriting.

275. Stack's. [Sale 290] The DR. E. YALE CLARKE Collection of United States Coins. October 25, 1975. 64 pp. 514 lots. Ills. But for some color rubbed onto the back cover from another catalogue, VF. (20.00)

Adams, B+ with an "A-" for large cents. A truly ignored treasure. 96 excellent attributed large cents with provenances from Helfenstein, Straus, Wallace, Kingman, etc. Includes the MS-70 1794 St. Oswald cent. Obviously many are census coins with excellent text. Also 77 quality bust halves with superb 1794 to 1797 examples. This sale is most infrequently offered. We also have noted that this is extremely scarce in nice condition.

276. Stack's. The Remaining 7 Sales from 1975. 6 have PRLs. (35.00)

The 10 catalogues which Stack's produced in 1975 represented their best overall year to that time. Among the sales worthy of special note are:

The important DR. DAVID SPENCE collection of colonial coins; (Adams, A- with an "A" rating for half cents and an "A-" for colonials.)
The APRIL sale of outstanding U.S. and foreign gold; (Adams, B)
The important CORNELL/OGLETREE collection of excellent colonials, large cents, patterns, and bust and seated dimes and half dimes; (Adams, A- with 2 "A-" ratings for colonials and early silver.)

277. Stack's. The Outstanding TAD COLLECTION OF U.S. LARGE CENTS. February 4-6, 1976. 127 pp. 1471 lots. Ills. The covers are slightly soiled. Nearly VF. (20.00)

The large cents are priced in ink along with the buyer's initials. C. Douglas Smith catalogued this important collection of cents which has important text and impressive provenances. There are 199 large cents of which 85 are early dates. "The great majority [of cents], including the significant rarities, are in such a splendid state of preservation that they have a hypnotic quality all their own." Additionally, there are 105 lots of attributed Overton halves. An important copy of an important sale.

278. Stack's. The JOHN WORK GARRETT Collection / The JOHNS HOPKINS UNIVERSITY. March 12-13, 1976. Brown flexible leatherette card covers. 176 pp. 678 lots. Ills. 4 color pls. The Preview booklet tipped in. The covers are nearly VF. The contents are VF. (30.00)

This is perhaps the most elusive of all of the Stack's sales from the 1970's especially in nice condition. The sale is particularly important as these coins were the first part of the Garrett holdings to be offered at auction, three years prior to the Bowers & Ruddy Garrett collection sales. Highlights: 1793 wreath cent, S-11b, ex-Frossard 1884; important half cents; Gobrecht dollars; 200 proof gold coins from 1863 to 1906, including an 1875 gold proof set; 4 aluminum stellas; 140 patterns. Most important !

279. Stack's. 1976 ANA Sale. August 24-26, 1976. 448 pp. 4178 lots. Illustrations and plates. The uppre right corner of the front cover is bent. The covers are rubbed (perhaps as made). The contents are VF. Overall nearly Fine. (20.00)

Excellent half dimes with an 1802. Good bust dimes with "unique" 1830/29 proof. 1823/22 & 1827 original quarters. 600 lots (!) of important U.S. gold: 1841 proof $2.50, 1876 proof $3.00, 1815 $5.00, 1829 $5.00. 170 lots of patterns. This sale consisted exclusively of U.S. gold coins, many provenanced, perhaps the average of fewer than 4 lots per page will illustrate how much text information is provided. This small grouping realized over $1.2 million. 98 lots of excellent $1.00s with patterns, 1854-D, 1860-D, 1855 proof, 1858 proof, 1875, and 1870-S. 38 lots of $2.50s from 1834 onward: uncs of 1836, 1838-C, 1848 "Cal", 1853-D, 1857-D, 1862 proof, 1875 proof. An Important Consignment from A PROMINENT EASTERN NUMISMATIST

282. American Numismatic Society. NUMISMATIC LITERATURE. The first 113 consecutive issues from Number 1 to Number 113. 8vo, self covered from number 1 (October 1947) through number 76. 8vo, red printed CaC from number 77 to 113 (March 1985). Fine (some of the early issues) to Nearly Mint. (175.00)

Since 1947 the ANS has produced (roughly semi-annually) an annotated bibliography (abstract) of numismatic literature published throughout the world during the listed time period. They replaced von Bahrfeldt's NUMISMATISCHES LITERATURE-BLATT issued from 1880 to 1939 when it ended for rather obvious reasons. Each issue's abstracts are divided by areas of interest: Greek, Roman, Byzantine, Middle East, Far East, the Americas, Europe, Tokens, Paper Money, etc. This vastly underappreciated, comprehensive bibliographic reference is most infrequently available this complete. Issue number 1 abstracts numismatic literature from 1940 to 1945. In December 1949, following issue number 2, an issue numbered 1A was produced which contained numismatic literature from 1940 to 1945 that was not known when the first issue had been produced. It fit in the cumulative page numbering system between issues two and three. Also number 111/112 was produced as a combined volume. This is a really nice set overall.

As a self-serving promotion, an article produced by this cataloguer in the May 1989 issue of our house organ OUT ON A LIMB, "The Canadian Antiquarian and Numismatic Journal, an Underappreciated Classic" was abstracted by Michael Hodder on page 92, listing number 618, of the March 1990 issue of NUMISMATIC LITERATURE, which unfortunately is not offered here.

MUSEUM NOTES, the Journal of the American Numismatic Society, has been issued periodically since 1948 and annually since 1966. In 1989 it has been issued under the title AMERICAN JOURNAL OF NUMISMATICS! Each issue averages 12 scholarly articles, notes, and die studies on ancient, medieval and modern, and oriental numismatics. Few articles tend to be about U.S. numismatics.

Beginning with Volume III in 1948, all volumes have been produced with matching blue card covers in octavo. The high quality plates are not halftones, but are of collotype appearance. Some of the following information has been taken from Denis Kroh's Empire Coins auction catalogue of August 19, 1988, pages 22-23.

C-S 794. [The following information appears in the Introduction to Remy Bourne's THE AMERICAN NUMISMATIC PERIODICAL 1860 to 1960, AN ILLUSTRATED COLLECTORS' GUIDE.

The most important numismatic periodical to debut in the 1940's was the NUMISMATIC REVIEW. A Scientific Digest Pertaining to Medals, Medals, Paper Money which was produced by Stack's in New York. 16 numbers in 14 issues were released that were dated between June 1943 and April-October 1947 which did not actually correspond to the actual release dates. The first issue listed Thomas Ollive Mabbott as the Editor and Hans Holzer Assistant Editor. In 1945 Cornelius Vermeule was listed as an assistant editor. By 1947 Frederick Knobloch was the Assistant Editor with Harry Stein as the Associate Editor. Its purpose was stated in the first issue:

> "The NUMISMATIC REVIEW will endeavor to supply a long felt need of America numismatists, providing a channel for the publication of serious and authoritative articles by specialists in every field. It is not our purpose to rival or supplant other periodicals, but ... to devote our pages mainly to what other periodicals at present either do not cover, or cover only incidentally. In some senses, it is hoped to revive some of the virtues of the old AMERICAN JOURNAL OF NUMISMATICS.

The NUMISMATIC REVIEW was rather equally divided among ancient, world, and U.S. coins and medals. Among the prominent contributors on American numismatica were Howard Newcomb on half dime varieties, Howard Kurth on "the 'Auctori Plebis' Coppers", Mabbott on all facets of coinage including varieties of 1795 eagles, Joseph Stack on a history of counterfeiting, Lenox Lohr on "U.S Copper Patterns of the 1820's", John Richardson on "Varieties of Connecticut Cents", a long unsigned article about "Double Eagles of 1933 Not Lawful Coin", and "Untraced Curiosities in the American Colonial Series" by John Jay Ford, Jr. Other contributors included Carl Wurtzbach and Howard Gibbs. In addition to the scholarly articles, there were book reviews, correspondence, and observations of the numismatic scene.

Finally, the April 1947 number contained a "Valedictory" in which Mabbott wrote, "After much consideration, it has been decided to suspend publication ...." Mabbott's farewell was dated December 16, 1948 which reflected the REVIEW's irregular publishing schedule.

The NUMISMATIC REVIEW, which since its demise has been referred to by many as being "ahead of its time", is generally considered to be one of the finest American numismatic periodicals, ever. Sadly, nothing comparable has yet filled the void.

BARNEY BLUESTONE conducted 117 sales from September 1931 to February 1950. The high point of Bluestone's career was the offering of the legendary Albert A. Grinnell currency collection in eight sales between November 1944 and March 1947. Otherwise few of his sales ever remotely approached the heights of the Grinnell collection, which incidentally came to Bluestone only because Grinnell was so disappointed in Max Mehl's handling and sale of his collection in June of 1943. After the Grinnell sales, it appears that for several years Bluestone began to offer better material in his sales. For many years, Bluestone's sales were underappreciated; however, in the last several years, we have noticed a significant increase in the demand for his sales, especially by many of our more knowledgeable collectors and researchers.

The Bluestone sales offered below are each small format with card covers which can be assumed to be in at least Fine condition unless otherwise noted.

The sales of MILFERD H. BOLENDER comprised the offerings of numerous consignors in a panoply of areas and series. By reputation he was a most conservative grader. Bolender conducted numbered sales through the 197th auction sale. However, there are few records of his first 10 sales. Catalogues from Sale 44 and earlier are rare. Essentially, his 187 generally known catalogues were issued between January 1925 and September 1960. His especially noteworthy sales include numerous offerings formerly in the Farouk collection (paper money and patterns), some important large cent offerings (Young and Sternberg), and his own reference collection of bust dollars. His 1950 book on bust dollars is still the standard reference. Each of the catalogues is small format with card covers. The sales offered here are Fine, unless otherwise noted. We have been fortunate to offer several previous large offerings of Bolender sales. This grouping is the both the largest and the choicest.

THOMAS LINDSAY ELDER was one of America's legendary numismatic figures from the first half of this century. Elder offered a veritable numismatic potpourri in his 294 auction sales conducted over 38 years totalling 422,335 lots: coins, medals, tokens (an Elder favorite) and medals, currency, autographs, literature, and non-numismatic items such as newspapers, stamps, antiquities, and gems. Elder's catalogues were rather arbitrarily organized as though he started cataloguing from the beginning of a box and went straight through. As he had many consignments per sale and many of his own purchases included, one can never predict what would be found on the next page. In fact, many of his best items were offered at the end of his catalogues. Consequently, as the highlights of each sale are listed as we encounter them, you might find the better material listed anyplace within our annotation.

The Elder catalogues offered below are each small format with card covers and are generally Fine copies, unless otherwise noted.

FEDERAL COIN EXCHANGE, and later FEDERAL BRANDS of Cleveland Ohio conducted 45 sales under the ownership of Michael Kolman, Jr. While the firm may not have had the national reputation of other coin companies, it is no exaggeration to say that FEDERAL was the largest, most successful, and most influential coin company ever in Cleveland. Even today, no other local or area coin company has ever approached its level.

We believe that the 36 consecutive sales, complete from Sale 9 to Sale 44 (a total of 44 numbered sales are listed in Gengerke) offered here represents the largest, most comprehensive offering ever. The first 10 FEDERAL sales are rare. Several of the sales which FEDERAL conducted in the mid-to-late 1950s are also quite elusive.

Sale 1 is extremely rare. The only copy with which are familiar is the virtually mint copy in the Myron Xenos numismatic library. In fact, Adams reports it as "not seen". Gengerke lists the sale without any specifics, listing only that a copy was sold in the Katens' 37th sale. While obviously copies of the sale must exist elsewhere, we know that no copies exist in FEDERAL'S holdings today. Also we know of no copies currently in the holdings of the advanced collectors. Therefore although it is not for sale, we are going to list the sale below for informational purposes.

JAMES KELLY conducted 57 auction sales according to Gengerke between January 1940 and October of 1965. 8 of the auctions were listed in his house organ KELLY'S COIN AND CHATTER. Kelly conducted five A.N.A. auction sales: 1950, 1951, 1956, 1961, and 1962. Kelly was one of the founders of Paramount Coin Company in Edgewood, Ohio. Small format Jim Kelly sales are particularly scarce; those offered here are in unusually nice condition.

Kelly used to pride himself on the sparse nature of his cataloguing and text. As Kelly did not number his sales, Gengerke did not assign numbers to them. The numbers which we assign to them are in the order in which Gengerke listed them omitting the 6 auctions from KELLY'S COIN AND CHATTER.

Because of the size of this catalogue and its vulnerable black glossy covers, the typical copy of this catalogue tends to resemble the typical copy of the Stack's Reinhold Faelten catalogue: badly worn, bent, and rubbed covers. Kosoff felt that this catalogue and sale began the modern period of American numismatics. This is a most satisfactory copy.

The descriptions from Browning's EARLY QUARTER DOLLARS are printed herein, comparable to the "Hazeltine" excerpt in the previous sale. A most sought after part of the WGC sales as quality references and auction catalogues about early and seated quarters are by far the scarcest for all series of U.S. silver coinage.

WAYTE RAYMOND may well have been the most important individual in American numismatics during the 1930's. With the depression so deeply affecting numismatics, most major figures either dropped out or severely curtailed their businesses. Raymond breathed new numismatic life into the decade. He was the editor of THE COIN COLLECTORS JOURNAL which began in 1934. He produced the superb annual STANDARD CATALOGUE OF UNITED STATES COINS, also beginning in 1934 (dated 1935) along with a variety of individual premium lists. In 1937 he produced the major reference for foreign coin collectors, COINS OF THE WORLD. Additionally, he issued numerous auction catalogues under his own name, and catalogued with Macallister for J.C. Morgenthau. The following catalogues were issued by J.C. Morgenthau during the time that Raymond and J.G. Macallister did the cataloguing. Most of the catalogues are large format with tan card covers. The small format sales will be so indicated.

Many of these sales are elusive. The inclusion of the Morgenthau series in the new John Adams reference will focus new, deserved attention on these important catalogues.

The following Morgenthau catalogues are in by far the finest condition in which we have ever seen any grouping. Each of them, in large format, is a most attractive VF or better.

As J.C. Morgenthau and Company conducted auctions other than numismatic, the numbering of the numismatic catalogues does not refer to the number of numismatic sales they conducted. Under the Morgenthau name, there were 53 numismatic sales conducted from February 1931 to May of 1945.

A most important sale for the silver collector. Quite elusive, especially so nice.

551. Numismatic Enterprises. 13 of the 15 Catalogues Conducted without Abe Kosoff from Sale Number 1 (March 20, 1963) to [Sale 22] October 31, 1975 from Number Mail Bid Auction. 5 with Prls. Each is small format with card covers and except for sale 8 (Mail Bid Auction 4) which is Fine, all are VF. (50.00)

Numismatic Enterprises, a partnership between Steve Kosoff (Abe's son) and Mike Kliman (Abe's son-in-law), conducted 6 sales with Abe Kosoff, sales 6 and 10-14. Each of them is offered in the section listed earlier which is devoted to Kosoff sales. The only 2 sales that are missing are sales 15 and 17. Remy Bourne "discovered" these two; the ANS dies not have them listed. This extensive a run of Numismatic Enterprises catalogues is decidedly unusual as many of the sales never seem to appear in the marketplace. This grouping is especially noteworthy because of the overall excellence of their condition. On March 3, 1969 Steve Kosoff died of a heart attack at the age of 28. Subsequently Numismatic Enterprises was solely operated by Mike Kliman. The quality of their auction offerings decreased noticeably after Steve Kosoff's death. Of particular note to numismatic bibliophiles is the offering in the CSNA Auction Sale in October 1964 of a copy of THIAN'S ALBUM OF CONFEDERATE CURRENCY.

Offered earlier in the sale is a nearly complete set of STACK'S catalogues consigned by John Adams, many of them scarce. We are fortunate to offer this important grouping of STACK'S catalogues, many of which are extremely important and quite scarce. As we have described the contents of each sale earlier in the Adams consignment, we will not list the contents here.

Of the 9 pre-1940 catalogues offered here, 7 of them were holed at the margins, as they were formerly stored in a three ring binder.

Most of the lots have the initials of the buyer. Many of the lots have corrected grades neatly pencilled in. Also included are some occasional comments about the particular coins. Among the buyers were Picker, Rice, Bareford, Oeschner, Ruby, Starr, Pittman, and Blaisdell. In order for this catalogue to have notes written in, the nature of the binding required the catalogue to be disbound. For the researcher or copper specialist, this particular copy is a most important reference.

Selections from the Holdings of HANK SPANGENBERGER

HANK SPANGENBERGER has been a featured consignor to many of our auctions. As a former historian of the A.N.A. and a longtime dealer of all things numismatic and collectible, we always look forward to the special, the unusual, and the rare items he brings to us. Hank worked for Dave Bowers and Jim Ruddy's Empire Coin Company. Hank catalogued the rare 1962 Empire State Numismatic Association auction sale conducted by Empire. Hank, later one of the principal employees of Paramount Coin Corporation, played a key role in obtaining the material featured in Paramount's 1965 "Century" Sale. Hank's previous consignments have featured rare and important Bowersiana, A.N.A. material, and numismatic literature in all areas. It is always a special pleasure to catalogue Hank's material.

A special note is necessary. Some of Hank's material tends to come with an unique, distinctive "pedigree". Several years ago, Hank had a major fire. Much of the numismatic literature survived intact except for acquiring a darkening of the upper edges due to smoke damage. The literature was in all other respects unaffected. We will indicate the diagnostic edge darkening when it appears. Perhaps one might consider it as "Spangenberger toning".

590. Bolender, M.H. THE UNITED STATES EARLY SILVER DOLLARS FROM 1794 TO 1803. 1950, 1st ed. 4to, blue cloth, gilt. 75 pp. 1961 valuation sheet. 9 fine pls. The covers are Fine. The contents are VF. (60.00)

C-S 12246 The standard reference for the bust dollar series. The first edition is still the most sought after because the plates are superior to those in any of the reprints.

591. Boudinot, Elias. [REPORT OF THE DIRECTOR OF THE MINT OF THE UNITED STATES] Undated Paramount International Coin Corporation reprint of the November 29, 1796 original. 12mo, ivory CaC. Pages 127 to 141. 10 pages of charts. Nearly VF. (15.00)

This is an excellent facsimile of the original document from the earliest days of the U.S. mint. Original copies are all but unaccessible. ALSO included, and preceding the Boudinot report, is the cover from Timothy Pickering, the Secretary of State, a LETTER FROM THE SECRETARY OF STATE INCLOSING [sic] A REPORT OF THE DIRECTOR OF THE MINT .... This is an important historical record. Copies of this reprint are quite elusive.

592. Bowers and Ruddy Gallerie, Inc. RARE COIN REVIEW. Volume III, Issue Number 10. March-April 1971. 4to, self-covered. 52 pp. Ills. The owner's inkstamp on the bottom margin of the front cover. But for a small strip of discoloration in the margin of the rear cover, and some minor evidence that a small portion of this was once damp, this is essentially VF. (25.00)

This is the first RARE COIN REVIEW (RCR) to carry the Bowers and Ruddy name. AS such it is in special demand for those who wish to assemble a complete set of Bowers and Ruddy RCRs. The highlights include an important offering of Vermont cents, many good half cents, and some nice large cents.

593. Breen, Walter. THE METROPOLITAN NUMISMATIC JOURNAL. Issue Number 1. May/June 1961. 12mo, self-covered. 16 pp. Ills. VF. (20.00)

This issue contained 3 important articles: A 5 page article by Breen on a 1795 dollar overstruck on a 1794; 4 pages on Massachusetts silver; and 4 pages on "Footnotes to PENNY-WHIMSY". Also Lynn Glaser on a subvariety of a 1794 cent. This journal only ran for two issues with the second issue being a low quality mimeographed production. I believe that only 300 copies of this issue were produced. We have offered copies of this twice before. In each case, this most elusive periodical has been one of our most sought after offerings ever. This is a nice, clean copy.

594. Breton, P.N. POPULAR ILLUSTRATED GUIDE TO CANADIAN COINS, MEDALS, ETC. 1912. 8vo, later salmon cloth. Original paper covers bound in. 195 pp. Frontis. Ills. 4 pls. The later cloth covers are faded at the backstrip and around the edges. Two strips of tape for the title and an anachronistic illustration of an Edward VIII pattern have been neatly glued on the front cloth cover. The original contents are clean and nearly VF. (25.00)

C-S 8518. The source of Breton cataloguing numbers, the contents are mostly line drawings, including a "Prices Paid" chart for 1017 examples of illustrated Canadian numismatica. This also includes 4 plates of distinguished Canadian numismatists: Courteau, Dow, McFarlane, Renaud, Labrecque, Montambault, Parent, and Boulanger. Bilingual English-French text. Printed above the original title, "A Real Gold Mine for All Persons Handling Coins." As no hoards of the 1912 edition have turned up, unlike the 1894 Breton ILLUSTRATED HISTORY OF CANADIAN COINS..., this later Breton reference is much scarcer, especially in nice condition.

595. THE CIVIL WAR TOKEN SOCIETY. Volume I, Number 1. Autumn 1967. 16mo paper covers. 16 pp. Ills. Fine. (10.00)

The rare first issue of this most vital publication contained an illustrated article "Shubael D. Childs, Jr. Civil War Die Sinker" by Earl E. Rogers; "Notes on Civil War Tokens" by George and Melvin Fuld dealing with incused patriotics and storecards and blank reverses of storecards. Original copies of the first issue are eagerly pursued and quite elusive.

596. Clain-Stefanelli, Elvira and Vladimir. THE BEAUTY AND LORE OF COINS. 1974. 4to, blue cloth, gilt. 256 pp. Profuse illustrations, many in color. Previous owner's bookplate on the inside front cover. VF. (25.00)

The distinguished numismatists "tried [and succeeded] to highlight the human experience in all its intriguing fascinating ways through [numismatics]." The superior, readable text illustrated with numerous breathtaking color and monochrome plates surveys the full range of numismatics. Too often thought of exclusively as a "coffee table book", this is a serious and useful numismatic reference work that should be read.

597. Coffee, Jr., John M. (editor). ATWOOD'S CATALOGUE OF UNITED STATES AND CANADIAN TRANSPORTATION TOKENS. 1970, Third Edition. 8vo, red cloth, gilt. 731 pp. Ills. Vals. Fine. (20.00)

Includes an Index providing instant identification of any token." The contents are clean and unmarked.

WITH the 38 page 1973 supplement with red card covers. The supplement includes "New Listings for the Period January 1970 to May 1973."

598. Coffee, Jr., John M. (editor). ATWOODS CATALOGUE OF UNITED STATES AND CANADIAN TRANSPORTATION TOKENS. Third Edition. 1977 supplement. 8vo, red cloth, gilt. 244 pp. Vals. Nearly Mint. (25.00)

A production of the American Vecturist Association, this supplement contains listings for the period from January 1970 to January 1977, including all the tokens listed in THE FARE BOX for the designated period.

WITH A QUARTER CENTURY INDEX TO THE FARE BOX 1947-1973, 24 pages in red card covers..

599. COIN WORLD. SPECIAL PARAMOUNT COIN WORLD ADVERTISING SECTION. July 20, 1966. 20 pp. Ills. VG. (15.00)

This special supplement with its own page numbering contains, "The Story of Paramount International Coin Corp." Among the announcements were that "in January, 1966, Paramount acquired the highly-successful [business] of Empire Coin Company (formerly of Johnson City, new York)...." Pictured are Dave Bowers, Jim Ruddy, Hank Spangenberger, Ray Merena. Virtually all of the supplement consists of a fixed price list of Paramount offerings with good U.S. copper, silver, gold, patterns, encased postage, Canadian, English, and other world coins. As this is newsprint, it is slightly discolored and will have some chipping at the edges. Scarce.

600. (Comparette, Thomas Louis). CATALOGUE OF COINS, TOKENS, AND MEDALS IN THE NUMISMATIC COLLECTION OF THE MINT OF THE UNITED STATES AT PHILADELPHIA, PA. 1913, 2nd edition. 8vo, blue cloth. 634 pp. Frontis piece plate, 15 plates with descriptive tissue guards. A small piece of cloth has been chipped away on the edge of the back cover. Otherwise the covers are VG. The contents are Fine. (40.00)

The first edition was copyrighted in 1912; the third edition in 1914. Always in demand. This is a much nicer copy than is typically offered.

601. CONN. BANK NOTE LIST and the City of Hartford Monthly Advertiser. Volume X, Number 9. September 1857. 4 pp. One sheet of newsprint folded into 4 16 x 22 inch pages. The paper has been subsequently folded 3 times with tears along each of the intersecting folds. Good. (25.00)

Because of the high rag content of the paper, despite the aforementioned tears, this is still quite usable. Although most of the paper is devoted to the new Militia law of August 1857, there are still several articles devoted to the listing of new counterfeits. Virtually the entire back page consists of a "Bank Note List of all Banks in the United

States whose Bills are not over 25 per cent. discount in the NEW ENGLAND STATES." A system of symbols indicates which denomination notes were redeemed at par in New York. Rare.

602. Darner, W. Frank. PRESIDENTIAL ART MEDALS. The first 6 issues from January 1971 (Volume I, Number 1) to Oct.-Nov. 1971. 4to, self-covered. Each is 8 pp. Ills. 3 holed at the margin for binder. Otherwise VF. (12.00)

Listed inside as Customer Relations [Director] for this firm was H.R. Spangenberger. Presidential Art Medals began issuing medals in 1961. This house organ contained information about medals in general and Presidential's issues specifically and new issues released by the firm. While not so grand, it is reminiscent of the PARAMOUNT JOURNAL.

603. Dewitt, J. Doyle. A CENTURY OF CAMPAIGN BUTTONS. 1959. 8vo, salmon cloth, gilt. 420 pp. Ills. The covers are worn and discolored. The joints are weakening but still sound. The contents are clean and Fine. (50.00)

Subtitled "a descriptive list of medalets, tokens, buttons, ferrotypes and other lapel devices relating to the national political campaigns from 1789 to 1889", this was the first comprehensive work on political exonumia. In the heady days of the early 1980's this brought $270 in the 1981 Kolbe-Champa/Lee sale. Still sought after (and extremely scarce). Taped to the inside front cover is PRESIDENTIAL CANDIDATES 1789-1944. With Vice-Presidential; Candidates and Political Parties, a 10 page octavo, green card covered booklet compiled by Gregory and Lenard L. Babin.

604. French, Tom. POLITICAL AMERICANA. Volume I, Number I. August 1971. Folio newsprint. 8 pp. Ills. Folded, slightly discolored. Fine. (10.00)

The first issue of this short lived newspaper. The front page is a full page illustration of a "Selection of Hoover Pins from the Campaigns of 1928 and 1932". The back page is a full-page display ad from Charles McSorley devoted to "Political Americana". An illustrated inside article is "Buttons Scarce in 1944 Campaign". Also offered is a "Sporty" Spiro Agnew watch. Finally, a brief listing of the favorite drinks of the Presidents: John Adams - rum punch; Tyler - mint julep; Taylor - anything; Fillmore - nothing; Lincoln - champagne; Hayes - milk.

605. Fuld, Melvin. EXHIBIT OF WASHINGTON COINS, MEDALS, TOKENS, STORE CARDS, RIBBONS. 1952. 12 pages of dittoed 8 1/2 by 11 inch sheets printed on one side. Folded in half. Other than the one staple at the upper left corner being rusted, this is clean and Fine. (25.00)

This was distributed to accompany the Fuld exhibit of Washingtonia at the 1952 A.N.A. convention. In addition to a one page "overview" introduction, the pages list the attributed contents of the three cabinet exhibit. Cabinet I contained 179 items. Cabinet II contained 205. Cabinet III contained 76 items. Useful historical and provenancing information accompanies the descriptions. Copies of this descriptive handout must be considered rare.

606. Gilbert, Ebenezer. THE UNITED STATES HALF CENTS. Undated (1960's) reprint of the 1916 original. 12mo, green leatherette CaC. 43 pp. 6 pls. Rarity table. Nearly VF. (10.00)

One of the many unidentified Gilbert reprints. The plates are not really adequate, but are better than the Federal Brands photocopied reprints of the 1960s. However, the text is faithfully reproduced. The "Gilbert" is a thorough descriptive cataloguing of all the then known varieties.

607. (Gillman, Nina) Federal Reserve Bank of Boston. "HISTORY AT YOUR FINGERTIPS" AND "SPIRIT OF THE NATION". 1980. 12mo, CaC. 8 pp. Ills. Fine. (5.00)

A modest pamphlet narrating an exhibit displayed at the Federal Reserve Bank of Boston focusing primarily on the themes of American paper money. 15 illustrations of U.S paper money are included: colonial, Continental, obsolete, 2 "Educational notes", and some Federal Reserve notes.

608. Haggenjos, Raymond. INDIANA CIVIL WAR TOKENS. Undated (1958) reprint from the NUMISMATIC SCRAPBOOK. 16mo, textured CaC lettered in blue. 29 pp. Ills. The front cover is faded from the Spangenberger fire, with the top edge discolored. From a wear standpoint, VF. (10.00)

Reprints from the NUMISMATIC SCRAPBOOK are much scarcer than those from the NUMISMATIST. This is a cataloguing with numerous illustrations of (apparently) 686 tokens from 67 towns. Listed are the H-G numbers the reverse design number, the metal, and the edge. Quite scarce.

609. Harris, Jon. A CATALOGUE OF UNLISTED CIVIL WAR STORECARDS IN THE COLLECTION OF THE AMERICAN NUMISMATIC SOCIETY. 1975. 12mo, white CaC. 30 pp. Ills. VF. (15.00)

Inscribed to Hank Spangenberger and autographed by Harris. "Printed and Published under the Auspices of The Civil War Token Society." This is a systematic cataloguing of 181 previous unlisted store cards in the ANS' collection of over 6000. Also included is an 8 page section devoted to "Corrections and Additions to the 2nd edition of the Fuld Civil War Storecard Reference."

610. Hewitt, Lee F. The Reprint of the First Issue of THE NUMISMATIC SCRAPBOOK. 1976 NUMISMATIC NEWS reprint of the January 1935, Volume I, Number 1 issue. 16mo, yellow printed CaC. 8, (4) pp. Nearly Mint. (25.00)

Signed and dated "Lee F. Hewitt, May 1, 1976". "This exact reproduction of the first issue ... was prepared by the NUMISMATIC NEWS with the co-operation of the 'SCRAPBOOK' section of 'COIN WORLD.'" 200 copies of this reprint were printed. These were distributed at the banquet of the 37th anniversary of the Central States convention in Chicago. This is virtually identical to the original except for the 4 page banquet menu/program bound in the middle (breast of chicken Kiev).

WITH the summer 1976 issue of THE CENTINEL, Volume 24, Number 1 (the journal of the CSNS). The cover of this issue shows Hewitt autographing something. Inside is an account of the salute to Hewitt.

611. Hewitt, Lee. PRICE CATALOG OF HARD TIMES TOKENS. 1934. Thin 24mo, orange CaC printed in black. 16 pp. Ills. VG. (15.00)

Now scarce, this little booklet listed the Hard Times tokens by Low numbers, gave a brief description, indicated its metal, and indicate a retail price for Fine specimens.

612. Hewitt, Lee F. "THE SCRAPBOOK". nd (May, 1976). 12mo, CaC. 5 pp. halftone portrait of Hewitt. VF (15.00)

This brief but worthwhile history of THE NUMISMATIC SCRAPBOOK was prepared by the NUMISMATIC NEWS with a cover facsimile of the SCRAPBOOK from its glory days in the 1940's and 1950's. This was distributed together with the above lot.

613. Kaplan, Sol. HISTORY OF AUGUSTUS HUMBERT AND THE FIFTY DOLLAR SLUG. nd. Folded folio, blue paper covers. 5 typescript pages. The covers are Fine. The contents are VF. (30.00)

The contents are actually titled "Was Augustus Humbert mintmaster of the first United States Mint in California." Kaplan noted that he was "attracted by a clipping quoting an article in a daily newspaper, Alta, California, dated February 21, 1851." Much of the remaining text quotes from the 1851 article is used by Kaplan to prove his thesis that the Assay office coins are U.S. mint issues and not private gold coins. Although this is undated, someone has written "1964" on the front cover in ink. Quite scarce.

614. Kappen, Charles V. and Ralph A. Mitchell. DEPRESSION SCRIP OF THE UNITED STATES. Period of the 1930s. States A thru I. 1961. 12mo, pictorial cloth. 89 pp. 51 pls. 1961 Valuation Sheet tipped in. With the inkstamp of the Empire Coin Company Research Library and a small inked notation on the front fly. VF. (20.00)

C-S 13491. The standard guide. Think of this collecting area as centennial anniversary Hard Times tokens. Scarce.

615. Knight, Frank B. COLLECTOR'S WEEKLY. Volume I, Number I. September 22, 1969. Folio, newsprint. 24 pp. Ills. Fine. (10.00)

Knight, formerly the advertising director of COIN WORLD began this weekly for collectors of "Antiques, Collectables, and Antiques Nouveau." (?) This is similar to ANTIQUES WEEKLY. However, there are a variety of items of numismatic interest: a full page ad from Hathaway & Bowers for automatic musical instruments, several ads by prominent numismatic firms such as Paramount. Also included is an account of the recovery of the DuPont 1804 dollar. The editor noted that Hank Spangenberger's article on Columbian Exposition material was going to printed in the next issue. Remy Bourne in AMERICAN NUMISMATIC PERIODICALS 1860-1960. An Illustrated Collector's Guide, (p. 1960-133) records that this periodical had a life span of at least 56 issues through November 13, 1970.

616. Kobbe, Gustav. PRESIDENTIAL CAMPAIGN MEDALS. 1970 Charles McSorley reprint of the original which appeared in SCRIBNERS magazine in September 1888. 12mo, blue printed CaC. (1), (12) pages of which 1 is a plate. Ills. Nearly VF. (10.00)

Inscribed, "To Bill, who can appreciate this. All the best, Charlie." Kobbe (with an accent aigu over the "E") was a prominent New York music critic, author, and historian. "In 1918 while enjoying one of his hobbies, sailboating, he was killed by the wing of a maneuvering U.S. Naval hydroplane in the harbor of Bayshore, Long Island" (from McSorley's introduction). This is a profusely illustrated, serious discussion of the topic from John Quincy Adams through the 1880 campaign. Quite scarce, important, and not widely known.

617. Mc Cormick-Goodhart, Leander. ADMIRAL VERNON MEDALS. 1945. 4to, gray CaC. 42 pp. 3 pls. Fine or better. (15.00)

C-S 14693. A descriptive list of 270 major and minor varieties. Still the best modestly priced reference.

618. Mc Sherry, Richard M. THE NATIONAL MEDALS OF THE UNITED STATES. A Paper Read before the Maryland Historical Society, March 14, 1887. 1887. 12mo. 47 pp. The edges are untrimmed. The covers are missing. The contents are clean and VF. (50.00)

This scholarly paper gives the genesis of American national medals including excerpts from historical documents. Because the expense of the 2 volume 1878 Loubat work prevented many from possessing a copy, McSherry gave an annotated description of each of the 88 medals listed in Loubat which McSherry determined to be national medals.

At the regular meeting of the Society in April 1885, "The attention of the Society was called to the fact that no complete collection of the National Medals voted by Congress was known to exist in any of the departments of the government." The appendix deals with the Society's efforts to have the Treasury authorize the striking of copies of all of the national medals "in some form accessible to all citizens". The committee consisted of three members with McSherry being the chairman; one of the other 2 was T. Harrison Garrett. It was the committee's intent to have the resolution (printed in its entirety in the Appendix) presented in the next Congress. As was the usual practice the original paper covers were of flimsy paper. It was expected that the gentleman owner would have this bound in fine leather for his library. Rare and important.

619. Miller, Donald M. A CATALOGUE OF U.S. STORE CARDS OR MERCHANT TOKENS. 1962. 12mo, green textured CaC, gilt. 100 pp. 1 plate. "QDB" barely visible in ink on the front cover. Fine. (20.00)

C-S 14044. Inscribed, "To Dave Bowers with my compliments, Donald M. Miller". This still important work is subtitled, "A Descriptive Price List of Privately Struck Tokens, most of which were a part of the Unofficial Coinage of the U.S." Organized alphabetically by state, with a complete index by merchant, and with valuations in two grades.

620. Miller, Henry C. THE STATE COINAGE OF CONNECTICUT. 1962 Ovolon (Al Hoch) reprint of the 1920 ANS reprint from the AJN. 8vo, gray printed CaC. 62, (5) pp. 5 pls. "Spangenberger toning" of the top edge, otherwise VF. (15.00)

"The object is twofold: first to furnish a detailed description, as nearly complete as possible, of all know dies and their combinations; second, to simplify and systematize the arrangement so that any specimen may be readily identified."

200 copies of were reprinted from Volume LIII of the AJN in 1920. The AJN reprints are quite expensive. While this is not of the quality of the original reprint (?), it is still the best modestly priced version of the standard reference.

621. Miller, Wayne. AN ANALYSIS OF MORGAN AND PEACE DOLLARS. 1976. 8vo, glossy black covers. 204 pp. Ills. pls. 2 color plates of toned Morgan dollars. The glossy covers are slightly rubbed as is typical. The contents are VF. (15.00)

C-S 12322. Still an essential reference of great use for Miller's research, observations, and analyses.

622. Newman, Eric. THE EARLY PAPER MONEY OF AMERICA. 1976, the second and Bicentennial Edition. 4to, cloth. 416 pp. Ills. Nearly Mint. (25.00)

C-S 13309" The first edition of this standard reference covered the "historical, statistical, and descriptive [aspects of] paper money from 1686 to 1789". This edition coves the money issued through 1800 in order to include the small change notes issued between 1790 and 1796. Over 500 issues are included. This is a classic reference from one of America's great numismatic researchers who was the 1989 winner of the Numismatic Bibliomania Society's Armand Champa Award for Excellence in the Field of Numismatic Literature.

623. Noe, Sydney P. THE NEW ENGLAND AND WILLOW TREE COINAGES OF MASSACHUSETTS. 1943. ANS NNM-102. 12mo, CaC. 55 pp. 16 fine pls. Nearly VF. (30.00)

C-S 12213". This was inspired by a 1942 exhibit at the museum of the ANS which included 500 specimens of Massachusetts coinage. This superb, standard reference with important historical and numismatic text is the scarcest and most sought after of the ANS monographs on Massachusetts colonial silver coinage.

624. Noe, Sydney P. THE OAK TREE COINAGE OF MASSACHUSETTS. 1947. ANS NNM-110. 23 pp. 10 fine pls. Many interior pencilled annotations. With the neat inkstamps of the Empire Coin Company Research Library and of Kenneth Rendell. Some weakness at the first signature. Still Fine. (20.00)

C-S 12214". The standard reference gives historical information, fully cataloguing with plates 34 coins from the T. J. Clarke collection on loan to the ANS. The pencilled annotations in Rendell's handwriting give useful rarity ratings, corrections to the text, and comment on die states. For example, Noe-15 was listed as the Stickney specimen; Rendell noted that it was the Bushnell specimen.

625. Noe, Sydney P. THE PINE TREE COINAGE OF MASSACHUSETTS. ANS NNM-125. 1952. 48 pp. 11 plates. Contains the neat blindstamp of Theodora M.M. Plummer. VF. (20.00)

C-S 12216". In addition to the important historical and numismatic text, this standard reference catalogues and plates 36 coins and 26 fabrications. Important and always in-demand.

626. Overton, Al C. EARLY HALF DOLLAR VARIETIES 1794-1836. 1967, first edition. 8vo, maroon cloth. 349 pp. Ills. Rarity guide. A gnat's eyelash away from VF. (40.00)

The first edition evidently contains some information not available in subsequent editions. Always in demand, this is a nice copy.

627. Pierce, Kenneth E. (Managing Editor) NUMISMATIC TIMES AND TRENDS. Volume I, Number 1. January 10, 1961. 8vo, newsprint. 32 pp. Ills. Fine. (10.00)

Published in New Orleans by William J. Gruber. "We believe that we are offering the only publication that is rounded out to best cover all the needs of all branches of the numismatic field." This general interest numismatic paper consisted mostly of ads. However, there are some worthwhile articles including the discovery of a variety of an AW 1123 (Judd 1145) pattern. This bi-weekly was one of many unsuccessful attempts to create another national numismatic paper. In AMERICAN NUMISMATIC PERIODICALS 1860-1960. An Illustrated Collector's Guide, (p. 1960-12) Remy Bourne records that the life span of this paper was 22 copies of this periodical issued between January 10 and November 25, 1961. Bourne also notes that this was sold to COINS MAGAZINE of Iola, Wisconsin.

628. Raymond, Wayte. EARLY NEW YORK CITY AND STATE MERCHANTS' TOKENS 1789-1850. 1936. Small format, blue CaC. 24 pp. Ills. 1 pl. Nearly VF. (25.00)

This descriptive, illustrated cataloguing of 137 tokens is one of the scarcest, and also one of the most sought after Raymond pamphlets. Also included is a three page listing of New York merchants' tokens from 1850 ti 1863.

629. Raymond, Wayte. UNITED STATES GOLD COINS OF THE PHILADELPHIA AND BRANCH MINTS. 1933, 2nd ed. 12mo, yellow CaC lettered in brown. 24 pp. Ills. Vals. "Spangenberger toning". The covers are Fine. The contents are VF. (15.00)

Subtitled, "Listing all the dates and principal varieties and giving the average retail values with illustrations of all the types and rare dates". As no "Redbook" or other standard catalogue existed, Raymond's card covered guides were THE standard reference. Incidentally, most of the illustrations were taken from cut outs from the plates of Chapman catalogues. The first edition of this was produced in 1928. Both editions are quite scarce, and sought after.

630. Reagan, Lewis M. CONTINENTAL CURRENCY. nd. 12mo, self-covered. 3 pp. Ills. Vertical bisecting fold. Some discoloration on the bottom margin of the front page. Nearly Fine. (10.00)

Inscribed on the front, "Compliments of the author, Lewis M. Reagan". This was a paper presented to the Bronx and Brooklyn Coin Clubs. This is a quite a good overview of the topic. This has the appearance of a NUMISMATIC SCRAPBOOK offprint, but it is not. Quite scarce.

631. Rendell, Kenneth W. A DESCRIPTIVE LIST OF AN OUTSTANDING COLLECTION OF HARD TIMES TOKENS. nd. small format, paper covers. 16 pp. 154 lots. Fine. (25.00)

Inscribed in ink somewhat haphazardly on the front cover, "To Q. David Bowers, one of two advanced pinters [sic] copies (R-8) non-collectible. Best Regards, Kenneth W. Rendell." Written in ink on the last page, Total Price $9850, [to you] $8000. I have enough orders for singles we will break the collection up. All items less 15% of estimated prices. Please phone or wire in your order as they will sell very fast.

The first two pages are an important article, "Hard Times Tokens and Hard Times Tokens Collections" in which Rendell reviews the literature, and 12 collections which listed over 125 different numbers. Additionally he details several other larger collections then in existence. This anonymous collection was originally formed by G. L. Tilden with additions from

other prominent sources. This is quite an important fixed price list both for the listings and for the information given in the article, much of which is available nowhere else. Scarce [and neat].

632. Rendell, Kenneth W. A DESCRIPTIVE LIST OF AN OUTSTANDING COLLECTION OF HARD TIMES TOKE nd. small format, paper covers. 16 pp. 154 lots. Fine. (25.00)

Another copy as above, but without Rendell's handwritten notations. However, inkstamped on the front cover below the title is "From the Miller Collection", apparently the collection of Donald Miller, of Indiana, PA, the author of the well-known 1962 green flexible card covered A CATALOGUE OF U.S. STORE CARDS OR MERCHANT TOKENS.

633. Ruggeri, Sam. INDEX TO T.A.M.S. LISTED MAVERICK TOKENS. 1977. 8vo, white CaC. 109 pp. Fine. (15.00)

Autographed. Numbered copy 90 of 200. The contents include "Location of mavericks listing", "Part I - Attributed mavericks", "Part II - TAMS listed mavericks". Until TAMS began listing mavericks, there was no central resource available for listing them. Unfortunately, they were listed in the TAMS JOURNAL as they were discovered. However, with nearly 7800 listings by the end of 1976, Ruggeri's INDEX... is (I believe) the only cross-referenced, comprehensive index available.

634. Sellwood, David. AN INTRODUCTION TO THE COINAGE OF PARTHIA. 1971. 8vo, brown cloth, gilt. 315 pp. Ills. 8 pls. VF. (40.00)

C-S 3035". Printed directly from Sellwood's manuscript, the looks like a flowery "Newcomb". The standard reference is "The first general catalogue on the Parthian series to be written for over 60 years and it incorporates results of research and hoard evidence published since 1904." Eagerly sought.

635. Sellwood, David, P. Whitting, and R. Williams. AN INTRODUCTION TO SASANIAN COINS. 1985. 8vo, red cloth, gilt. 178 pp. Ills. VF. (30.00)

As was done with Sellwood's book on Parthian coins offered above, this too was printed directly from Sellwood's manuscript. This was the only book of W.H. Valentine's about coinage of the east that was never reprinted. In addition to useful historical text, this includes charts and chapters on dating (of coins), mints, counterfeits, and rulers followed by a systematic cataloguing of the coinage chronologically by ruler. In demand.

636. Souder, Steven T., & Co., Publishers. A BRIEF DESCRIPTION OF THE MINT OF THE UNITED STATES. 1876. 12mo, pink paper covers. 16 pp. Woodcut illustration of the U.S. Mint on the cover and on the title page. Vertical bisecting fold. The covers are soiled and worn. The contents are VG. Overall, Good. (25.00)

The contents include "Early History of the Institution", a description of the various rooms or departments, the processes of assaying gold and silver, a description of the coining process, general remarks, and 2 charts giving the value of foreign gold and silver coins in U.S. dollars. This is one of the most elusive of all the publications about the U.S. Mint. Despite the written condition of this pamphlet, it is still quite sound and usable.

637. Sowards, Neil (ed). THE HANDBOOK OF CHECK COLLECTING. 1975. 4to, yellow CaC. 97 pp. Profusely illustrated. Fine. (15.00)

Numbered copy 449. This is an anthology of 16 chapters written by various authors: Marie Johnson, Neil Sowards, Paul Cunningham, and Kenneth L. Hallenbeck. Each of the chapters covers a different aspect of check collecting. Page 13 is overprinted with a "brockage" of page 14. WITH the January/March 1979 issue of THE CHECK LIST, the quarterly publication of the Check Collectors Round Table.

638. Stack's. 3 PHOTOGRAPHIC POST CARDS FOR THE 1947 A.N.A. CONVENTION IN BUFFALO. 1947. 3.5" by 5.5" Nearly VF. (40.00)

Pictured on the cards are [1] 1894-S dime, obverse and reverse; 1873 $3.00; 1815 $5.00; 1819 $5.00; and a proof 1796 half dollar. [3] 1629 Ferdinand II 100 ducats, "the world's largest gold coin". A similar lot in our 8th sale (also consigned by Hank) sold for $45.00. We have set the estimate at the underbid.

639. Trowbridge, Richard. HISTORY, COINAGE, PAPER NOTES AND MEDALS OF EDWARD VIII OF GREAT BRITAIN. 1970, 1st ed. 12mo, blue textured CaC. 56 pp. Ills. Vals. Several portrait plates. Nearly Mint. (15.00)

A descriptive cataloguing of 169 Edward VIII numismatic items is important especially for the medals and 1937 patterns.

640. U.S. Government Printing Office. UNITED STATES COINAGE LAWS Regulating Foreign Gold and Silver Coins, Making Them a Legal Tender and Establishing Their Value, Etc., February 9, 1793 Thru February 21, 1857. 1960 typed copy of the 1894 original document. 12mo, later cloth and board covers. 20 pp. VF. (20.00)

"As copied from the original book published in 1894 by the Government Printing Office in Washington D.C./ Personal Copy of Oscar G. Schilke 1960." Apparently Schilke, a prominent numismatic author and collector, lacked an original copy and had a typed copy prepared. Interesting.

641. United States Treasury. ANNUAL REPORT OF THE DIRECTOR OF THE MINT. Fiscal Year Ended June 30, 1976 and Transition Quarter. 1977. 8vo, white CaC lettered in green. 298 pp. Ills. But for darkening of the top edge due to smoke damage, and some discoloration of the backstrip and the adjacent front cover, VF. (10.00)

This is a particularly important mint report for its coverage of the Mint's bicentennial activities.

642. U.S. Treasury Department, Bureau of the Mint. THE MINT STORY. 1967. 4to, blue printed CaC. 40 pp. Ills. The covers are nearly VF. The contents are VF. (15.00)

This includes a description of the current Philadelphia and Denver mints, sections on the San Francisco and the New York Assay Offices, the Fort Knox Bullion Depository, former mints, coinage operations, symbols on U.S. coins, and current coins. Rather scarce.

643. Vlack, Robert A. EARLY AMERICAN COINS. 1965, 2nd ed. 8vo, original light green cloth. 120 pp. Ills. Vals. But for some slight soiling on the light green cloth covers, VF. (35.00)

C-S 12164. This contains excellent historical and background information about colonial coinage. The excellent specimens of colonials which are used for the halftone illustrations make this especially useful. Incidentally, this was published by Windsor Research Publications, the publishing arm of Bowers' and Ruddy's Empire Co. Company. Important and always sought after.

644. Weidhaas, Ernest. NEW YORK WORLD'S FAIR MEDALS 1939-1940. Undated A.N.A. reprint. 8vo, gray CaC. 76 pages of which 39 are plates. Fine. (12.00)

Inscribed in ink on the front cover, "To Hank Spangenberger, with the best wishes of the author, Ernest Weidhaas, March 21st, 1968." This was a compilation of the serial articles which were printed in THE NUMISMATIST March through June 1963, and July 1966. This is a descriptive cataloguing of 300 items, each plated.

645. Wismer, D.C. VARIETIES OF DIX CIVIL WAR TOKENS OF THE YEAR 1863. 1922. Thin 12mo, gray printed CaC. [12] pp. The title page is discolored from the presence of a no longer present envelope or paper. The back cover shows some bends. A few pencil checkmarks are present inside. The covers are VG. The contents are Fine. (25.00)

The contents include a biographical sketch of John Adams Dix, the telegram upon which the dix token was based, and a descriptive cataloguing of 19 varieties of Dix Tokens. A lightly pencilled notation on the inside cover, "presented me by the author 5/25". Cute and rare.

646. Wood, Howland. THE GOLD DOLLARS OF 1858 With Notes on Their Issues. ANS NNM-12. 1922. 16mo, tan CaC. 7 pp. 2 pls. A hole in the center of the front cover. Some rodent gnawing damage at the edges. VG. (10.00)

Although this monograph does include information on other gold dollars, its particular importance is the discussion of the "Randall specimen" 1858 gold dollar with a large "1".

THE AUCTION CATALOGUES

647. Chapman, S.H. & H. [Sale 47] The Collection of the Late RICHARD B. WINSOR. December 16-17, 1895. Large format. 87 pp. 1353 lots. Prl. 10 tinted reprint plates. The covers are slightly chipped and spotted. The front free endpaper and the title page have some foxing. The remaining contents are contents are nearly VF. (100.00)

Adams, A with 5 "A" ratings for large cents, half cents, colonials, proofs, and early silver. "Mr Winsor was one of the first of American collectors...." Colonials: 23 lots of attributed Mass. silver with a NE shilling and a Willow Tree shilling; 5 unc Pine Tree shillings; "unique" pattern Pine Tree threepence; Lord Baltimore shilling, sixpence, and groat; rare "John Law" silver; many attributed States coppers; 3 Higley coppers, 1792 silver center cent, 1785 Inimica Tyrannis, 1785 Immune Columbia. Washingtonia: 5 1792 Washington half dollars, 1792 "naked bust" cent, "Carry Me to Atwood's"; many rare Washington medals.

170 lots of superior large cents with important provenancing and good text: 4 (!) unc 1793 "wreaths", 1793 "Clover Leaf", "Finest known" 1793 liberty cap; 9 (!) unc attributed 1794s and a rare 1794 "Chapman variety", 1823 perfect date (Then the only known unc), many proofs.. Good early gold $5.00s and important $2.50s.

65 lots of superior half cents: 3 unc 1793s, unc 1794, 2 unc 1795s, unc 1796 without pole ("believed to be the finest known"), 19 proofs from 1831 to 1856 (7 originals). Rare U.S. medals: 1756 "Kittanning", 1757 Indian Peace medal, 2 1776 Libertas Americanas in silver & in bronze, Wright's 1776 Declaration of Independence medal.

Early proof sets: 1840, 1842-1843, 1847-1848, 1852, 1856-1890. Choice bust dollars and seated silver in all series with an 1827 restrike quarter.

The above technical description notwithstanding, for Chapman catalogues, the covers are much nicer than normally found, especially in the large format sales. This is quite a nice copy of an important sale.

648. Empire Coin Company [Bowers and Ruddy]. Empire State Numismatic Association Auction Sale. May 18-20, 1962. 12mo, blue and white CaC lettered in blue. 26 pp. 813 lots. Original Prl. Ills. The front cover is widely discolored with smoke "toning" from the Spangenberger fire. The covers are otherwise slightly soiled. But for having a trivial amount of interior smoke discoloration on the title page, the contents are clean and nearly VF. (75.00)

"Hank's Copy" in ink on the front cover. Generally considered to be the second auction catalogue (B & R conducted mail bid sales in the EMPIRE REVIEW) produced Bowers and Ruddy, this is the most elusive auction catalogue which they produced. (Original copies of the Prl are much rarer than this rare catalogue). In fact, several years ago, QDB mentioned that at the time he did not have a copy. Incidentally, this sale was "catalogued and auctioned" by Hank Spangenberger, who was employed by Empire at the time. The relatively modest contents included a choice unc 1918/7 quarter and an 1858 proof dollar. With the notation on the front cover and the diagnostic smoke discoloration, this must be considered to have the most impeccable pedigree possible.

649. Mehl, B. Max. Original Prices Realized Lists for the WILLIAM FORRESTER DUNHAM Sale and the Golden Jubilee/JEROME KERN Collection. Each with "Spangenberger toning" on the top edge. Better than Fine. (15.00)

The Dunham Prices Realized List is always in demand. In fact, the deluxe copy of the Dunham collection sale offered earlier does not have a Prl.

A PLATED COPY OF 1913 UNITED STATES COIN COMPANY'S MALCOLM N. JACKSON COLLECTION SALE

650. United States Coin Company. [Sale 5] Catalogue of the Superb Collection of United States Coins Belonging to MALCOLM N. JACKSON. One of the Finest Collections of Gold, Silver and Copper Coins ever sold in this country and A Magnificent Collection of Pattern Coins. May 20-22, 1913. Small 4to, original blue cloth,

gilt. 92 pp. 1939 lots. Prl. 15 (of 16) fine photographic plates. The covers are a trifle worn at the extremities. Otherwise this is nearly VF. (500.00) PLATE

Adams, A+ with 3 "A" ratings for patterns, later silver, and U.S. gold; and 3 "A-" ratings for half cents, proofs, and early silver. (The superb large cents were given a "B+.") The missing plate is plate nine which illustrated 14 half cents: the 1796 with pole, and 13 proof half cents.

BACKGROUND Although Jackson had been collecting since 1888, his goal since approximately 1903 was to secure the finest specimens possible for "what is probably the nearest approach to a complete collection of the different denominations of United States Coins and their branch mints that has ever been offered for public competition." (from Raymond's Introduction)

This sale was the first great sale catalogued by Wayte Raymond, only six months after he and Elmer Sears formed the company. Adams noted that "The real challenges are the plated editions in the U.S. Coin series: Jackson, Lardner, and Granberg are all tough.... (p. 76)" Quoting from the estimable Mr. Kolbe in lot 1108 of the Ted Craige sale, "One of the finest collections of United States patterns ever sold, along with rarities in all series. Very scarce and seldom offered" This may be that particular copy.

HIGHLIGHTS: U.S. GOLD: 376 lots of superb U.S. gold. $10.00s: choice early dates. $5.00s: choice early dates and 1820, 1823, 1825 & 1826. $3.00s: complete except for the 1875. $2.50s: complete Philadelphia and Dahlonega issues, missing only a few branch mint issues. Complete gold dollars.

U.S. SILVER: The dollars are lacking only the 1804 and a few branch mint issues: Unc New Orleans mint dollars of 1902 to 1904. Complete halves except for the 1838-O. Excellent quarters with choice 1806/5 & 1827. 1876-CC 20 cent. Superior dimes and half dimes. 460 lots of patterns: 1877 $50.00 in copper. Numerous patterns of gold coins with the 1875 and 1885 issues in aluminum and copper. Private gold includes an "unique" Massachusetts and California Company $5.00 in copper, an "unique" Bowie dollar in copper.

U.S. COPPER: 148 lots of good large cents, 28 of them illustrated on both sides: unc 1793 "chain", unc 1794 Hays-23, unc 1807 "comet", unc 1809, unc 1811, unc 1823 perfect date. 55 lots of half cents: 1796 with pole, 14 proof half cents (1831 & 1841 originals)

PATTERN COINAGE: 400 attributed lots. 80 lots of patterns of gold coins with 9 pattern stellas. 34 lots of pattern silver dollars. 79 lots of pattern halves with 3 1838s and 2 1839s. 1792 pattern disme.

OTHERS: J. Gault 90c encased postage. 1797 Washington Sansom medal. Some good fractional currency.

This is a most attractive copy.

651. Woodward, W.E. Thirty-Sixth Sale of Coins, Medals, Etc: The WILLIAM CLOGSTON Collection. April 4-7 1881. 93 pp. 2556 lots. 1 HELIOTYPE PLATE. Untrimmed. The front cover is slightly chipped. The plate is chipped at the top corner, only affecting a minuscule part of the background. Clean and Fine or better. (100.00) PLATE

A SPECIAL THICK PAPER COPY. Adams, B. Adams noted that Woodward issued approximately 50 copies of the thick paper and the plated editions of his sales, "Thus, thick paper, plated or both, the Woodward special editions are legitimate rarities." (p. 27)

76 + 20 lots of large cents: 1795 "Jefferson head", 1799, 1804, 1823 restrike. Extensive store cards. A paragraph apologizing for passing on false information from the U.S. mint about the number of proof gold coins issued for 1879. Good presidential and political tokens. 180 lots of numismatic auction catalogues. Washingtonia. Chinese coinage from the Rev. Charles Hartwell collection. This was a really nice sale. This particular catalogue has a flawless backstrip giving evidence that it has never opened all the way.

652. Woodward, W.E. Nineteenth Sale of American and Foreign Coins & Medals. The HENRY W. HOLLAND Collection. November 11-18, 1878. 242 pp. 4208 lots. The covers and the backstrip are chipped, the rear cover more heavily so. pls. "Spangenberger toning". The first few leaves are slightly cornered at the bottom. The contents are otherwise clean and Fine. (45.00)

Adams, A with 5 "A" ratings for medals, tokens, literature, Washington, and Canada. Adams noted that this collection was definitive for medals - , "Most extensive U.S. medals ever offered". (pp. 26 & 29) "Mr. Holland's numismatic collection is so well known to American numismatists that it hardly requires an introduction."

The half dollars were from a package of 700, many unc which had been untouched in a bank vault for 40 years; thoss offered in this sale were the finest from that group, "I've never seen a finer set". Excellent Sutlers' checks. Attributed centennial medals. Chadbourne's exceptional store cards. Extraordinary attributed Washingtonia with a 1792 "Roman head" cent and 2 Seasons medals. Some rare pre-Confederation Canadian medals. Hundreds of Presidential and political medals.

Selections from the Numismatic Library of DR. KARL LUTOMSKI

Dr. Lutomski, a Michigan resident, was an advanced collector of Canadian numismatics for many years. At various times he owned virtually all of the grand Canadian rarities except for the 1911 dollar. Dr. Lutomski's numismatic library featuring outstanding Canadian numismatic literature was the primary consignment in our previous mail bid sale. Offered below are additional selections from his library.

653. Aaron, Robert (compiler). ROYAL CANADIAN MINT REPORTS 1935-1972. 1974. 4to, original cloth tape and paper covers. Approximately 1000 pages. Charts and plates. With the 2 pages originally omitted tipped in. The covers are better than Fine. The contents are VF. (50.00)

"... with government permission [Aaron] reprinted 100 copies of Royal Canadian Mint and sold them to interested researchers and donated his $900 profit to the three Canadian numismatic organizations," from the CANADIAN COIN NEWS, September 4, 1990, page 11. The article further details that the current demand for this book is that "recent trading prices ... are about three times the original [$31.50] price."

This is an invaluable compendium of research material. Unlike those issued by the United States Mint, Canadian mint reports, especially the early ones, are extremely scarce. This includes a mimeographed letter from Aaron dated August 27, 1974 detailing publishing information and that as of the date on this letter 88 orders had been received. Scarce and important.

654. The American Numismatic Society. CATALOGUE OF THE EXHIBITION OF UNITED STATES AND COLONIAL COINS. January Seventeenth to February Eighteenth 1914. 1914. 8vo, original tan cloth. 133 pp. 39 pls. The covers are nearly disbound, and quite heavily chipped at the spine. The last page is nearly disbound. The sewn signatures are weak between the end of the text and the beginning of the plates. The title page is foxed. Thus the covers are defective. The contents are VG. (35.00)

This work is a descriptive cataloguing with plates of the coins donated for the exhibition. Among the exhibitors and their exhibited items were Carl Wurtzbach's colonials and Washingtonia; James Ellsworth's Nova Constellatio bits, Brasher doubloon; Howard Newcomb's bust quarters and half dimes. George French's large cents; William Woodin's extensive patterns; Charles Gregory's private gold; Ben Green's encased postage; Henry Chapman's rare colonials; and 4 1804 dollars With rebinding (as many were) this would be a nice Fine copy. The catalogue was prepared anonymously by Agnes Baldwin. This remains the most significant exhibit ever of early American and American coinage.

655. (Anton, Jr., William T. and Morey Perlmutter). THE ALBERT A. GRINNELL COLLECTION OF UNITED STATES PAPER MONEY ... Originally Catalogued by Barney Bluestone, Syracuse, NY.. 1971 reprint of the seven Bluestone sales held between November 25, 1944 and November 30, 1946. Thick 8vo, green cloth. 651 pp. Prls. VF or better. (50.00)

C-S 13539. Number 487 of 1000 numbered copies. Subtitled, "A Complete Reprint in One Volume of the Seven Sales which Comprised the Most Complete Collection of United States Paper Money ever Assembled by Any Individual". This series remains the premier sale of U.S. paper money yet held. Even individual copies of original sales are rarely offered. As such even this quality reprint has become scarce. Because of the inferior job Mehl did in cataloguing the 1943 Grinnell sale, Grinnell took the rest of his collection to Bluestone who in 7 sales created a classic series of reference catalogues.

656. Bowers, Q. David. ADVENTURES IN RARE COINS. 1979. 4to, pictorial boards. 305 pp. Ills. Nearly Mint. (15.00)

A QDB award winner covering the "history, art, romance, and investment aspect of coins". A most readable reference with excellent material and supporting illustrations. For those of you who have this gathering dust on your shelf, take it down and read it. This really is marvelous.

657. Bowers, Q. David. COLLECTING RARE COINS FOR PROFIT. 1975. Small 4to, red cloth, gilt. 326 pp. Ills. VF. (15.00)

This Bowers tome was published by Harper & Row, and thus was not distributed through numismatic channels. Divided into 16 chapters this introduction to coin collecting for the general public is a typical Bowers read - both inviting and worthwhile. The anecdotes and specific information about the various U.S coin are most valuable.

658. Bowers, Q. David. THE HISTORY OF UNITED STATES COINAGE AS ILLUSTRATED BY THE GARRETT COLLECTION. 1979, third printing. 4to, black cloth. 572 pp. Many color and b&w plates. Nearly Mint. (30.00)

Our choice as the best survey of American numismatics: 19th and 20th century numismatic history, early American coinage, history of the mint, private and territorial gold. Too often books like this are taken for granted and not really read. Despite all the trendy, transitory nonsense of precision grading, we really are living in the Golden Age of numismatic research. Giants like Bowers, Breen, Julian, and Taxay, among others, are generating a true legacy of readable scholarship.

659. Bowers, Q. David and James F. Ruddy. THE EMPIRE GUIDE TO UNITED STATES HALF CENTS 1793-1857. New revised complete descriptive guide to die varieties. Undated Ray Wasosky reprint of the 1962, 1st edition. 12mo, Tan CaC. 47 pp. Ills. Rarity guide. VF. (15.00)

C-S 12250. "The following listing of half cent die varieties represents all of the pieces known to us at this time". This was the first significant work on half cents to have been issued since Gilbert's 1916 standard reference. Aside from the difference in the covers from the 1962 original, the two editions are virtually identical.

The CHARLTON Standard Guides to Canadian Numismatics.

660. Charlton, James E. 1952 CATALOGUE OF CANADIAN COINS, TOKENS & FRACTIONAL CURRENCY. 1952, 1st ed. 12mo, green CaC. 34 pages of which 3 are halftones and 12 are line drawn plates of tokens. Vals. Disbound. Each page has been inserted in a plastic bag and taped at the spine. A research copy. (10.00)

C-S 8522". The first edition, when infrequently found tends to be heavily used. Very Scarce.

661. Charlton, James E. 1955 CATALOGUE OF CANADIAN COINS, TOKENS & FRACTIONAL CURRENCY. 1955, 3rd ed. 12mo, light blue CaC. 36 pages of which 4 are halftones and 12 are line drawn plates of tokens. Vals. Fine. (30.00)

C-S 8522". We have found this edition to be quite scarce in nice condition although it tends to be the most commonly found edition.

662. Charlton, James E. 1956 CATALOGUE OF CANADIAN COINS, TOKENS & FRACTIONAL CURRENCY. 1955, 4th ed. 12mo, gray CaC. 36 pages of which 4 are halftones and 12 are line drawn plates of tokens. Vals. There is some discoloration on the covers. Fine. (35.00)

C-S 8522". We have found this to be scarcer than the third edition.

Beginning in 1959, Whitman publishing began producing the Charlton guide under the title STANDARD CATALOGUE OF CANADIAN COINS TOKENS AND PAPER MONEY. These blue-gray cloth covered books were similar in size to the Yeoman BLUEBOOK. With Whitman's distribution, the books were much more widely available, especially in the United States. Whitman issued them for 11 years from the eighth through the eighteenth editions.

663. Charlton, J.E. STANDARD CATALOGUE OF CANADIAN COINS TOKENS AND PAPER MONEY. 11 volume from the 1960, 8th ed. through the 1970 18th ed. 126 pp. Ills. Vals. Generally VF. (75.00)

Each is autographed by Charlton. The 1967, 15th edition has a strip of cloth missing from the front cover. The covers for each may show some wear from shelf contact or may some bumped corners. The contents are each bright, clean, and nearly Mint.

Beginning with the 1971 19th edition, Charlton resumed Canadian publication of his standard guide as Charlton Publications from Port Carling Ontario and from the 1972 20th edition onward from Toronto. These octavo, card covered issues were substantially expanded to include many more illustrations, and a wider coverage of topics such as the token series and paper money.

664. Charlton, J.E. STANDARD CATALOGUE OF CANADIAN COINS TOKENS & PAPER MONEY. 15 consecutiv volumes from the 1971, 19th ed. to the Winter 1982, 33rd ed. Ranging from 128 to 273 pages. Ills. Vals. Generally Fine to VF. (60.00)

Several of the earlier volumes are autographed with the 1982 33rd edition inscribed from Charlton to Dr. Lutomski. Several of the pre-1976 issues are sought after for their expanded sections on tokens. Others are important for their lengthy sections on Canadian paper money. Finding this complete a run of Charlton guides is decidedly unusual.

665. Clain-Stefanelli, Elvira and Vladimir. RUSSIAN GOLD COINS. 1962. 12mo, red leatherette, gilt. 39 pp. Ills. VF. (15.00)

C-S 11140. Perhaps the most elusive of Dr. Clain-Stefanelli's works, this little jewel which originally appeared serially in Spink's 1962 NUMISMATIC CIRCULAR, covers the gold coinage from Alexander I onward. "Our scope is to give not only a general view of the different types and issues in their chronological sequence, but also to place the coinage within the historical evolution of the monetary policy of the various countries." Also included is some discussion of the platinum issues.

666. Dieffenbacher, Alfred. COUNTERFEIT GOLD COINS: Nineteenth and Twentieth Centuries. Fully Illustrated. 1963. 4to, large blue three ring binder. [749]pp. Ills. VF. (40.00)

Descriptions and enlarged illustrations of counterfeit gold coins juxtaposed with a legitimate example of U.S., France, Great Britain, Switzerland, and Germany. This work has become elusive intact as the important U.S. pages are most frequently removed.

667. Elder, Thomas L. NEW PREMIUM COIN BOOK. A Comprehensive Work on Numismatics, Coin Premiums Numismatists, Coin Collecting. 1934. 8vo, tan CaC, gilt. 97 pages of which 28 are woodcut plates. Slightly chipped at the backstrip. The covers are nearly disbound from coming unglued. The contents are clean and better than Fine. (15.00)

While this edition contains various articles about coin collecting, charts of premiums for U.S and foreign coins, and information about ancient and foreign coins, it is not as elaborate as the original 1913 edition. However, Elder's zeal for numismatics is witnessed by his having produced this work during the Depression.

668. Friedberg, Robert. PAPER MONEY OF THE UNITED STATES. A Complete Illustrated Guide with Valuations. 1955, 2nd ed. 4to, maroon cloth covers. 151 pp. Ills. Vals. The covers are Fine. The contents are VF. (25.00)

C-S 13480" (for the 5th edition onward). This corresponds to the REDBOOK for currency collectors. We are beginning to see currency collectors trying to assemble complete sets of the "Friedberg". The second edition is quite scarce. This is much nicer than the usual second edition which turns up.

669. Harris, Robert P. GUIDEBOOK OF RUSSIAN COINS (1725-1970). 1970, 1st ed. 12mo, thick red cloth covers, lettered in black. 160 pp. Ills. Vals. Nearly Mint. (15.00)

This Russian "REDBOOK", in more ways than one, is still quite popular as a one volume quick reference written in English. In addition to the identification aids, charts of moneyers, the mintmarks, and mintages, it is especially useful for the pre 1800 copper issues.

670. HEADS AND TALES. A 60th Anniversary Souvenir of Minting in Canada. The Royal Canadian Mint Ottawa, Canada 1908-1968. 1968. 8vo, square white pictorial cloth. 14 pp. Ills. Fold-out chart of Canadian coins since 1908. Original pictorial card slipcase. VF. (20.00)

This profusely illustrated souvenir volume contains a pocket on the back cover for a 1968 Canadian mint set which always seems to have been removed. Scarce.

671. Hibler, Harold E. and Charles V. Kappen. So-CALLED DOLLARS. 1963. 4to, yellow cloth. 156 pp. Ills. and Vals. VF. (25.00)

The standard reference illustrates virtually all of the 1033 items beginning with the Erie Canal medal of 1826 - thorough descriptions and explanations. While the valuations are shall we say optimistic, their relative values are still of use. Copies of this are in constant demand, especially in such choice condition.

672. Howard, C.S. CANADIAN BANKS AND BANK-NOTES. A RECORD. (1950). 8vo, blue cloth. 48 pp. 16 pls. VF. (20.00)

Reprinted from The Canadian Banker. An excellent history from 1759, profusely illustrated with currency. The important charts at the end list "all note issuing Canadian banks, chartered and private." The lists include names of each bank, the opening and closing dates of each, the head office. Also, "Banks Incorporated But Never in Operation", "Note-Issuing Banks Described as 'Spurious'". Important for legal tender and broken bank notes.

673. Humphreys, H[enry] Noel. THE COIN COLLECTOR'S MANUAL. 1876. 2 Volumes. 12mo, decorated cloth. 726 pp. 11 engraved pls. The covers are split by the spine. The joints are starting. The contents are essentially Fine. (25.00)

This estimable work was issued in many different printings from 1853 to 1891. We have found this printing to be scarcer. This venerable work was intended to replace Pinkerton as an overview of ancient coinage. It succeeded admirably.

674. McLachlan, Robert Wallace. CANADIAN COMMUNION TOKENS. A Catalogue of Metal Sacramental Tickets used in the Different Presbyterian Churches in Canada. Undated reprint of the 1891 original. 8vo, yellow printed CaC. 64 pp. Other than some modest soiling on the yellow covers, VF. (15.00)

C-S 12415. One of the most important Fixed Price Lists ever produced in the United States. This important large cent reference is noteworthy not only because of the offering of superb large cents, but also as it contains complete reprints with plates of Crosby's 1897 AJN monograph on the 1793 cents and half cent and Chapman's 1926 THE CENTS OF 1794. Scarce original copies of the 1926 Chapman work generally bring over $200 when they are infrequently offered. This is a nice copy.

The First Five Volumes of Douglas Robins' A COLLECTOR'S ITEM

676. Robins, Douglas. A COLLECTOR'S ITEM. Volumes 1 through 5. Bound in 4 volumes. 1973 to 1977. 4to, later green cloth, gilt with Dr. Lutomski's name in gilt on the bottom of the front covers of each volume. The original covers have been removed. Profusely illustrated. VF. (125.00)

During the mid-1970s Doug Robins of Corvallis, Oregon was one of the most active dealers in Canadian numismatic material. A COLLECTOR'S ITEM, his regularly issued large format, illustrated fixed price list featured outstanding Canadian coins, tokens, and medals. Also offered were U.S. and world coins. The first issue (undated) was in September 1973.

The tan card covered lists mostly with glossy contents also contained a series by series analysis of Canadian coinage beginning with Volume I, Number 3 (November 1973) and continued for a total of 30 (we believe) issues through Volume 4, Issue 5 (May 1976).

Among the various highlights are: (December 1973) a 1793 liberty cap cent, S-16, "second finest known" provenanced to Proskey, Hines, and Sheldon. this was offered in four issues. In fact, throughout the run of Robins lists, good attributed large cents are listed. (February 1975) the first 1949 dollar struck; 1870 specimen 10c, 25c, 50c; 1938 specimen set. (April 1975) complete set of Canadian sovereigns with AU 1916-C. (October 1975) 4 Heaton specimen quarters: 1880-H to 1883-H, and uncs of 1890-H, 1891 & 1892; also a complete BU set of New Zealand coinage from 1933 to 1965. (November 1975) "Choice BU" 1798 cent, S-187, ex-Paschal; numerous George VI specimen sets and dollars; complete set of Dease post card money.

(January 1976) extensive colonial and Continental currency, 1871 New Brunswick 20 cent plain edge pattern. (June 1976) 1911 dollar ($135,000), 1921 50 cents ($30,000), 1916-C Salway sovereign ($24,000). (July 1976) an excellent article about the 1871 P.E.I. cent detailing the differences between the specimen strike, the Heaton hoard examples, and the regular business strikes. (September 1976) 14 pages of super condition Canadian and maritime coinage from Victoria to George V in all series, and Wyon obituary medalet. (April 1977) Robins announced the purchase of a hoard of Breton's 1894 COINS AND TOKENS RELATING TO CANADA found in an attic in the Magdalen Islands. The 1977 issues featured choice world minors; Randy Weir began to work for Robins in August 1977. (October 1977) an offering of the first 50 issues of A COLLECTOR'S ITEM for $45.00. (November-December 1977) a set of 12 proof bronze and 12 proof silver Repentiguy tokens, Breton nos. 546-557, for $6750.

SOME FURTHER BACKGROUND: Following 1977, A COLLECTOR'S ITEM was released irregularly. The only date on the next issue of A COLLECTOR'S ITEM with which are familiar had an announcement listed that the prices were "Effective until March 1, 1978". This issue was in small format. It appears that the list was then issued bi-monthly in small format at least through "Effective until November 1, 1979". We have an undated price list which says, "As the numismatic and bullion market has been so erratic, we have not issued a price list since Fall 1979." The next issue in our reference files is a larger format, self-covered list, with a postmark of April 1982, that says, "Many [of the offerings] are from three major collections that were broken up since our last price list (3 years ago)." The remaining copies in our files are 5 large format, self-covered lists issued from June ("Effective till August 1982") 1982 to a postmarked July 9, 1984 issue. We would be grateful if any or our readers could supply the dates of a complete run of A COLLECTOR'S ITEM

An "official" bound version of A COLLECTOR'S ITEM was produced in the late 1970's. However, it was quite a crude production. As Dr. Lutomski had this privately, and most attractively bound, this is a much more attractive presentation than the "official" version. This lot was supposed to have been offered in our previous sale in Dr. Lutomski's library of Canadian numismatic literature, but it got lost somewhere in the electronic ether of my computer's universe.

Produced by Scott Publishing Company (the stamp people), this was their attempt to classify all U.S. coins by a numbering system similar to their stamp catalogues. This is especially useful for the 50 page section on colonials and the 100 page section on essays and patterns.

Rosichan 832. Another copy of this underappreciated work is offered in Wayne Homren's consignment. Thus, we can include some additional information about the book's contents. Readable, authoritative accounts are provided about mint restrikes and the 1804 dollar, irregular mint practices under H.R. Linderman, the 1913 liberty head nickel, Hard Times tokens, and private gold. Again this is most readable, but not trivial.

These volumes begin the so-called "short set" of REDBOOKS. Generally these are VF or better copies. As the first 10 editions can be quite expensive and elusive, many collectors have begun their sets with either the eleventh edition, or with the 1960, 13th edition. This grouping presents an altogether most satisfactory opportunity to obtain a worthwhile, attractive set.

SOME NINETEENTH CENTURY AUCTION CATALOGUES

GEOFFREY CHARLTON ADAMS conducted 30 auctions in New York City between 1903 and 1906. While we have offered several thousand early American auction catalogues consigned from prominent American catalogue collectors and specialists, we have only offered 7 Adams catalogues cumulatively in all of our sales. Thus the offering of any Adams sales is an unusual occurrence. Adams catalogues are small format with red card covers that tend to be so brittle that they are rarely found intact. Biographical information about Adams is also quite scarce.

683. Adams, Geoffrey Charlton. [Sale 22] The HENRY C. EZEKIEL- CHARLES P. NICHOLS Collection of Coins and Medals. September 27, 1905. 46 pp. 830 lots. Mintmarked seated halves. 83 lots of attributed Washingtonia with an Eccleston medal. Fractional currency shield with long annotation. 97 lots of Canadian tokens, mostly attributed: Vexator Canadiensis, Lesslie & Sons twopence, & 26 lots of communion tokens. Hard Times tokens. 6 lots of encased postage ("postal metallic currency") with a Weir & Larminie 10c, and a J. Gault 30c. Cincinnati store cards. EDWARD COGAN [1803-1884],"our first coin dealer, has been called the father of U.S. coin collecting." (Adams, p. 17). Born in England, he came to the U.S. when he was 50 opening a business in books and paintings. One of Cogan's friends interested him in assembling a complete set of large cents. It is worthy of note that the "father of U.S.coin collecting" did not start to collect until he was 53 and did not have his first sale until he was 55. Joseph Levick in the November 1868 AMERICAN JOURNAL OF NUMISMATICS noted that in the late 1850's local collectors and those visiting from other cities used to gather regularly at Cogan's shop in Philadelphia "to see what was to be seen and learn any news that might be stirring in the numismatic world." (p. 55) Cogan's vitality can be shown by his having conducted his 70 sales between the ages of 55 and 76.

Offered below are important, rare, interesting, and unusual auction catalogues which generally are not listed in Volume 2 of Adams.

GEORGE BAUER conducted the 6 part George Gillette collection sales between 1940 and 1942. Other than those, Bauer sales are quite scarce. The grouping offered below also is in nicer condition than the soiled and discolored Bauer catalogues which one usually finds.

805. Bauer, George J. [Sale XII] Ancient and Modern Coins, Medals, and Tokens. May 20, 1944. 33 pp. 912 lots. The white card covers are soiled. A few marginal pencil marks. The contents are otherwise clean and Fine. (10.00)

Ancient Greek and Roman coins, some illustrated. The good bust and seated coinage is lower grade. The twentieth century coinage is in better grades. Unc 1802 & proof 1858 dollars. 1885 Canadian North West Rebellion medal. Some numismatic literature with prices in the margins. Scarce.

807. Bauer, George J. [Sale XXIII] Ancient and Modern Coins, Medals, and Tokens. MC KENZIE Collection of English Gold. October 18, 1947. 31 pp. 1061 lots. Charles Ruby's signature on the cover. Some prices and circled lot numbers inside. Otherwise Fine. (10.00)

Rare attributed 1652 Pine Tree shilling. 94 lots of mostly attributed large cents. 1803 VF dime. Many seated dimes. 2 attributed Elizabeth I sovereigns. 1806/4 $2.50. 1858 Canadian proof set. Foreign crowns and Papal copper. Good European numismatic auction catalogues with 5 Ars Classicas.

808. Bauer, George J. [Sale XXIV] Ancient and Modern Coins, Medals, and Tokens. January 31, 1948. 32 pp. 1065 lots. Other than some discoloration on the front cover, VF. (15.00)

Gengerke credits Mr. Brown with reporting this sale. 130 lots of attributed Conder tokens. Quite a comprehensive, but otherwise undistinguishod, offering.

811. Birch, Thos., & Son. Catalogue of Foreign and American Gold, Silver and Copper Coins, Medals, &c [A.C. KLINE]. April 16-17, 1866. 12mo, self-covered. 18 pp. 690 lots. pls. The covers and contents are discolored from age, and have some spots and waterstains. Some wear at the backstrip. Probably VG. (20.00)

Adams/Attinelli, R-7. 97 lots of large cents with A VF 1793 "wreath" which was probably EF to Unc as no coin was graded higher than VF. A set of 1859 8 pattern halves: 4 silver & 4 copper. 1836 Gobrecht dollar. Washingtonia: Funeral medal in silver, probable "Washington before Boston". Multiple lots of large cents. Many politicals. 39 auction catalogues from 1855 to 1865. A bust of William Penn "Carved out of the original Treaty Tree". This is the second listed Birch sale in Gengerke. Rare.

812. Bullowa, David. [Sale 1] Rare Coin Catalogue. United States Gold, Silver and Copper. November 20, 1946. 69 pp. 973 lots. A few marginal marks. The top corner is bent throughout. Nearly VF. (15.00)

Bullowa formerly was one of the principals in New Netherlands. He purchased Ira Reed's business earlier in 1946. 35 half cents: unc 1795 G.1. 1801 $10.00. 2 High Relief $20.00s. Ancient Roman gold, silver, and bronze. Good numismatic literature: 1845 Riddell's MONOGRAPH OF THE DOLLAR, plated Zabriskie, & many other unplated Chapmans. 145 lots of cut, counterstamped siege & necessity coins. Nearly 200 lots of European, Asian & other world gold. This is a nice copy of quite a scarce sale.

813. Chapman, Henry. [Sale 40] Catalogue of the JOHN STORY JENKS Collection of Coins. Ancient Greek, Roman and the Entire World. Early American Colonial and State Issues and United States Patterns and the Regular Series. December 7-17, 1921. 4to, original white cloth, gilt. xii, 653 pp. 7302 lots. Prl. Set of 42 reprint plates. The covers are disbound and heavily soiled. The catalogue is split entirely in two parts between pages 480 and 481. The last signature is completely disbound. The contents are moderately foxed. Some lots are priced in ink. This is complete, but it is most unattractive and a reading copy, or research copy. The reprint plates are VF and inserted in a separate envelope. (75.00)

Adams, A+ - "Henry Chapman's magnum opus: Superb coins of the world, plus U.S., all series expertly described." Not only does this sale have an "A" rating in 14 categories, it is also rated in 24 of 25 possible categories. The catalogue

begins with 500 lots of impressive ancient Greek and Roman coinage in all metals (rated "A"). Two highlights were a dekadrachm of Kimon and a magnificent aureus of Caesar, Pontifex Maximus. The ancients were followed by an extensive extraordinary collection of medieval and modern world coinage in all metals (4 "A" ratings).

Because this sale offered such an extensive and unparallelled collection of world coinage, many collectors tend to overlook the superb U.S. coinage in the sale. Highlights include 150 lots of superb colonials (rated "A"), 140 lots of excellent patterns (rated "A") with a 1792 silver center cent and a 1792 Birch cent. Also included were 135 lots of attributed large cents (rated "B+"), and superb half cents with both varieties of the 1796 and with 10 original and restrike proofs (rated "A"). Other offerings included proof sets from 1856 onward (rated "A") and excellent private and territorial gold (rated "A"). Overall the catalogue offered superior coinage in all metals, from all time periods, and from all areas.

Because of the superior quality and quantity of these offerings, and the overall excellence of the cataloguing, the sale catalogue was widely used for many years in this country as the best overall one volume numismatic reference.

This massive catalogue needs to be rebound. However, it is a complete copy of what is arguably the most famous American numismatic auction ever held.

814. Culkin Stamp Co. [Sale 1] The NELSON T. THORSON Library Auction. April 15, 1959. 8 1/2" x 14" mimeographed pages, stapled. 37 pp. 237 lots. Some rubbing at the top and bottom edges. The last leaf has a neat tape repair at the bottom edge. The last leaf detached. Otherwise nearly VF. (50.00)

Ex-Katen sale 62, lot 209. This is quite an important offering of numismatic antiquarian books. Featured is a large quantity of numismatic references from the 16th to the 18th century. Most of the references are European with the U.S. references being the basic numismatic books of the late 19th and early 20th century. Perhaps the "best" U.S. numismatic book is the two volume 1878 Loubat. Of particular importance is that the lots have extensive descriptive text, quite useful for the early books. Incidentally the paper is much thicker than the usual mimeograph paper used during the 1950s.

Nelson T. Thorson was the President of the A.N.A. in 1933 and 1934. He also served on the A.N.A. Board of Governors in 1926 and from 1939 to 1944.

Gengerke lists 10 sales for Culkin, of which the ANS only has 3. Gengerke notes that Culkin conducted 6 sales of Thorson's material; this sale precedes the second listed Culkin sale by 5 years. This is quite a rare catalogue.

FRENCH'S, of Troy New York, conducted over 100 sales from 1939 to 1976. Obtaining a complete run of sales a major undertaking. The first 40 sales are most elusive. Many of the other sales are most infrequently available. These sales are small format. Through Sale 36, the catalogues have tan card covers. Afterward they virtually all have glossy white card covers. Generally the sales are Very Fine, also unusual for the French sales. A few will have some pencil or ink check marks in the margins.

815. French, A. [Sale 12] Auction Sale of Rare Coins and Stamps. September 29, 1941. 21 pp. 711 lots. A slight diagonal fold throughout. A few prices pencilled in the margins. VG. (10.00)

"A Superb Collection of Large Cents", 105 lots, the more valuable early issues are quite meticulously described. 108 attributed Hard Times tokens in 25 lots. Some choice seated dimes. Some good Charlotte mint gold $1.00s. Unlisted 187C pattern dollar. Quite scarce.

816. French's. 7 Sales from the 1950's. (20.00)

Sales 49 (12 unc 1909-SVDBs, 148 unc 1931-S cents), 54, 55, 63 (1796 with pole half cent, 1787 Non Vi Virtute Vici, 1787 Excelsior cent, EF 1872-CC dollar, 1880 flowing hair stella), 67 (good attributed large cents, 1796 16 star half dollar, extensive large currency), 68 (fractional currency shield, good attributed Confederate and Southern States currency), 69 (superior gold dollars: 1860-D, 1875; 1823/22 quarter; good bust dimes with a 1798/97 13 stars; 1802 half dime; good large cents and half cents)

817. French's. 7 Sales from the 1960's. (20.00)

Sales 75 (attributed unc 1795 & 1814 cents), 82, 85 (67 lots of encased postage from the Colvin collection, 1850 Baldwin $5.00), 86 (illustrated gold cobs, Spanish Treasure), 89, 93, 94 (1861 Clark Gruber & Co. $5.00, 40 BU 1931-S nickels).

818. French's. 8 of 10 Sales from 1970 to 1975. (25.00)

Sales 100 (good middle and late date large cents, 17 proof $2.50s), 101 (2 plates of ancient coins), 102 (1796 Myddelton token in silver, Chalmers shilling and sixpence), 104 (80 attributed Hard Times tokens; 100 attributed Connecticut cents; 1841 proof large cent; good half cents: 1796 with pole, 1797 lettered edge, 1834 & 1841 proofs), 106 (1928 proof Hawaiian half; 24 attributed bust dollars), 107 (roll of 1927 Vermont commemorative halves), 109 (28 lots of patterns), 110.

BEN G. GREEN, of Chicago, conducted what is considered to be the first A.N.A. sale in 1907, also conducting another A.N.A. sale in 1911. In the Katens' sale 45, the second part of the "Wylie hoard" of early U.S. auction catalogues, they noted, "We have given nominal valuations on Ben Green's catalogues because there has been none offered in recent years. These sales are sales of substance and of some very great consignors." [p. 26].

The following green card sales all have slight peripheral fading, which we have noticed on other green card covered sales of other dealers - Bluestone, Ira Reed, Stack. The following Green sales can each be considered to be in at least Fine condition.

819. Green, Ben G. [Sale 1] Mail Auction Sale. MR. CHAS. S. CHAPIN. February 20, 1902. Gray CaC, 6.5 x 3.5 in. 23 pp. 613 lots. Two chips at the bottom of the front cover, Fine. (35.00)

40 half cents, 78 large cents, 1797 half, 1860 Clark Gruber & Co. $5.00, fractional currency, 12 lots of encased postage with Burnett's Standard Cooking Extracts 10c; Gault 3c, 5c & 10c; North America Life Insurance Co. The first sale was not offered by the Katens' in the Wylie hoard. A comparable copy of this scarce sale brought $72 in our seventh sale (lot 689).

820. Green, Ben G. 21st Public Auction Sale of Coins, Medals, Encased Postage Stamps, Etc. An Ohio Collection, and the Property of ISAAC PINCUS, Philadelphia, [MRS. GEORGE M. MOULTON] March 9, 1906. 16 pp. 655 lots. A PRICED COPY. Vertical bisecting fold, as mailed. The covers, which are blank and made of fine paper, appear to be original. The covers are soiled. The contents are clean and Fine. (20.00)

A complete set of large cents in 108 lots. 1792 half disme. New England shilling, ex-Haines. Masonic badges. Many mintmarked seated halves. 57 lots of gold dollars to half eagles. 7 lots of encased postage with a Gault 30c.

821. Green, Ben G. 36th Public Auction Sale of Coins, Patterns, Encased Postage, Etc. A Western Collection. January 31, 1908. 16 pp. 675 lots. Some soiling on the title page. Fine. (10.00)

"A western collector ... has spent years in forming the U.S. series.... His success will be appreciated by those endeavoring to 'fill', especially in the way of mint marks." An excellent offering of mintmarked seated coinage. 6 lots of encased postage with a F. Buhl 10c.

822. Green, Ben G. 39th Public Auction Sale of Coins, Medals, Paper Money, Etc. April 24, 1908. 16 pp. 676 lots. Clean and Fine. (12.00)

823. Green, Ben G. 44th Public Auction Sale. M.L. STRAUSS, W.S. WALLACE. November 27, 1908. 16 pp. 604 lots. Vertical bisecting fold. Fine. (20.00)

Strauss' 1884 trade dollar, "it has never before been offered at auction." Also Strauss' "magnificent lot of large cents", a complete set in 80 lots. "Mr. Strauss has been 25 years making this collection and has not spared expense in bringing together one of the best set (sic) of cents ever formed." Good early dates with the middle and late dates nearly all unc. 8 lots of Bryan money. 13 lots of mintmarked gold dollars from 1849 to 1859.

According to John Bergman, nice copies of WILLIAM HESSLEIN sales are almost impossible to find. Armand Champa has indicated that any Hesslein sales are "tough" to find. Checking past lists and sales finds few appearances of even individual Hesslein sales. Hesslein sales consisted of important offerings - such as the first reported offering of an 1870-S dollar at auction in his 119th sale; they are not obscure sales of ephemera.

Each is small format with card covers. Most have the white card covers similar to those issued by the Chapmans. Correspondingly, they also discolor in a similar fashion. These two sales show none of the typical discoloration and are in excellent condition for Hesslein catalogues.

824. Hesslein, William. Catalogue One Hundred and Eighth Public Auction Sale. Coins, Paper Money and Numismatic Books, Etc. The Collection of J.T. MURPHY, Quebec [and] PAUL R. SUNDERLAND. September 26-27, 1924. 52 pp. 1347 lots. Nearly completely priced in pencil. Some other pencilled notations inside. The covers are quite clean compared to most Hessleins. Vertical bisecting fold. The center leaf has been pulled away from the staples, but is present. Overall VG. (25.00)

Hesslein did not conduct 107 previous sales. According to Gengerke, Hesslein's first reported sale was March 31, 1909. There are 5 other Hesslein catalogues listed through 1916. However, the next sale was not listed until 1923. For the numbering sequence, this is the first sale listed with a number in the "One Hundreds". It appears that Hesslein assigned this sale the number of 108 based upon its being the eighth sale he conducted since his return to auctions in 1923, and his deciding to begin numbering the 1923-and-after sales with number 100.

The excessively rare O & P Boutwell Troy N.Y. Hard Times Token Low 87 in mint condition declared to be the finest known ($117.50). A nearly complete set of U.S. half dollars in superb condition". "[I have] secured the mailing list from Lyman Low". Some decent attributed large cents. 80 lots (many of which have many attributed tokens within each lot) of attributed Breton tokens. U.S. gold in a variety of sections. 47 & 34 & 25 & 24 attributed Hard Times tokens. This catalogue was not offered in the Katens' Sale 45, which we believe to be the largest offering of Hesslein catalogues. Quite important and scarce as a priced record.

825. Hesslein, William. Catalogue One Hundred and Thirty-Eighth Public Auction Sale. Coins, Paper Money and Numismatic Books, Etc. Collection of H.T. DEWEY. September 19-20, 1930. 45 pp. 1273 lots. But for a heavy diagonal 1 inch by half inch bend on the top corner of the catalogue, and some discoloration of the low quality paper contents, this would be VF. Still clean and Fine. (25.00)

Fractional, extensive obsolete, Confederate & good large currency. 40 lots of attributed Canadian tokens: "side view" penny, unc 4 piece Hudson's Bay Co. beaver tokens; also 42 attributed tokens in one lot. 27 lots & 66 in one lot attributed Hard Times tokens. 180 & 217 attributed Civil War tokens. Rare variety unc 1795 half dime. A rare variety Vermont cent which the "most prominent New York City collector of Colonials deliberately substituted" and returned for the "far superior & best known specimen" which Hesslein offered in his previous sale.

Despite the defects listed above, this is the nicest condition Hesslein catalogue we have offered. In our seventh and eighth sales, we offered a rather large number of Hesslein sales. We have not offered a copy of this sale previously.

SAM J. KABEALO conducted 141 auction sales between November 1930 and December 1973. He started in Youngstown, Ohio, conducting on sale in Columbus, then moving to Pasadena, California. We are not aware of any collector, nor the ANS, having a complete set of KABEALO sales. In fact, we do not even have records of anything approaching each of the sales ever being offered. The occasional appearance of even a few individual sales is noteworthy. KABEALO's sales featured hundreds of lots of proof singles from 1858 onward in many sales. Thus, they are a most important reference source for population studies of Seated and Barber proof coinage. Also featured regularly were currency, tokens, and literature. While most of his sales were somewhat pedestrian, he did conduct major sales and offered important specialized collections. Generally, the sales are small format, on glossy paper, without illustrations.

826. Kabealo, S.J. 7 Sales from April 1948 to February 1957. Each signed on the cover by Charles Ruby. (25.00)

EDWARD MICHAEL conducted 25 sales (according to Gengerke) in Chicago from 1911 to 1919. The first four sales were conducted with his brother Fred (Fred Michael & Brother). After Ben Green's death, Michael had the prominent numismatic auction house in Chicago. The interior layout and typography of his catalogues are quite similar to Green's although Michael sales are generally in a larger format. Michael sales are decidedly scarce.

831. Michael, Fred & Brother. [Sale 5] Catalogue of the Collection of United States and Foreign Coins of the Late FREDERICK L. FAKE. September 27-28, [1912]. 847. Sandham, Alfred. COINS, TOKENS, AND MEDALS OF THE DOMINION OF CANADA. 1962 Canadian Publishing Institute reprint of the 1869 original. 12mo, tan pebbled flexible CaC. 72 pp. Ills. VF. (15.00)

C-S 8548. Sandham was one of the earliest Canadian numismatists. After the sale of both the Rattray collection in 1866 and the Adelard Boucher collection in 1867, the Antiquarian and Numismatic Society of Montreal renewed its interest in finishing the catalogue of "British North American Coins" which it had begun in 1863. The project was put under the direction of Bronsdon and Sandham. Bronsdon later resigned leaving Sandham to complete the project alone. The "Sandham" is

considered to be the first significant work published in Canada about Canadian numismatics. This classic work is a descriptive cataloguing of 215 coins and tokens and 42 medals. This reprint is already scarce.

848. Shinkle, C.H. U.S. COIN VALUES AND LISTS. nd (c1909). 8vo, tan CaC. 20 pp. 3 plates of private gold. The covers are soiled and worn at the backstrip. The contents have numerous checkmarks. The plates are separated from 2 of the 3 staples. VG. (30.00)

Printed on the inside cover by way of explanation:

> An exhibit of prices paid for U.S. coins at Auction Sales 1906-09.... Showing prices paid for nearly every U.S. coin issued.
>
> Lists of Rare U.S. Coins describing over two hundred of the rare U.S. Pattern Cents - the most extensive list of these rare pieces ever published.
>
> Lists of the very rare Private Gold Issues, with recent prices paid and bid for same, with other coin data, etc.
>
> The reader is asked to regard this book as an Exhibit not a Price List.... The compiler is not a coin dealer, and does not make these bids or prices himself.

The first 6 pages are a series of charts noting the trends of prices for each coin denomination of each year of issue in three grades; mintmarks are ignored. There is a five page listing of pattern cents; remember the Adams-Woodin pattern book would not be issued until 1913. The "Illustrations of [the obverse and reverse of 38] Private Gold Issues" were "taken from specimens in [the] Cabinet of John A. Beck, Esq. Pittsburgh, Pa." In addition to other charts, there is a "List of Rare U.S. Coins" which gives some interesting comments about individual rarities. The last page announced that the Woodin sale of patterns was reported in the June 6, 1909 New York Sun. The syntax of the paragraph indicates that this was published soon after. The inside front cover carries a copyright date of 1905 perhaps indicating that an earlier edition had been published.

In George Kolbe's recent sale number 48 (June 14, 1991), in lot 643 he offered the next edition of Shinkle's work covering 1907 to 1910. It sold for $30.00. This edition included many more plates, reproductions from original plates courtesy of Henry Chapman. Mr. Kolbe indicated to me that he believes that Shinkle may have issued 4 or maybe 5 editions of this work. Regardless, this is quite scarce and most interesting. [I thank George for his time and for sharing his insights.]

854. Birch, Thomas & Sons. [J. COLVIN RANDALL] Coin Sale. April 15, 1879. 24 pp. 578 lots. Vertical bisecting fold. But for some chipping at the backstrip, Fine. (15.00)

As Birch was a general auction house, frequently the consignors catalogued their own collections, as did Randall in this case. Randall used "Randall numbers" and not Haseltine numbers to attribute the silver coinage. During the period before the publication of the HASELTINE TYPE TABLE, Haseltine attributed coinage by "H[aseltine] & R[andall]" numbers. However, for some unknown reason (by us anyway), Haseltine after the publication of the type table never again made any references to Randall's part in defining variety numbers. Because Birch auctioned collections which were most often catalogued by the consignor, we are quite certain that Randall personally catalogued this sale.

Adams, A- with 3 "A" ratings for British, Germanic/French, and Rest of Europe. Bement had significant collections in a variety of areas including minerals and a variety works of art and science, many of which he donated to various museums. Late in his life he turned to numismatics achieving significant collections also in a variety of collecting areas: In addition to this sale of his European coins, Henry Chapman offered his superior U.S. collection in May of 1916; Jacob Hirsch's Ars Classica of Lucerne sold Bement's superior ancients in two 1924 sales. In fact, selected Greek coins from the Bement collection had been previously published in 1921 by the ANS.

Among the buyers named in this particular catalogue [George] Gillette, [Wayte] Raymond, [Rud] Kohler, Bauer, and S.H. Chapman. Many of the notations are illegible. The sale is particularly important for its important medievals, and coinages through the 17th century. Highlights of the English section include sovereigns of Henry VIII, Edward VI, Mary, and Elizabeth; excellent Scottish gold and silver; excellent English hammered and milled silver. Other strengths include medieval French, Italian, and 16th century Germanic. Also offered are some 18th century English tokens.

These two catalogues offer a great deal of numismatic fun.

LESTER MERKIN catalogues as a group are vastly underappreciated. Although the catalogues for the Helfenstein sale of large cents and the Overton reference collection of half dollars are well-known, the other Merkin sales offer a variety of well-catalogued important U.S. coinage and numismatica. Most of the sales were catalogued by Walter Breen and offer important reference text. The Merkin sales are each small format with glossy card covers. The card covers seem to show wear just by being in contact with oxygen

Consequently, it often appears that the covers are Fine when in reality they have been untouched. Each of the sales offered here has the date it was received inkstamped wither in the upper corner of the front cover or on the title page.

Adams, A- with 2 "A" ratings for U.S. paper money and Confederate. We believe that this is probably a typo and that the 2 "A" ratings should be for the categories located one space to the left in Adams' rating chart - for colonial paper money and for fractional (encased postage). 90 lots of "An important offering of Canadian paper money." 90 lots of

Continental currency - "One of the Most Important Collections Ever Offered" (representing John Ford's cataloguing at it best). 50 lots of attributed small California gold.

A classic offering of 123 lots of encased postage; rarities include 3 Weir & Larminie 10c, 2 Lord & Taylor, 12 Gaults, 5 Kirkpatrick & Gaults. "A hoard of Sesqui Qtr. We are pleased to have regularly offered New Netherlands catalogues in our sales. The "rare" and "important" NI Netherland sales are generally known to the collecting public; however upon checking our records we noticed that this sa has rarely (if ever - I was not able to locate a copy in our previous sales) appeared in our sales. We believe that thi may be one of the scarcer New Netherlands sales in the 1950s. This catalogue may best represent the essence of what ga New Netherlands auction catalogues which were catalogued by John Ford their reputation for excellence.

Adams, A. One of the classic large cent sales in history, of particular importance as it was catalogued by Dr. Sheldon and because of the mystery as to whose collection this really was; Anderson Dupont was the name of a New England antique firm.

Because of the characteristics of this catalogue, once it was opened all the way, the backstrip and contents would tend to come unglued, and thus loosened from the covers. Apparently the covers on this copy received its wear from contact with other catalogues, as this catalogue has never been opened all the way on any page, explaining how its contents can be much higher condition than its covers.

One of the series of THE WORLD OF NUMISMATICS, which includes the Sutherland book on Roman coins and the Whitting work on Byzantine coinage, both offered below. Other than Kraay's 1966 work, this is the most visually impressive reference on Greek coins. Jenkins was Keeper of the Department of Coins and Medals in the British Museum. This handsome work is a chronological study "from the Archaic period, through the golden era of Athens, to the Hellenistic period of Athens that began with Alexander the Great". Both scholarly and readable, this work discusses and catalogues nearly 700 superior specimens. Although a second edition of this has recently been reprinted, it does not have the excellent production values of this first edition.

923. Whitting, P.D. BYZANTINE COINS. 1973. 4to, blue cloth, gilt, dj. 311 pp. 20 colour plates. 390 monochrome illustrations. Nearly Mint. (65.00)

A continuation of the chronological numismatic study to the Jenkins and the Sutherland works, although Sutherland's work was completed after this. This discusses in similar fashion the history of Byzantine coinage using 457 specimens. This attractive work is a most readable, comprehensible narrative of Byzantine coinage. This is a thoroughly handsome work of special utility as a quality entre to the field.

Smith's first listed sale according to Gengerke was May 26, 1956. Gengerke lists Smith's first numbered sale as Sa 37, held October 10, 1963. Although Gengerke's last listing for Smith is Sale 193 in May of 1983, in our fourth Mail B sale, lot 357, we offered 53 consecutive Smith sales from Sale 145 to Sale 197. Thus, we can account for the existence o 16 sales which are unlisted in Gengerke: Sale 149, sales 181 to 191, sales 194 to 197, the latter held December 3, 1983.

Smith's sales tend to be scarce. If one checks Gengerke to see who reported the individual Smith sales, the ANS is credited with being the source only of 2 sales - 192 & 193. The other reporting sources consist mostly of advance collectors Remy Bourne, Armand Champa, P. Scott Rubin, Michael Sullivan, and JR (Jeff Rock?), and one dealer - O.J. Grady

While Smith's sales tended to consist of relatively common or choice 20th century U.S. coinage, he also offered som worthwhile earlier U.S. coinage, specifically bust and seated silver, and some worthwhile copper and gold. However, man of the same offerings tended to appear in auction after auction. Smith's sales offered no attributions, illustrations, c descriptive text. Scarce.

984. Superior Stamp & Coin Co., Inc. The CLARKE E. GILHOUSEN Collection, Parts I-III. February 19-21 1973; June 11-14, 1973; October 1-4, 1973. 4to, stiff leatherette card covers, each with a mounted fo medallion, in the original slipcase. Prls. VF to nearly Mint. (75.00)

THE DELUXE LIBRARY EDITION. Gilhousen's collection was used as collateral for what proved to be an unsuccessfu mining venture in the 1920s. In the 1930s, Edwards H. Metcalf acquired the collection through foreclosure and a bequest Metcalf was the actual consignor of this collection. (The foregoing information came from Jack Collins important sale c numismatic literature, July 4, 1987.) This is a most important collection of U.S. and foreign gold coinage and c extraordinary bust silver coinage.

A Consignment of Important English Auction Catalogues from HARRINGTON MANVILLE

MR. MANVILLE tells us that he visits Great Britain once or twice a year to see the London dealers, visi museums and book shops, and search our numismatic information in libraries. He is a member of more tha half a dozen British numismatic societies and over the past twenty-odd years has given talks or read forma papers throughout England and in Scotland, Northern Ireland, and the Irish Republic.

He says that while the primary purpose of these trips has been to gather material for articles and multi-volume encyclopedia of British numismatics (the first volume, an annotated list of British numismat sales from 1710 to 1984 was published by A.H. Baldwin & Sons, and Spink & Son, London, 1986), he is no averse to picking up a coin or two for one of his specialty collections of unusual British silver and to add t his library of rare early books on British numismatics, or to fill in gaps in the long series of British auctio catalogues.

CHRISTIE'S, a venerable English auction house, decided to establish a U.S. division during the coin boom o the late 1970s. Since 1981 Christie's has continuously conducted quality numismatic auctions in the U.S Their sales are substantial, but consistent with their English sales, they tend not to be as textuall expansive to which Americans have become accustomed in quality U.S. auction catalogues. However, this i not to denigrate their catalogues. Each of their numismatic auction auction catalogues does have excellen production values: large format (small quarto) with glossy pictorial card covers and excellent color plate within. As would be expected the cataloguing is precise and expert.

985. Christie's. The BARON FAMILY Collection of United States, Foreign, and Ancient Coins. December 8 1983. Small 4to, dark blue cloth, gilt. 93 pp. 448 lots. 6 color pls. Nearly Mint. (20.00)

A deluxe clothbound format, apparently as all were. This is most important for the 312 lots of world gold. Baron unreached goal was to obtain one gold coin from each country which had minted one. An Offering of SPINK COIN AUCTION Catalogues

In the 1960s and 1970s Spink held occasional auctions with Glendining and Co. Spink Coin Auctions held their first solo auction of their new auction series on October 11, 1978 with a sale of 309 lots. By the time that this mail bid sale closes, Spink will have held its 80th sale.

With the exception of a few auctions of numismatic literature, the Spink catalogues are known for their superior production values. Each of the sale catalogues is in large format, with most attractive glossy color covers, and coated stock contents. They are profusely illustrated, most of the later sales have excellent color plates. The catalogues are meticulously catalogued, thoroughly provenanced, and have offered outstanding collections of mostly English coinage from all periods, although they have also offered superior ancients, numismatic literature, important sales of tokens and medals, and world coinage.

Many collectors on this side of the Atlantic are unaware of the Spink auction catalogues. We are offeri these sales individually in the hope that we can draw some deserved attention to these undervalued (in t United States) sales.

In cataloguing these sales, we have listed the total of the prices realized for each of these sales followi the Prl. Because we cannot produce the proper "Pound" symbol, we have listed it as a letter "L". Additional to save having to print a bunch of zeros, we have listed the thousands as "k". Thus, "L100k" would mean th the sale realized 100,000 pounds.

The specific catalogues offered here are in excellent condition. Only 3 have any defects worth notin Otherwise, these can be assumed to be Very Fine or better. At the end of the offering, bidders will have t opportunity to make one bid for the entire group.

1131. Raymond, Wayte. THE STICKNEY 1804 DOLLAR. 1931. 8vo, tan CaC. lettered in black, decorated in gilt. Gold cord tied at the backstrip. 10 pp. Ills. Soiled with a repaired tear in the top margin of the front cover. The one glossy interior leaf is foxed. The remaining 2 leaves are Fine. (15.00)

This is probably the scarcest of all the Raymond emissions of the period. The Foreword contains the provenance of the Stickney dollar from 1843 when it was purchased from the U.S. Mint cabinet by Stickney through its various owners to William C. Atwater who later auctioned it in the Mehl sale of 1946. The 5 pages of text was extracted from the August 1867 issue of the AJN in which Stickney wrote of his obtaining the coin. Most elusive in any condition.

Much as Raymond did for his STANDARD [COIN] CATALOGUE in 1943, rather than issuing a completely new edition, he merely produced a paper supplement for his STANDARD PAPER MONEY CATALOGUE which he originally issued in 1940. Scarce.

A SELECT OFFERING OF AUCTION CATALOGUES

Martin Gengerke's AMERICAN NUMISMATIC AUCTIONS, now in its 8th edition, is the standard guide for numismatic auctions conducted in the United States since 1828. Gengerke lists over 13,200 catalogues organized alphabetically by dealer, the number of the sale (if available), the date of the sale, the number of pages, lots, and miscellaneous data. Also listed is the source for the listing (who has the catalogue, or who has reported the catalogue). Most of the catalogues are in the holdings of the American Numismatic Society and are indicated as such. However, there are catalogues that the ANS does not have, or that Martin himself has seen. In that case if an individual who has discovered an unlisted catalogue, Martin will list the "discoverer" as the reporting source.

Michael Sullivan (MJS), who has discovered a large number of previously unlisted catalogues, has consigned many of them. While the individual sales catalogues may not necessarily be inherently important, their existence should be part of the public record. Additionally, one can safely assume that these catalogues are scarce if not in fact rare. Some of the sales listed below were not discovered by Sullivan, but are included because they seem to belong here. For the collector of numismatic auction catalogues, therefore, these sales are necessary for the collectors who are trying to complete "Gengerke".

A Consignment from RICK PONTERIO

RICK PONTERIO has been a longtime dealer in world numismatics. As Ponterio & Wyatt, and since 1983 as Ponterio & Associates, Rick has been one of the most prominent U.S. dealers specializing in world coins. His particular specialty is the coinage of Mexico. Rick's large format, illustrated catalogues and profusely illustrated fixed price lists have become valuable references. Offered below in the section on auction catalogues is a nearly complete run of Ponterio's auction catalogues. One can easily see his stature in the business by the significant collections that he has offered, and by the important conventions at which he has conducted auctions.

1216. Calico, Ferran and Xavier Calico. THE ONZA MAIN BOOK (THE GOLD DOUBLOON OF EIGHT). Spain, Provinces and Independent Republics of America. Counterstamps and Counterfeits. 1611-1873. 1986. Barcelona. 4to, red leatherette, gilt. 222 pp. Ills. Vals. Nearly Mint. (75.00)

A profusely illustrated cataloguing of 2281 doubloons. Although both English and Spanish are used, English predominates making this handsome "telephone book" especially useful. The title notwithstanding, this actually begins with Felipe II (1556-1598).

1217. Calico, Ferran, Xavier Calico, and Joaquin Trigo. MONEDAS ESPANOLAS DESDE JUANA Y CARLOS A ISABEL II, 1504 a 1868. 1985. Barcelona. 4to, brown leatherette. 544 pp. Ills. Vals. The covers are Fine, the contents are clean and VF. (35.00)

The sixth edition of a comprehensive cataloguing of a profusely illustrated reference. The preceding 5 editions began with succeedingly earlier monarchs. Organized chronologically by ruler for coins in all metals emitted by all Spanish and Spanish-American mints. Easy to use, most valuable.

A huge reference covering over 16,000 types of Hispanic coinage from all mints issued over 1400 years in copper, silver, and gold. This comprehensive and scarce Spanish language reference is comparable to a Spanish "redbook" on steroids. Especially useful for the illustrations and the catalogue sections on the Visigoths and Spanish Islamic coinage. Magnificent.

1219. Dalton, R. and S.H. Hamer. THE PROVINCIAL TOKEN-COINAGE OF THE 18TH CENTURY. 1977 Quarterman reprint of the 1910-1920 original. 4to, gray cloth, lettered in black. 567 pp. Ills. VF. (85.00)

The second edition is notably scarcer than the seemingly ubiquitous first edition. This covers prices for nine crown titles written by Davenport covering 10,000 catalogue numbers for crowns and talers. While not perfect, this is the best one volume price guide.

Most of the material originally appeared serially in THE NUMISMATIST and then with work on the common bronzes was released as an ANA reprint as INTRODUCTION TO EAST ROMAN COINAGES. "This is the only reference aimed at the basic collector and provides a stepping stone to the more advanced references".

The material originally appeared serially in THE NUMISMATIST in 1958. Still the best English language reference on the topic. "The theory is by using this reference, a collector can acquire the knowledge so he then can ... attribute most of his unknown coins" with the held of Gaettens and other auction catalogues. Of particular value are the 8 pages of illustrations with descriptive text on the facing pages.

C-S 8443". Mandatory for the collector, this work covers the coinage and patterns of Bermuda, British Guiana, British Honduras, and the British West Indies. It is also an important reference for the cut and counterstamped coinage of the region. Of special importance is Pridmore's information about Sommer Islands coinage, copies, and counterfeits. Much of Pridmore's information appears nowhere else. Definitive.

Despite the limited text being written in German as are the titles, this profusely illustrated guidebook for 17th century German states and Germanic coinage is a superior reference for all collectors. This illustrates many more coins and covers much more material than does the Krause-Mishler "telephone book".

1231. Sear, David R. THE EMPERORS OF ROME AND BYZANTIUM. Chronological Tables for History Students and Coin Collectors. 1974. 8vo, glossy CaC. 160 pp. Fine. (15.00)

AUCTION CATALOGUES

1234. Ponterio & Wyatt. All 5 Auction Catalogues from Sale 4 (June 23, 1981) to Sale 8 (November 8, 1982). But for sale 6, each with the PRL. Large format, glossy white pictorial covers. Nearly VF and better. (25.00)

This grouping contains all of the large format catalogues issued by Ponterio and Wyatt. When Rick Ponterio sent in this consignment, the grouping lacked Sale 6, as did his consignment in lot 731 of our previous mail bid sale. We added Sale 6 for this sale from our inventory for completeness. While we cannot guarantee that Sale 6 is particularly scarce, we can probably assume that Rick does not have any (or many) of Sale 6 in his archives.

Concerning the offerings, in addition to excellent world coinage, especially silver and gold, the profusely illustrated Ponterio & Wyatt sales featured excellent Mexican coinage in all metals, and from all eras.

[1]. Sale 4, 6/21/81, 59 pp., 702 lots, ills. [2]. Sale 5, 10/20/81, 54 pp., 500 lots, ills. [3] Sale 6, 2/27/82, 64 pp. 847 lots. [4] Sale 7, 6/22/82, 97 pp., 1406 lots. ills. [5] Sale 8, 76 pp., 864 lots, ills

1235. Ponterio & Associates. 27 of 32 Auction Catalogues from Sale 9 to Sale 40. March 10, 1983 to January 27, 1990. Each is large format with glossy CaC. Each sale averages 60 pages and 1000 lots. A few of the glossy covers may show the slightest rubbing. VF. (125.00)

Sales 9-20, 22, 24-25, 29-35 (including both parts of Sale 33; Gengerke does not show Part II of sale 33), 37-40 Each has the PRL except sales 16 and 30. Also included are PRLs for sales 6, 16, 19, 20, 22, & 30. Also sale 40 has a photocopied PRL.

With sale 9, the firm's name was changed to Ponterio & Associates, Inc. as Charles Wyatt established his own firm. Ponterio's sales continued to feature excellent world and Mexican coinage, medals, and paper money, but also added ancient coins. Several of his auctions were held with major conventions:

[1]. C.O.I.N. '84 featuring Mexican and world crowns from the collection of the late James Edmund Ponterio
[2] New York International 1984 featuring proclamations and medals of Spain and her colonies.
[3]. C.O.I.N. '85 featuring the Alfredo Porraz collection of Mexican coinage
[4]. C.O.I.N. '86 featuring the Frank Grove Collection of Mexican coins
[5]. C.O.I.N. '88 featuring the Norman Robbins collection of Spanish colonial coins and the Slocum collection of Latin-American crowns
[6]. C.O.I.N. '89 featuring Part I of the Witte Museum collection and the Sergio Torres Martinez collection of Mexican coins.

OTHER HIGHLIGHTS

SALE 31 featured the Ernesto Torres collection of Mexican coins. SALE 35, January 12, 1989, unlisted in Gengerke, consists of 56 pages with 632 lots with 14 plates.
SALE 39 featured the "Nicobar" find of Swedish plate money with the entire catalogue devoted to 489 lots of plate money with substantial numismatic text.

Ponterio's catalogues serve as excellent resource guides for world and ancient coinage in general, and for Mexican numismatic material specifically. It is quite unusual to be able to offer so many catalogues, especially with the PRLs. This grouping is larger and in significantly nicer condition than the grouping we offered in lot 732 of our previous sale.

8 of the 10 Parts of Sotheby's BRAND Collection Sales

Virgil Brand is one of the great names in twentieth century American numismatics. His legendary status has been definitively chronicled in Q. David Bowers 1983 VIRGIL BRAND: The Man and His Era. Profile of a Numismatist. After Brand's death in 1926, his collection was split between Armin and Horace Brand. Jane Brand Allen received these coins from her father Armin. The executors of Mrs. Allen's estate selected Sotheby's to auction these coins which took 10 sales held between July 1982 and October 1985. Each of the catalogues contains a two page biographical sketch written by Armin Brand Allen and David Enders Tripp. Also, each of the catalogues is bound identically - octavo, with heavy brown card covers lettered in gilt. These are very nice, matched copies.

Each check is perforation cancelled. Each check has a rendering of the Mehl Building in the upper left hand corner, and a facsimile of the obverse of a Fugio cent in the upper right. The checks are each made out for $15.00 or less. Or particular note is a $4.00 check written to Harry F. Wilson, Secretary. Amer. Num. Ass'n., apparently for Mehl's A.N.A. dues. Wilson's personal endorsement is not on the back of the check. Rather the A.N.A. inkstamp was used. Each check was signed by Mehl. Cute.

1269. Allen, J.J. Cullimore. SOVEREIGNS OF THE BRITISH EMPIRE. 1964. 12mo, blue cloth. 60 pp. Ills. Shelf rub on the bottom edge, otherwise VF. (15.00)

In addition to giving a good historical overview of the sovereign, this modest work gives the mintages by ruler and by mint of sovereigns from George III to the 1952 George VI issues. Of note is the chapter on the 1852 Adelaide gold pounds.

1270. Ambrosoli, Solone. ATLANTINO DI MONETE PAPALI MODERNE, A SUSSIDIO DEL CINAGLI. 1905. 24mo, later 3/4 leather with marbelled boards, 4 raised bands, gilt. 131, 29 pp. Frontis of Cinagli. 200 ills. VF. (50.00)

An illustrated guide of papal coinage from Urban VIII (1623-1648) to Pius IX (1846-). Not only is this high quality guide to papal coinage extremely useful for the excellent illustrations, but also the later deluxe binding is most attractive. This volume is a perfect example of books being originally bound with flimsy covers in anticipation that the owner of the book would have it luxuriously rebound. This has an attractive a binding as I have ever seen.

1271. Ayer, Dr. J.C. & Co. (publishers). AYER'S AMERICAN ALMAMAC 1889. 1888. 8vo, original brown cloth, gilt. The covers are rubbed at the extremities. The joints and sewn binding are weakening, but still sound. The cover is detached, but present. The contents are clean and Fine. (25.00)

Formerly a library copy, with minimal stamping. The Ayer's firm, which issued encased postage stamps, began publishing almanacs in 1852. Eventually they began issuing almanacs for a variety of countries in a variety of languages. Contained in this volume are a series of the 32 page 1889 almanacs for: the U.S. (2 copies), India (in English), Argentina, Ecuador, Spain, Portugal, Germany, Sweden, Denmark (or Finland), Czechoslovakia (or its equivalent), Bulgaria (I believe).

Also bound in are three versions of AYER'S HANDY BOOK EXPLAINING THE USE OF AYER'S FAMILY MEDICINESin English, German, Italian, and one copy in English of AYER'S BOOK OF EMERGENCIES. I am certain that a century from now that today's first aid, and home cure books will seem as quaint.

C-S 10363. This standard guide covers the coinage from Adrian I (772-795) to Pius XII. It is of particular value for the translations of the inscriptions, scriptural and historical references, lists of engravers, and also saints honored in inscriptions. Still the best English language reference.

The series of Davenport "taler" books have been the standard references for the series for decades. Not only do the Davenport works illustrate both sides of the listed crowns which are fully described, but they are also especially useful for the listings of and the translations of the inscriptions.

This volume salutes the bank's new offices, giving early New England banking history. Among the numerous illustrations are the Certificate of Incorporation signed by John Hancock, and two checks from the Union Bank dated 1797 & 1798. The burlap covers are neat.

While today the issue of the price relationship of gold to silver seems irrelevant (at historic highs of 90 or 100 to 1), beginning in 1873 and moving through to the turn of the century, the debate over gold versus silver and its price relationship was both a major national and international concern: from the Berlin conference in 1894 to William Jennings Bryan's "Cross of gold" speech. Laughlin's work was one of the major references of the period about the issue.

1290. Miller, Michael F. CLASSICAL GREEK AND ROMAN COINS. The Investor's Handbook. 1982. 8vo, black cloth, gilt. 221 pp. Ills. VF. (20.00)

If one overlooks the investment aspect of the book, there is good information for the neophyte about ancient coins in general and in particular about important types of ancient Greek and Roman coins. Again, investments aside, this is quite a good introductory handbook for the coinage.

C-S 13233. This magnificently produced work, written entirely in Spanish, is an illustrated cataloguing and history of Spanish banknotes. Dr. Muscalus' monographs about paper money have been extremely valuable sources of information since his first article appeared in April 1935 issue of the THE NUMISMATIST. His individual monographs each deal with one theme: religious figures, famous Americans, famous writers, famous paintings, ships, railroads, ad infinitum. In the Winter 1989 issue of THE ASYLUM. The Quarterly Journal of the Numismatic Bibliomania Society, Ray Bisordi's bibliography, "The Works of John Muscalus" appeared. Lipsius, p. 308.. Written in French, the fourth edition of this work which was originally published in 1665 is divided in 23 chapters dealing primarily with ancient Greek and Roman coins and medals. With a quality rebinding and judicious trimming, as intended, this would be a nice Fine copy. Because of the high rag content of the paper, this book will still be most usable long after today's coated stock catalogues have disintegrated.

This predecessor to the Evans' works on the history of the U.S. mint includes minting techniques, history of the mint, biographies of significant previous and then current mint personnel, descriptive cataloguing of regular issue minted U.S. coins, and also colonials. The last 20 pages are an illustrated cataloguing of ancient coins. Underappreciated Incidentally, all copies of this work which turn up seem to be in this condition, almost as though they were issued this way. Obviously, this title was regularly used as a reference.

1298. Snowden, James Ross (Director of the Mint). A DESCRIPTION OF ANCIENT AND MODERN COINS IN THE CABINET COLLECTION AT THE MINT OF THE UNITED STATES. 1860, 8vo, later green library cloth, gilt. 412 pp. Frontis. 27 plates of coins printed in relief and in metallic tints. Ex-libris. The covers are VG. The silver tinted plated coins show moderate toning. But for some foxing on the first ten leaves of so, the contents are Fine. (75.00)

Snowden acknowledged that George Bull and William DuBois were mostly responsible for this book. This was the first occasion that the chromolithographic process for coloring embossed plates was used in American printing. With a new binding replacing the library binding, and concomitantly its obvious library markings and envelope, this would be a most satisfactory copy of one of the classic 19th century American numismatic works.

Rosichan 832. This includes a marvelous and unfortunately overlooked 6 page introduction by John Ford which is a marvelous overview of the beginnings of American numismatics and numismatic literature. In addition to the material described in the title, Taxay covered in detail the "peculiar" practices of the U.S. mint in the nineteenth century. Taxay, one of the America's great numismatic scholars, provided a fascinating, readable insight into the topic.

The illustrations include an 1861 Philadelphia note and a quarter cent Philadelphia fractional note. This is an important history of the third bank in Philadelphia.

A GUIDE BOOK FOR UNITED STATES COINS, better known as THE REDBOOK is the most successful book and the most influential numismatic book in American history. Produced by Richard Yeo, his real name, THE REDBOOK has been issued since 1947. REDBOOK collectors have become quite conscious of the book's condition. The major areas of concern are the brightness of the gilt on the spine and on the front cover, the tightness of the binding, and the cleanliness of the contents. Consequently, we are obligated to be most expansive in describing each.

1303. Yeoman, R.S. A GUIDE BOOK FOR UNITED STATES COINS, 1947. 1st ed. 1946. 254 pp. Ills. Vals. (75.00)
THE BAD NEWS: The covers are in terrible condition: faded, worn, and stained. Additionally the covers are nearly disbound from the contents.
THE GOOD NEWS: The contents are clean, sound, and the signatures are still firmly sewn. With any kind of rebinding, this would be a Fine copy. This contents are of sufficient quality that one might even look for a first edition with excellent covers and defective contents; subsequently to combine the best of each.

1304. Yeoman, R.S. A GUIDE BOOK FOR UNITED STATES COINS, 1948. 2nd ed. 1947. 254 pp. Ills. Vals. (50.00)

1305. Yeoman, R.S. A GUIDE BOOK FOR UNITED STATES COINS, 1949, 3rd ed. 1948. 254 pp. Ills. Vals. (95.00)
The contents are VF, nearly pristine. The joints are weak. The gilt heavily faded which is normal for this year. There is some rub and wear at the top of the spine and an adjacent area on the front cover. There is a 1 1/2 inch crease on the front cloth cover, as made.

1306. Yeoman, R.S. A GUIDE BOOK FOR UNITED STATES COINS, 1949, 3rd ed. 1948. 254 pp. Ills. Vals. (60.00)
The 3rd edition and the 5th edition are generally acknowledged to be the scarcest editions. The covers are faded, worn, spotted, and stained. The joints are weak. The fore edge of the contents shows some discoloration. The contents are clean, sound, and Fine or better.

1307. Yeoman, R.S. A GUIDE BOOK FOR UNITED STATES COINS, 1952-1953, 5th ed. 1951. 254 pp. Ills. Vals. (40.00)
The contents are generally clean and VG. The covers are spotted, stained, faded, soiled, worn, and ugly. The joints are weak. Because the contents are unmarked and the sewn signatures are sound, this is a most acceptable reference copy of one of the two scarcest editions.

1308. Yeoman, R.S. A GUIDE BOOK FOR UNITED STATES COINS, 1955, 8th ed. 1954. 254 pp. Ills. Vals. Better than Fine. (40.00)
The covers and the contents are bright and clean. This is a nice copy of the last edition with the maroon covers.

1309. Yeoman, R.S. A GUIDE BOOK FOR UNITED STATES COINS, 1955, 8th ed. 1954. 254 pp. Ills. Vals. A circular spot of discoloration on the front cover (from a coffee cup?). Some notations on the endpapers. Otherwise, Fine. (30.00)
The contents are bright and clean.

Muted gilt which is typical for this edition, the contents are clean. The binding is perfect. The covers are bright and clean.

The HANDBOOK OF UNITED STATES COINS With Premium List is the correct title for THE BLUEBOOK. For the first 13 editions, the listed authors are R.S. Yeoman, Lee F. Hewitt, and Charles E. Green. Afterward, Yeoman is the sole author.

1311. Yeoman, R.S, Lee F. Hewitt, and Charles E. Green. 1942 HANDBOOK OF UNITED STATES COINS With Premium List. 1942, 1st ed. 126 pp. Ills. Vals. The covers are better than Fine; the contents are better than VF. (100.00)
A most pleasing copy. The covers are bright and clean. The covers show a small amount of wear at the edges. The gilt is bright; the binding is perfect; the contents are bright and clean. The spine is slightly discolored. Early BLUEBOOKS tend to be much scarcer than early REDBOOKS because from 1942 to 1945 a significant number of collectors were on extended "field trips".

1312. Yeoman, Hewitt, and Green. HANDBOOK OF UNITED STATES COINS With Premium List. 1945, 4th ed. 127 pp. Ills. Vals. (35.00)
Of note is that this is a variant cover. The cover from the third edition was used, with the words "Third Edition" covered in gilt, and with "Fourth Edition" printed in gilt above. The fourth editions also comes in tow other variants: the black cover which scarce, and we have heard of some yellow cloth covers for this edition.
The covers are worn, spotted, soiled, and faded. Another beauty. The contents are clean and VF or perhaps better.

1313. Yeoman, Hewitt, and Green. HANDBOOK OF UNITED STATES COINS With Premium List. 1948, 6th ed. 127 pp. Ills. Vals. (25.00)
The covers are each rubbed and soiled. The contents have some rather unobtrusive marks next to many of the coins, as this was apparently used as a checklist. The contents are otherwise clean and Fine.

1314. Yeoman, Hewitt, and Green. HANDBOOK OF UNITED STATES COINS With Premium List. 1950, 8th ed. 127 pp. Ills. Vals. (20.00)
The covers show moderate wear. Two spine labels have been removed leaving discoloration apparently from the labels' adhesive. The covers are VG. The bonding is tight. The contents are bright and mark-free.

1315. Attwood, Roland C. (Coffee, Jr., John M, Editor). ATWOOD'S CATALOGUE OF UNITED STATES AND CANADIAN TRANSPORTATION TOKENS. 1970, 3rd ed. Thick 8vo, red cloth, gilt. 731 pp. Ills. Vals. Clean and better than Fine. (20.00)

"This book is an addition to the first and the second edition. The book has about 3000 photos and a listing of more than 4000 different types or dates. Bachtell attempted to provide in his various works a more concise reference series than the "Davenports". Bachtell noted that with this "Addition" and either the first or second edition, over 10,000 talers are listed; over 8000 are illustrated.

1317. Bolender, M.H. THE UNITED STATES EARLY SILVER DOLLARS FROM 1794 TO 1803. 1950, 1st ed. 4to, blue cloth, gilt. 75 pp. 9 fine pls. For the condition, see below. (35.00)

CONDITION-"bad news". Apparently some varnish or stain got spilled on this copy resulting in the following. In addition to wear that would make the covers VG, there are some areas upon which small amounts of varnish/stain (V/S) have spilled and dried. Both inside covers and all of the free-endpapers have several square inch sections of V/S. The foredge has a V/S stain which has only intruded on the outer margins of two leaves.

CONDITION-"good news". Only the foredges of the plates have been affected. No plate has more than a millimeter of stain intruding on the margin. Plate I has a one inch triangular waterstain on the upper right margin. The plates are otherwise defect-free and nearly VF.

THE BOOK. The reason for the detailed condition description is that the first edition is in constant demand as it has by far the best plates of any other edition or reprint. Thus, all of the substance of the book - the plates and the text - is sound. The first edition is quite scarce.

1319. (Bowers) Hathaway and Bowers Galleries, Inc. CHOICE AND DESIRABLE COINS. Volume III, Catalogue No. 5: May 1970. 4to, self-covered. 36 pp. Ills. Nearly Mint. (25.00)

The significant offerings include Connecticut coppers by die varieties and 15 proof half cents. An important article contained within is "The Coin Outlasts the Throne", by Frank Morton Todd, a reprint from 1921 about Farran Zerbe and the Panama-Pacific Exposition. This tends to be a scarcer issue.

1320. (Bowers) Hathaway and Bowers Galleries, Inc. RARE COINS. Volume III, Catalogue No. 7: September 1970. 4to, self-covered. 32 pp. Ills. VF. (20.00)

The offerings include "The First Commemorative Half Dollar" - an 1824 bust half counterstamped with Washington's bust on the obverse and Lafayette's bust on the reverse; a 1792 disme in copper; a "magnificent offering" with good historical text of Vermont cents, 20 of which are illustrated on both sides; "A spectacular offering" of Connecticut cents with hundreds of attributed, well-described cents; and many proof half cents. Also included is a substantial article by QDB "A Treasure for the Future" discussing wise coin purchases. Incidentally we have noted that this may be the scarcest of the collectible issues of the Hathaway and Bowers series.

1321. (Bowers) Hathaway and Bowers Galleries, Inc. CHOICE AND DESIRABLE COINS. Volume III, Catalogue No. 8: November 1970. 4to, self-covered. 48 pp. Ills. VF. (20.00)

The contents include "One Dealer's View of the A. N. A. Convention" QDB's recollections from 1955 onward and "The Money Pit" by D'Arcy O'Connor, a fascinating story reprinted from The Wall Street Journal about buried treasure on Oak Island, Nova Scotia. The numismatic offerings include important Vermont coppers and two pages of attributed Connecticut coppers. Apparently, the paper used in this issue was of a different composition as it has become discolored, which is not unusual for this particular number.

1322. (Bowers) Hathaway and Bowers Galleries, Inc. CHOICE AND DESIRABLE COINS. Volume III, Catalogue No. 9: January-February 1971. 4to, self-covered. 44 pp. Ills. But for the tiniest piece of paper chipped away from the top gutter margin of the back cover, VF or better. (20.00)

This issue features even more attributed Connecticut coppers, an 1802 half dime, an 1841 $2.50 - "The Little Princess", and "Coin Market Commentary" a four page article by QDB. Also offered is one lot of numismatic literature for $3750 featuring Chapman's Cents of 1794, Clapp-Newcomb United States Cents 1795-1797, 1800, a Crosby (undated: it could be an 1875, 1945, or 1965), 8 large size Chapmans with a Rushnell and a plated Cleanay, and a plated copy of Woodward's Dohrmann sale.

The original 1925 Browning editions are rare and quite expensive. References on this series are quite scarce. Although the plates are mediocre, this is still an excellent moderately priced source for the text.

1325. Burnie, R[obert] H[enry] SMALL CALIFORNIA AND TERRITORIAL GOLD COINS. QUARTER DOLLARS, HALF DOLLARS, DOLLARS. 1955. 4to, original black card covers, gilt. 96 pp. The covers show a bit of wear. The contents are VF. (25.00)

1326. Clapp, George H. THE UNITED STATES CENTS 1804-1814. CCS-8. 1941. 12mo, CaC. 12 pp. 2 pls. VF. (15.00)

C-S 12278. Since the Bowers and Merena sale of the Norweb half cents, new attention has been and remains focused on this series. This is much more than a mere handbook; this includes background on half cent collecting and pertinent historical text. Essential.

1328. Elizondo, Carlos A. EIGHT REALES AND PESOS OF THE NEW WORLD. 1968, first edition. 8vo, blue cloth, lettered in silver. 141 pp. Ills. Vals. Fine. (15.00)

Hardbound edition of the SILVER DOLLAR FORTUNE TELLING book are always sought after. The first edition was published earlier in the year. Although they list this as "Part II. First edition", this is more aptly described as a revised first edition.

This includes the Foxes date and mintmark analysis of all Morgan and Peace dollars, including their estimates of surviving examples in various grades for the various dates. Also included are text chapters on "sleepers", "Gem prooflikes", "the 1893-S", and an interview with Harry Warner - "Mr Silver Dollar."

1330. Friedberg, Robert. PAPER MONEY OF THE UNITED STATES. 1953, 1st edition. 4to, green cloth gilt. 128 pp. Ills. Vals. The hinges are weakened. Fine. (35.00)

The elusive first edition. Many currency collectors have begun to collect all the "Friedberg" editions, much as many coin collectors have attempted to assemble complete sets of Redbooks. Unmarked, clean first editions are decidedly scarce, in demand, and underpriced.

1331. Fuld, George and Melvin. PATRIOTIC CIVIL WAR TOKENS. 1982, 4th revised edition. 8vo, red cloth, gilt. 3659 pp. Ills. Rarity guide. VF. (25.00)

An indispensable reference both for the specific collector and the general numismatist. Not merely a catalogue, it is a veritable encyclopedia. The enlarged illustrations, listings, and updated information are not available in any one volume reference. This replaced the small black flexible leatherette books published in the Whitman Publishing Co. "Black Book" series.l

1332. Muscalus, John A. PAPER MONEY IN SHEETS. 1949. Small 4to, CaC. 106 plates. Nearly VF. (15.00)

C-S 13309" The first edition of this standard reference covered the "historical, statistical, and descriptive [aspects of] paper money from 1686 to 1789". This edition coves the money issued through 1800 in order to include the small change notes issued between 1790 and 1796. Over 500 issues are included. This is a classic reference from one of America's great numismatic researchers.

1334. Osbon, Jim. JIM OSBON'S SILVER DOLLAR ENCYCLOPEDIA. 1976. 4to, glossy pictorial ivory, tan and copper CaC. 271 pp. 1 plate of a 1799 dollar. The glossy covers are slightly worn, otherwise Fine. The contents are VF. (12.00)

This covers all U.S. silver dollars from bust dollars though the Peace series including trade dollars. In addition to having a chapter on the history of silver dollars which deals heavily with grading, this is primarily a chart driven price projection for silver dollars. For each issue, an investment ranking is provided, for example, the 1887-O is projected as being the 78th best investment of 97 Morgan date/mintmark issues. Also included for each issue is the mintage, the percentage of various grades of unc; the 1881-S has 15% MS-60s, 75% MS-65s, and 10% MS-65 P/L. Of interest is that he includes for each issue the number of die pairs used and the number of coins struck per die pair. Osbon's approach was "interesting". A second edition of this was produced.

1335. Overton, Al C. EARLY HALF DOLLAR VARIETIES. 1970, revised edition, third printing. 8vo, green cloth, gilt. 274 pp. Ills. Near Mint. (35.00)

The standard reference is always in demand. With the new edition, collectors are now trying to assemble complete sets of Overton, according to the number of the printing. We have heard that only 1000 copies were printed of each of the first five printing. Do any of our readers have any information to verify or to correct this?

1338. Sheldon, William H. PENNY WHIMSY. A Revision of EARLY AMERICAN CENTS. 1965 reprint of the 1958 original edition. 8vo, tan cloth. 340 pp. 51 fine pls. Nearly VF. (75.00)

C-S 12341. The classic standard reference, this edition corrected the errors and included some additions to the 1958 original edition. Arguably. Crosby's 1875 EARLY COINS OF AMERICA, Yeoman's A GUIDE BOOK OF UNITED STATES COINS, and this title are the three most influential books in all of American numismatic literature.

1339. Sobin, Jr., George. THE SILVER CROWNS OF FRANCE: 1641-1973. 1974. Small 4to, blue cloth, lettered in silver. 259 pp. Ills. Vals. Rarity guide. VF. (25.00)

The standard reference, this scholarly, instructive monograph covers from the period from 1080-1375 A.D. All English language references which pertain to medievals are scarce. This is one of the most eagerly pursued ANS monographs.

JAMES CHARLTON produced the first standard guide issued for Canadian coins since before World War II. Although 3 editions of Wayte Raymond's pamphlet on Canadian coins had been reprinted in 1937, 1947, and 1952, they were not as comprehensive as the Charlton guides. The first seven edition dated from 1952 to 1959 of the Charlton catalogues are genuinely scarce to rare. Produced in Canada, each was issued in a different colored printed card cover. The line drawings of the tokens are quite useful especially both sides of 47 varieties of the "Bouquet Sous". These Canadian equivalents to the REDBOOK are beginning to receive the corresponding attention from collectors. A complete set of the hardbound Whitman catalogues produced in the U.S. beginning with the 8th edition is offered in the Dr. Karl Lutomski section of this catalogue

1345. Charlton, James E. 1952 CATALOGUE OF CANADIAN COINS, TOKENS & FRACTIONAL CURRENCY. 1952, lst ed. 12mo, green CaC. 34 pages of which 3 are halftones and 12 are line drawn plates of tokens. Vals. The covers are soiled. The contents are clean and Fine. (30.00)

1346. Charlton, James E. 1953 CATALOGUE OF CANADIAN COINS, TOKENS & FRACTIONAL CURRENCY. 1953, 2nd ed. 12mo, yellow CaC. 34 pages of which 3 are halftones and 12 are line drawn plates of tokens. Vals. The covers are slightly soiled, with one spot on the back cover. The covers are Fine. The contents are VF or better. (50.00)

C-S 8522*. Tipped in is a plate illustrating the obverses and reverses of the six Canadian 1953 coins. We have found this to be by far the scarcest of the first seven editions. Neither the superb Remy Bourne library of Canadian numismatic literature which we offered in Mail Bid Sale Six nor the Dr. Karl Lutomski library of Canadian numismatic literature which we offered in Mail Bid Sale 11 had a copy of this edition.

1347. Charlton, James E. 1955 CATALOGUE OF CANADIAN COINS, TOKENS & FRACTIONAL CURRENCY. 1955, 3rd ed. 12mo, light blue CaC. 36 pages of which 4 are halftones and 12 are line drawn plates of tokens. Vals. The covers are Fine. The contents are VF. (20.00)

1348. Charlton, James E. 1956 CATALOGUE OF CANADIAN COINS, TOKENS & FRACTIONAL CURRENCY. 1955, 4th ed. 12mo, gray CaC. 36 pages of which 4 are halftones and 12 are line drawn plates of tokens. Vals. The card covers are soiled, thus VG. The contents are VF. (25.00)

C-S 8522*. We have found this to be scarcer than the third edition.

NO LOT. Charlton, James E. 1957 CATALOGUE OF CANADIAN COINS, TOKENS & FRACTIONAL CURRENCY. 1956, 5th ed. 12mo, brown CaC. 36 pages of which 4 are halftones and 12 are line drawn plates of tokens. Vals.

C-S 8522*. Although no copy of this edition is offered here, we have included this listing for the record. The 1953 second edition is the scarcest of the first 7 editions. We have found this to be the second scarcest. This edition is extremely scarce in nice condition.

1349. Charlton, James E. 1958 CATALOGUE OF CANADIAN & NEWFOUNDLAND COINS, TOKENS & FRACTIONAL CURRENCY. 1957, 6th ed. 12mo, white CaC. 36 pages of which 4 are halftones and 12 are line drawn plates of tokens. Vals. The white covers are slightly soiled, thus Fine. The contents are VF. (20.00)

C-S 8522*. This was the first edition to include Newfoundland. This edition may be next in scarcity to the fifth edition.

1350. Charlton, James E. 1959 CATALOGUE OF CANADIAN & NEWFOUNDLAND COINS, TOKENS & FRACTIONAL CURRENCY. (1958), 7th ed. 12mo, yellow glossy CaC. 40 pages of which 6 are halftones and 12 are line drawn plates of tokens. Vals. The covers are VG. The contents are Fine. (10.00)

1351. All 6 previous lots of the James Charlton's 1959 CATALOGUE OF CANADIAN [& NEWFOUNDLAND] COINS, TOKENS & FRACTIONAL CURRENCY. (155.00)

The successful bid for this lot must exceed the total of the bids for all of the preceding six lots. This is an excellent opportunity to acquire a nearly complete set of the scarce first seven editions.

1352. Dalton, Richard. and S.H. Hamer. THE PROVINCIAL TOKEN COINAGE OF THE EIGHTEENTH CENTURY. 1977 Quarterman reprint of the 1910-1914 original. 4to. cloth. 567 pp. 6600 illustrations. Nearly Mint. (85.00)

C-S 13878*. The standard reference was originally published in 14 parts between 1910 and 1914. Each token is illustrated and described, with the edges catalogued, individual rarities, historical backgrounds, diesinkers and manufacturers, quantities struck by county, and a complete reference index. A magnificent reference for a popular field that is attracting many new collectors. Always in demand.

1353. Frossard, Ed. 8 issues of NUMISMA. Most are unopened with tears along the unopened folds. Otherwise averaging VG. (40.00)

Perhaps the liveliest American numismatic periodical ever, Frossard produced 10 volumes of NUMISMA from 1877 to 1891 consisting of 60 numbers in 59 issues. Complete, original sets are rare! The most recently offered, completely original set offered was by George Kolbe in the 1983 Ted Craige sale where it sold from $1700 plus 10% on an estimate of $1250. Even the 100 copies of the reprint produced by Remy Bourne rarely appear in the marketplace Even individual copies rarely appear. Charles Davis recently offered one of the larger groupings individual issues in many years.

1354. Hewitt, Lee. NUMISMATIC SCRAPBOOK. Volume II, complete in 4 issues. 1936. 24mo, yellow CaC. 108 total pages in 4 issues. The covers of the firs two issues are soiled. The contents of each are clean and Fine or better. (50.00)

C-S 796. The print run for each 1936 issue was between 250 and 350. They were distributed free. The small issues of his first two years (1935 & 1936) are so scarce that Hewitt reprinted them in 1961. Among the contents of the issues are serial reprints of chapters from Doughty on the cents of 1804 to 1811. Complete years of either of the first two volumes are rare.

THE NUMISMATIC SOCIETY OF PHILADELPHIA was the first numismatic society formed in the United States. Nine men attended the first organizational meeting was held on December 27, 1857: Arthur G. Coffin, Joseph Mickley, William S. Vaux, John Bohlen, Mark Collet, J. Ledyard Hodge, Samuel H. Fulton, Montgomery L. Frederick, and Alfred B. Taylor. The society was formally instituted on January I, 1858 receiving a charter from Pennsylvania on February 19, 1858. [On the other hand, the American Numismatic Society's first meeting was not held until March 1858]. Because the "general interest in numismatics was not sufficient to keep [the Society] in a prosperous condition", on March 3, 1865 the name was changed to the Numismatic and Antiquarian Society of Philadelphia.

The "Proceedings" are generally octavo with printed paper or card covers with a small inkstamp of the Alabama Historical Society. Long runs of this journal are most infrequently offered. The estimates listed on the "Proceedings" are quite arbitrary due to how rarely these appear in the numismatic marketplace.

1355. The Numismatic and Antiquarian Society of Philadelphia. REPORT OF THE PROCEEDINGS OF THE NUMISMATIC AND ANTIQUARIAN SOCIETY OF PHILADELPHIA for the Years 1878 and 1879. 1880. 23 pp. Unopened. This issue announced the death of William Vaux, one of the founding members. At various times in the writings of the society, the number of founding members is listed as sven, eight, or nine although the names of all nine were listed in the CONSTITUTION AND BY-LAWS OF THE NUMISMATIC SOCIETY OF PHILADELPHIA of 1858 (not offered here).

1359. The Numismatic and Antiquarian Society of Philadelphia. PROCEEDINGS OF THE NUMISMATIC AND ANTIQUARIAN SOCIETY OF PHILADELPHIA In Celebration of the Twenty-Fifth Anniversary of its Foundation, January 1, 1858, Held Thursday Evening January 4, 1883. 1883. 26 pp. Unopened. The heavily chipped covers are disbound but present. The contents are clean and Fine. (15.00)

The photographs have been reproduced from photographs rather than the printed plates of the earlier editions." This is the best of the reprints, especially sought after for the quality plates.

This handbook is most useful in helping to understand Greek coin inscriptions. Hartmann's work originally appeared in the NORTH AMERICAN JOURNAL OF NUMISMATICS (formerly THE VOICE OF THE TURTLE). That reprints of the 3 Macdonald articles are included is generally unknown. They are "The Original Significance of the Inscription on Ancient Coins", "The Numeral Letters of Imperial Coins of Syria", "and "The Amphora Letters on the Coins of Athens", the latter two reprinted from the NUMISMATIC CHRONICLE This volume is quite usable by the non-expert.

Selections from the Holdings of JEFF ROCK

JEFF ROCK is the owner of Rosa Americana Ltd., in San Diego, a numismatic firm specializing in early American coinage. His price lists in addition to featuring fully attributed, well-described colonials and pertinent numismatic literature also include a great deal of valuable numismatic and historical text. Additionally Jeff has written important annotated bibliographical serial articles for THE ASYLUM, in addition to writing a valuable colonial reference work offered below in lot 1401.

1390. Adelson, Howard L. THE AMERICAN NUMISMATIC SOCIETY 1858-1958. 1958. 4to, red cloth. 390 pp. 23 pls. A waterstain on the front cover. A crude tape repair on the spine. Fine. (25.00)

This centennial history of the ANS is of special value not only for the titled information, but also for the substantial coverage of the early days of American numismatics and American numismatists. Much of the information contained in the chapters covering from the earliest days through the 1880s is not readily available elsewhere.

1391. Breen, Walter. DIES AND COINAGE. 1965. 16mo, tan CaC. 34 pp. Ills. VF. (10.00)

One of the "Hewitt's Numismatic Information Series". "... a description of minting and die making processes in common use from ancient times to the present day, with special emphasis on those in use from earliest days of the United States mint till now." It is this latter emphasis which is of particular interest currently although this seemingly-modest monograph belongs in every numismatic library after it has been read. Previously, this has been one of our most sought after offerings.

1392. Gilbert, Ebenezer. UNITED STATES HALF CENTS. Undated Hewitt's Numismatic Information Series reprint of the 1916 original. 12mo, tan CaC. 47 pp. 6 pls. VF. (10.00)

Another entry in the seemingly endless variety of Gilbert reprints.

1393. Hazeltine (sic), John W. HAZELTINE (sic) TYPE TABLE CATALOG OF EARLY U.S. HALF DOLLARS. Undated Hewitt's Numismatic Information Series reprint of the 1927 Mehl reprint of the 1881 original. 16mo, tan CaC. 53 pp. VF. (10.00)

One of the scarcer Hewitt series reprints, the Haseltine (pronounced Hazel-Teen) type table was the standard cataloguing reference before Beistle and Overton. Mehl's 1927 reprint was the first to misspell Haseltine's name. The widespread misspelling, for example in this reprint, is due to the scarcity of the original 1881 sale catalogue, and the wide circulation of Mehl's reprint.

1394. Kappen, Charles V. CALIFORNIA TOKENS. 1976. Thick 8vo, light blue cloth, lettered in dark blue. 746 pp. Ills. Vals. A few corrections neatly pencilled inside. Fine with the contents better. (50.00)

C-S 14036. This massive comprehensive work has price records of over $100. Jeff notes that this edition is better than the reprint. A project that took over 10 years, this was published by TAMS. Scarce.

1395. Kesse, Bruce. THE STATE COINAGE OF NEW JERSEY. 1988. Oblong 4to, black leatherette, gilt. 26 pp. 1 folded elephant folio plate folded in 4. Nearly Mint. (45.00)

This is the first distinct book to appear on the series since Maris in 1881 and the subsequent reprints thereof. "The Combinations & Rarity table included in this edition has been expanded to include post-Maris die and die combination discoveries" (From Kesse's Introduction). This includes a new checklist of combinations and rarity. The plate "has been reconfigured to illustrate new combinations of obverse and reverse dies discovered since his work." Already scarce.

1396. Low, Lyman. HARD TIMES TOKENS. Complete excerpted set of serial articles from the AMERICAN JOURNAL OF NUMISMATICS. First leaf torn, else Fine. (20.00)

Lot 313 from The Money Tree's Ninth Mail Bid Sale (July 30, 1990). This is the complete series by Low from the A.J.N. which with slight revisions was later published separately becoming the standard reference. In addition to the descriptive text with woodcut illustrations of 161 varieties, this series began with seven pages of historical background on Hard Times tokens. The specific pages which are included are July 1898, pp. 15-22; October 1898, pp. 48-56; January 1899. pp. 81-85; April 1899, pp. 118-122; July 1899, pp. 17-21; October 1899, pp. 47-52.

1397. Newman, Eric P. COINAGE FOR COLONIAL VIRGINIA. 1956. ANS NNM-135. 8vo, tan CaC. 57 pp. 6 gravure plates. VF. (15.00)

C-S 3392". Signed by Newman on the title. "Virginia halfpence have the unique distinction of being the only fully authorized coins with legal tender status specifically minted ... for any part of the English colonies which became the [U.S.]." (p.1)

1398. Newman, Eric P. and Richard Doty. STUDIES ON MONEY IN EARLY AMERICA. 1976. American Numismatic Society. 8vo, blue boards. 216 pp. Ills. The covers show some wear, Fine. The contents are VF or better. (15.00)

This bicentennial numismatic festschrift (commemorative volume) contains important papers by prominent American numismatists: Breen on French-Canadian colonials; Picker on Massachusetts silver; Newman on Bungtowns; Bressett on Vermont coppers; Taxay on Jefferson and the founding of the mint. With 13 valuable monographs about colonials, this belongs in every numismatic library.

1399. Paramount International Coin Corporation. 4 Rare Coin Lists. 8vo, with pictorial CaC. The covers are generally Fine. The contents are VF. (10.00)

Lists 4 (1972), 5 (July 1973), 6 (November 1973), & 8 (August 1974). While these list featured high grade and rare U.S. copper and silver coins, they are of special value for the quality offerings of U.S gold catalogued anonymously by David Akers. The rarities and Akers' text make these quite useful and important for collectors of and researchers about U.S. gold.

1400. [Picker, Richard and Robert Vlack]. A 6 Inch by 7 Inch Photograph of the Obverses and Reverses of 10 Nova Constellatio Cents. [1968]. 1 glossy monochrome photograph. VF. (60.00)

Jeff has indicated that only 25 copies of this were printed and the negatives were destroyed. Further, he stated that no auction records of this have been found (other than the copy in our 10th sale, lot 752), and that most copies are still in the libraries of the collectors who originally purchased them.

In our tenth mail bid sale, Jeff consigned another copy of the photograph. On heavy bidding it went for $63.00 with the estimate of $50.00. We have set the estimate for this copy at the unsuccessful bid of the underbidder in our 10th sale.

1401. Rock, Jeff. REVISED RARITY RATINGS FOR COLONIAL COINAGES. 1990. 4to, plastic spiral bound card covers. 17 pp. VF. (40.00)

Jeff wrote us that only 40 copies were printed, 10 of which were given away to libraries and researchers. This contains "revised rarity ratings, listings of all known varieties and a checklist for the following colonial coinage series: Massachusetts silver..., Connecticut coppers 1785-1788, New Jersey coppers 1786-1788, Vermont coppers 1785-1788, Massachusetts cents and half cents 1787-1788, Fugio cents of 1787 and the 'New Haven Restrikes'."

1402. Slabaugh, Arlie. PRISONER OF WAR MONIES AND MEDALS. A Priced Catalog for Collectors from the 18th Century to the Present. 1966, 2nd ed. 16mo, tan CaC. 80 pp. Ills. VF. (10.00)

One of the Hewitt's Numismatic Information Series. This is the best concise reference on the topic. Rather scarce.

1403. Stack's. STACK'S NUMISMATIC GUIDE. Coins, Tokens, Paper Money of the United States. [1941]. 8vo, red pebbled cloth, gilt. 140 pp. Ills. Fine. (15.00)

This list is especially important for the 30 page list of attributed patterns with pre-Judd rarity and price adjustments researched by John J. Ford. Also included are 5 pages of important offerings of Confederate currency with 4 rare 1861 Montgomery issues. Also offered are 189 different varieties and subvarieties of attributed Hard Times tokens, one of the largest ever. 159 different encased postage lots are listed including 4 denominations of Weir & Larminie. Lord & Taylor 90c, J. Gault 90c, R.F. Miles 5c. This is a nice copy with bright clean covers.

1404. Stack's. 12 Fixed Price Lists from No. 47 (1950) to an unnumbered 1986 catalogue, "EARLY U.S. GOLD COINS". Generally 8vo with paper or card covers. Good to nearly Mint, averaging Fine. (10.00)

Issues 47, 49, 54, 56, 57 (1792 silver centre cent without the silver center, ex-Belden Roach; 1823 & 1827 quarters), 58, 61, 72, 73, 75 (nearly 200 attributed large cents with an EF 1793 S-13 and a CF 1799 S-189), the important 1986 list of EARLY U.S. GOLD COINS

WITH 5 duplicates and a 1952 Bebee Stamp & Coin Co. 1952 BARGAIN PRICE LIST OF UNITED STATES COINS, signed on the cover by Charles Ruby.

1405. Swann Galleries Inc. (New York) Sale 1033: NUMISMATIC LITERATURE from the Libraries of F.C.C. BOYD, T. JAMES CLARK (sic), J. DE LAGERBERG, WAYTE RAYMOND and Other Sources. August 30, 1976. Small format, yellow printed CaC., lettered in black with an engraved Roman bronze on the front cover. 57 pp. 546 lots. Many prices pencilled in the margins. Fine or better. (10.00)

This is the only sale of Swann's, who specialize in auctioning rare books and printed matter, which consists entirely of numismatic literature. While the literature is well-catalogued technically, some truly important works are given woefully little attention. The catalogue notwithstanding, this was a most important sale.

Highlights include: an 1842 Eckfeldt and Dubois with the 2 gold samples, an original set of Dalton & Hamer, Herrera's 1914 EL DURO, Lockhart's CURRENCY OF THE FARTHER EAST, Eidlitz's 1927 and 1928 works on medals, Volumes 1-6 of Mason's COIN AND STAMP COLLECTORS' MAGAZINE with annotations by Homer Downing about large cents discussed within; 1858 Hickox; Hall's 1787 work on Connecticut coppers; 1937 Wurtzbach on Massachusetts silver, Slafter's 1870 work on Vermont coinage; deluxe presentation edition of the 1944 Pearl collection in white leatherette; unpublished Woodin typescripts on half eagle varieties; 1882 Johnson work on Bolen's medals; rare U.S. auction catalogues with a plated copy of Elder's Woodin sale; many plated Chapman sales.

WITH Frank Katen's 22nd Public Auction Sale.

1406. Tatman, Charles T. THE BEGINNINGS OF UNITED STATES COINAGE. 1895 reprint from the article which appeared in the AJN. 24mo, green printed paper covers. 16 pp. 1 woodcut illustration of a Fugio cent. The disbound covers are soiled, waterstained and moderately chipped. The rusted staples have bled through a bit. The contents are otherwise Fine. (15.00)

Signed on the first page by "Horace Grant, Oct.31, 1952". This was the third entry into a short lived series issued by the A.N.A. The first was COIN COLLECTING. An Introduction to the Study of Numismatics by Tatman, copyrighted in 1893. The second was THE VIRGINIA COINAGE, by Tatman copyrighted in 1894. This useful monograph primarily covers the period from 1791 through 1793. Tatman, A.N.A. member number 2, was the first secretary of the A.N.A. as a 20 year old Harvard student.

1407. WILSON'S BUSINESS DIRECTORY OF NEW YORK CITY 1884, Volume XXXVII. 1884. Thick 24mo, decorated cloth, gilt. 829 pp. Ills. The binding and the contents are loose. The covers are heavily worn. A complete research copy. (35.00)

Not only does this list contain coin and stamp dealer (Scott & Company), but also it contains engravers of the period, many of whom issued medals and tokens. It is interesting to note that immediately above the listing for "Coining" is the listing for "Coffin Dealers" and that immediately below the listings for "Coins & Stamps" is "Coke dealers". Feel free to supply your own snappy ripostes. Pages 271 & 272 contain "Engravers & Die Sinkers", and "Engravings & Prints" Despite its condition, this is still a most usable and useful directory.

1408. Vlack, Robert A. A CATALOG OF EARLY AMERICAN COINS. 1963, 1st ed. 8vo, light green CaC, lettered in black. 17 pp. Ills. But for some peripheral fading of the green card covers, VF. (60.00)

Subtitled, "A comprehensive listing with valuations of early American coins and tokens used in the American Colonies and early America prior to the establishment of the United States Mint issue of 1793 including the Washington issue up to 1796." While the 1965 hardbound second edition of this work produced by Empire Coin Company's Windsor Press is of significantly greater substantive value than this modest first edition, the second edition had a print run in the thousands.

Jeff recently spoke with Vlack who noted that only 200 copies of the first edition were printed, and that 120 copies were destroyed by a flood in Vlack's basement. Again, it seems that any green paper will fade around the periphery immediately upon contact with oxygen. Still, this is an excellent copy.

1409. 3 Envelopes Addressed to Virgil Brand by the Chapmans, by Lyman Low, and by The Elder Monthly. Each has the upper corner by the return address (affecting the return address a bit) and nearly half of the back of the envelope torn away. VG (?) (10.00?)

A Small Consignment from a NORTHWESTERN Collector

Previously we had written that the catalogues issued by Bowers and Merena are the best group of numismatic auction sales EVER issued by any firm, anywhere, anytime. Not only have we found nothing to make us change our opinion about their catalogues, but also their continuing excellence has merely reinforced our belief. The quality of their catalogues' production values is surpassed only by the quality of the offerings, which is surpassed only by the quality of the cataloguing. QDB has stated that the New Netherlands catalogues were his choice for "Desert Island" reading. These sales are our choice. The body of B & M sales represent the epitome of American numismatic auction catalogues.

Offered below are 27 Bowers and Merena sales, each one is a Special Hardbound Edition. Our longstanding preference for hardbound copies of auction catalogues is because the bindings of softbound catalogues which have hundreds of pages tend not to hold up under any but the most casual use. Except for the first two lots offered below, Parts I and II of the Virgil Brand collection, the remainder consist of 25 of 26 consecutive Bowers and Merena sales conducted between Sale 80 (January 23, 1986) and Sale 106 (November 6, 1989). The only sale which is missing is sale 94, the LLoyd Higgins sale (January 28, 1988).

1410. Bowers and Merena. [Sale 66] The VIRGIL BRAND Collection. PART I: AMERICAN COINS. November 7, 1983. 4to, brown cloth, gilt. 120 pp. 943 lots, Prl. bound in. Ills. Nearly Mint. (25.00)
THE SPECIAL HARDBOUND EDITION. The sale, which brought $1.8 million, offers extensive text and featured outstanding U. S. gold. An 1819 5D/50 brought $55,000 (and was given 2 pages of text). Also featured were an 1829 $5.00 on a large flan, an unique 1832 13 star proof $5.00. The storied 1862 British Columbia $10.00, to which 11 pages was devoted, brought $88,000. THE SPECIAL HARDBOUND EDITION. There can be no doubt that the three Norweb sales will be regarded as classics in American numismatics; The other two parts are offered later in this section. This sale is features outstanding half cents, including "the finest collection of proofs ever to cross the auction block". The 158 lots of half cents comprise one of the largest offerings, and probably the best overall offering, ever The pre-1800 issues are mostly provenanced, census coins. Many post 1800 issues are "finest knowns" and census coins. Perhaps the 52 (!) proofs are the most astounding part of the offering.

1439. Bowers, Q. David. ABE KOSOFF: Dean of Numismatics. 1985. 4to, brown leatherette, gilt. 351 pp. Frontis. Ills. Nearly Mint. (35.00)

COPY NUMBER 17 OF 500. This is a superior, readable biography of one of America s numismatic giants from the 1940 s through the 1970s. In addition to being the life story of a gentle man, it also is numismatically significant as Kosoff was directly involved with many of the significant personalities, changes and events of mid-century American numismatics. From his beginnings with the Guttag collections, to the Higgy sale which Kosoff felt represented a turning point in commercial numismatics, through F.C.C. Boyd s "World s Greatest Sales", to his A.N.A. sales, and perhaps the most intriguing, captivating story in modern American numismatics - the legendary Farouk sale, the PNG, and Kosoff s leading role as the developer of the A.N.A. grading guide - he story of Abe Kosoff is inextricably intertwined with the history of twentieth century American numismatics. The appendixes include a series of remembrances from prominent numismatists, and a bibliography of his catalogues.

Copies of the Kosoff work with low numbers tended to be reserved for presentation. Thus, this copy is especially desirable.

C-S 13330. This is a scholarly discussion of the material written by Rodney, an associate judge of the Delaware supreme court. There are 20 illustrations of Colonial currency. The tables list issuers of paper money and authorized signers, and trustees of Loan offices. Quite scarce.

1455. Storer, Malcolm. NUMISMATICS OF MASSACHUSETTS. 1923. Small 4to, original cloth and boards. xi, 318 pp. Frontis. 38 pls. The covers are worn at the corners and the ends of the spine. The contents are clean and Fine. (55.00)

C-S 15092. Ex-libris Charles Johnson. A descriptive cataloguing of nearly 200 medals and storecards in the collection of the Massachusetts Historical Society. Organized alphabetically by town or city and alphabetically or chronologically within. Storer hoped that others would follow his lead and prepare a "corpus nummorum" of minor medals for the rest of the states. This scarce original edition is especially important for the Bolen items.

CONSIGNMENTS FROM VARIOUS CONSIGNORS

This grouping features important references about a variety of aspects and areas of numismatics.

1456. Adams, Edgar and W.H. Woodin. UNITED STATES PATTERN, TRIAL, AND EXPERIMENTAL PIECES. 1959 reprint of the 1913 original. 196 pp. Ills. Slight rubbing, else VF. (15.00)
The first standard reference on patterns, later updated and revised by Judd and Breen. The best reference source for pattern collectors seeking patterns by A-W numbers.

1457. Arnold, Dr. Paul, Dr. Harald Kuthmann, Dr. Dirk Steinhilber. GROSSER DEUTSCHER MUNZKATALOG vo 1800 bis heute. 1980, 6th ed. 4to, black cloth. 440 pp.Ills. Vals. VF. (20.00)

C-S 9039". A large, quality German language reference completely covering the coinage of the German states from 1800-1871, and German national coinage from 1871. A "'telephone book' cum 'Redbook.'"

1458. Bowers, Q. David. COINS AND COLLECTORS. 1965. 12mo, yellow cloth. 214 pp. Ills. VF. (10.00)

"Different aspects of coin collecting ... together with a tour through numismatic history of the past two centuries" (cribbed from the dust jacket). QDB's debut effort as the premier purveyor of readable numismatic information of the second half of the twentieth century. An excellent survey in one of QDB's earliest efforts.

1459. Bowers, Q. David. HIGH PROFITS FROM RARE COINS INVESTMENTS. April 1974, 1st edition, 1st printing. 12mo, pictorial CaC. 208 pp. Ills. Nearly Mint. (15.00)

Now in its eleventh edition, QDB's common sense approach is a well-founded approach to coin investment (shudder !) unlike the vast majority of the other "Have I Got a Deal for You" boys. The book also contains much non-investment numismatic information, which one would expect from QDB. This is a good opportunity to obtain the scarce first printing of the first edition of this work which sold out within a month of its release.

1460. Clain-Stefanelli, Elvira. SELECT NUMISMATIC BIBLIOGRAPHY. 1965, 1st ed. 8vo, dark green cloth, gilt. 406 pp. 4962 listings. VF. (15.00)

Still the "de-facto" collectors bibliography as the second edition costs well over $100.00. Indispensable for anyone with even a peripheral interest in numismatics or numismatic literature.

1461. Cohen, Jr., Roger S. AMERICAN HALF CENTS. THE "LITTLE HALF SISTERS". A Reference Book on the United States Half Cent Coined from 1793 to 1857. 1971, 1st ed., 1st printing. 105 pp. Ills. Nearly Mint. (30.00)

1462. Craig, William. COINS OF THE WORLD 1750-1850. 1971, 2nd ed. 4to, cloth. 450 pp. Ills. Vals. Nearly Mint. (15.00)

Still of great utility and required for the Craig catalogue numbering system.

1463. Crosby, Sylvester Sage. THE EARLY COINS OF AMERICA.... 1945 R. Green reprint of the 1875 original. 4to, green cloth. 381 pp. Ills. 13 plates. VF. (50.00)

The first of the Crosby reprints, limited to 500 copies, is now quite scarce, especially in excellent condition. This includes the scarce Woodbury type plate. The gilt is bright, which is quite unusual for this work after 45 years.

1464. Davenport, John S. SILVER GULDEN 1559-1763. 1982. 8vo, green cloth. 383 pp. Ills. Nearly Mint. (50.00)
A catalogue of all the guldentalers, the 2/3 talers, 60 kreutzers, 16 gute groschen and other similar sized denominations for the period listed although there are some earlier pieces listed as far back as 1608. 1032 coins are catalogued in the best English language reference for the field. This is the second most eagerly pursued Davenport volume.

1465. De Mey, Jean. EUROPEAN CROWN SIZE COINS AND THEIR MULTIPLES. VOL I: Germany 1486-1559. 1975. Amsterdam. Folio, green cloth. 331 pp. Ills. Valuation sheet. VF. (50.00)

1466. Durst, Sanford J. CONTEMPORARY WORLD GOLD COINS, 1934-1974. 1975, 1st ed., 1st printing. 8vo, cloth, gilt. 100 pp. Ills. Nearly Mint. (10.00)
A good bullion guide which gives the sizes, the amount of gold, and the metallic content for thousands of world gold coins. During the "boom" of the late 1970's, this volume was traded for $25.00 and up. Still an excellent one volume reference.

1467. Foulke, Roy. THE SINEWS OF AMERICAN COMMERCE. 1941. 4to, blue cloth. 418 pp. 1 engraved plate. The covers are Fine or better. The contents are VF. (15.00)
A handsome bronze medal is imbedded in the cover. This volume commemorating the centennial of Dun and Bradstreet covers the history of credit in America from the Jamestown colony to the twentieth century.

1471. Galster, Georg. (Three volumes.) SYLLOGE OF COINS OF THE BRITISH ISLES. Parts 13, 14, & 15. Royal Collection of Coins and Medals. National Museum. Copenhagen. Parts III A. B. & C. Nearly VF. (60.00)
C-S 5673*. Each of the above three lots together. To be successful, the bid for this lot must exceed the total of the bids for the above three lots.

C-S 1832*. From Argonaut - "a complete and detailed sketch of the numismatic history of nearly every city, king, or dynast known to have struck coins in the ancient Greek world". The 1911 edition from which this quality reprint was prepared is still unequivocally the best single one volume reference about ancient Greek coinage.

1473. James, Marquis and Bessie. BIOGRAPHY OF A BANK. THE STORY OF THE BANK OF AMERICA. 1954. 8vo, blue cloth, gilt. 566 pp. Ills. Better than Fine. (15.00)
An important readable history of the world's then largest bank. Started by the son of Italian immigrants, the bank played an important part in the recovery of San Francisco after the great earthquake. Apparently this has been on the Harvard University recommended reading list for years.

1474. Kagin, Donald H. PRIVATE GOLD COINS AND PATTERNS OF THE UNITED STATES. 1981. 4to, black cloth, gilt. 406 pp. Ills. Nearly Mint. (20.00)
C-S 12472a. What was essentially Kagin's doctoral dissertation has now become the standard reference.

1475. Kelly, Don C. NATIONAL BANKNOTES. A Guide with Prices. 1981. Oblong 4to, green cloth gilt. Several hundred pages. Ills. Vals. VF. (20.00)
"We first describe and illustrate the various types of national banknotes .... In the main segment we present sate-by-state listings of the notes issued by each national bank with their premium values."

1476. Kimmell, Jerry. KIMMELL'S ANALYSIS OF PIONEER GOLD. 1975. 4to, printed green covers, plastic spiral bound. 44 pp. Nearly Mint. (30.00)
A privately issued listing of auction sale appearances of pioneer gold coins, this is a quasi-"Rome's Reports" going back to the nineteenth century to distill over a hundred years of auction records. "During the past 15 years, after scanning several thousand coin auction and mail bid sales, approximately two hundred and fifty have been found containing pioneer coins." Also included is a table listing the frequency of appearance of Bechtler coinage and other territorial coinage listed by denomination. This report is scarce and a most important source of information for the territorial gold researcher.

1477. Long, Richard. THE AVAILABILITY OF 20TH CENTURY MEXICAN COINS. 1976, 2nd ed. 4to, red card covers. 161 pp. 100 charts. Ills. Vals. VF. (20.00)

This is most important for articles about the availability of coins of each type. Also, includes prices in 7 grades, a grading guide, charts of values from 1960, bullion values of silver and gold coins. Much other good information about Mexican numismatics is contained herein. Quite useful and in-demand.

1478. Miller, Donald M. A CATALOGUE OF U.S. STORE CARDS OR MERCHANTS TOKENS. The Money of the Merchants. 1962. 12mo, green CaC., gilt. 100 pp. 1 plate. But for a slight bruise at the top of the backstrip, VF. (25.00)

C-S 14044. Subtitled - "A descriptive Price List of Privately Struck Tokens most of which were part of the Unofficial Coinage of the U.S." Organized alphabetically by state, with a complete index by merchant, and with valuations in two grades. Still useful and sought.

1479. Needleman, Saul B. (ed.). PERSPECTIVES IN NUMISMATICS. Studies Presented to the Chicago Coin Club. 1986. 12mo, red cloth. 364 pp. Ills. Nearly Mint. (20.00)

The Chicago Coin Club has a rich heritage. In the European tradition of classical numismatics, prominent figures write papers to honor noteworthy numismatic occasions. 21 papers are offered here, authors such as Yeoman, Bowers, Sear, Lhotka, Newman, Doty, E. Clain-Stefanelli, and Gillilland. Topics cover ancients, English merchant tokens, notgeld, U.S. copper and tokens. Also issued in card covers, this lot is the more desirable clothbound format.

1480. Newcomb, Howard R. UNITED STATES COPPER CENTS, 1816-1857. 1944 original. 4to, maroon cloth, gilt. 284 pp. 11 pls. The covers are VG. The contents are nearly VF. (35.00)

The number of copies produced of the first edition are estimated to be between 750 and 1000. The 1956 and 1963 reprints (500 produced of each) were in a slightly smaller format. The first edition is always in demand.

1481. Newcomb, Howard R. UNITED STATES COPPER CENTS, 1816-1857. 1985 Quarterman reprint of the 1944 original. 4to, gray cloth. 284 pp. 11 pls. Nearly Mint. (30.00)

This quality reprint includes the addition of John D. Wright's important 1985 data on new varieties and an updated rarity guide.

1482. Newman, Eric. THE EARLY PAPER MONEY OF AMERICA. 1967, 1st ed. 4to, maroon cloth, gilt. 359 pp. Ills. Nearly Mint. (25.00)

The first edition of this standard reference covers the "historical, statistical, and descriptive [aspects of] paper money from 1686 to 1789". Over 500 issues are included. This is a classic reference from one of America's great numismatic researchers.

1483. Parker, Wyman. CONNECTICUT'S COLONIAL AND CONTINENTAL CURRENCY. 1977. The American Revolutionary Bicentennial Commission of Connecticut. Connecticut Bicentennial Series, XVIII. 8vo, red pictorial CaC. 52 pp. Ills. Nearly Mint. (20.00)

C-S 13328. This work was not distributed through numismatic channels. Most of the illustrated numismatic items are from the Yale University collection. This excellent survey contains much data about colonial currency, counterfeiters, and engravers. Quite scarce.

1484. Schulman, Hans M.F. and H.W. Holzer. THE COIN COLLECTOR'S ALMANAC. 1946. 8vo, green cloth. 372 pp. 12 pls. VG. (12.00)

C-S 331. Most useful for the extensive glossaries, indexes, and multi-lingual translations. Perhaps the best endorsement for the book is that every copy we have encountered has been well-used, not merely shelved.

1485. Sheldon, William H. EARLY AMERICAN CENTS. 1949. 8vo, tan cloth. 339 pp. 51 collotype plates. But for a 1 inch by 1/4 inch tear in the cloth on the back cover, VF. (75.00)

The book which started it all. Just think; had Sheldon realized the impact of his grading scale on current numismatics, wouldn't he have most likely have sealed the original manuscript in a the Tomb of the Unborn Slabber. Important and still eagerly pursued for its excellent plates in addition to its historical significance. The defect on the back cover is all that detracts from what is otherwise one of the finest copies we have offered.

1486. Stack, Norman. UNITED STATES TYPE COINS. An Illustrated History of the Federal Coinage. 1977. Oblong 8vo, blue cloth, gilt. 96 pp. Profusely illustrated in color. VF. (25.00)

C-S 12346. "With the Compliments of Stack's" card taped to the front end paper. A handsome illustrated guide for the collector who wishes to assemble a complete or partial type set. Scarce and sought after in the hardbound format.

1487. Taxay, Don. AN ILLUSTRATED HISTORY OF U.S. COMMEMORATIVE COINAGE. 1967. Small 4to, blue cloth. 256 pp. Ills. The covers are Fine. The contents are VF. (20.00)

An especially elusive reference in the series. Taxay's tome is an historical, but most readable, record of the genesis of each issue. Much original research is contained herein.

1488. Taxay, Don. THE U.S. MINT AND COINAGE. An Illustrated History from 1776 to the Present. 1969, 2nd ed. 8vo, green cloth. 400 pp. Ills. VF. (40.00)

C-S 12546. This is one of the most highly thought of books in twentieth century American numismatics. This classic reference belongs in every library, numismatic or otherwise.

1489. Zimmerman, Walter. THE COIN COLLECTOR'S FACT BOOK. 1974. 8vo, blue cloth. 135 pp. Ills. Nearly Mint. (10.00)

For the novice, this modest work covers ancients, medieval and world coinage, but emphasizes U.S. coinage. This would be an excellent gift for a budding young numismatist.

1490. Bowers and Ruddy. The GARRETT Collection Sale, Part IV. March 25-26, 1981. 4to, black leatherette. 180 pp. 671 lots. Prl. Ills. 25 full color plates. Nearly Mint. (30.00)

Among the highlights of this particular Garrett sale are the unique Brasher Doubloon with the hallmark on the eagle s breast including 3 pages of descriptive text, a 1742 Brasher "Lima" doubloon, 230 lots (60 pages) of superb Washingtonia with important descriptive text, 7 lots of U.S 1792 pattern coinage with 9 pages of descriptive text, 17 important Indian Peace medals with important historical text, 90 lots of California gold, and superb early American medals. This is a superb reference catalogue for Numismatica Amoricana which is probably the future direction U.S. numismatics will take for the collector.
